HUGE BANK IS URGED.

New Plan Evolved by Vanderlip.

Gigantic Institution to Be Operated by Government Is Proposed.

New Yorker Wants Financial System Centralized Under One Control.

Would Supplant the Scheme Advocated by Wilson Administration.

[BY A. P. NIGHT WIRE TO THE TIMES.]

WASHINGTON, Oct. 23.—A government controlled and operated central bank, to dominate the financial system of the country, is the legislative arena today the rival of the administration federal reserve currency plan. Frank A. Vanderlip, president of the National City Bank of New York, explained the plan to the Senate Banking and Currency Committee. He had drafted the new scheme as a result of conferences with members of the committee who, he said, had expressed approval of such a plan.

Under his proposal the government, through a board of seven members, appointed for terms of fourteen years at yearly salaries of $15,000 or $20,000 a year, would establish a central bank with $100,000,000 capital, which would control financial conditions by powers conferred on it to regulate the money to rediscount commercial paper for banks and to concentrate in its reserve gold of the country.

Mr. Vanderlip suggested that if the stock of this institution could be sold by the public as an investment security. The stock would have no voting rights or puts in the control of the bank, which would, under all circum-

SUMMARY.

CITY AND COAST. Clear. Wind at 5 p.m., velocity 8 miles. Thermometer, 71 deg.; lowest, 59 deg. Forecast for Friday; light west wind. For complete weather report see last page of Part I.

OIL CITY. A great oil combine is to be formed, millions here for investment in oil.

Federal currency legislation was severely criticised by a member of the Chamber of Commerce of the American Bankers' Association at a banquet here last night.

Startling allegations were made yesterday in the Lyman trial by a former employee.

Life is sold of the men charged with the robbery of the Police Commissioners' safe in an end yesterday because the principal witness was unable to identify them.

The Supervisorial contingent is wondering who will succeed to Judge Conrey's place on the Superior Court bench.

Pacific Coast service is to be established at this port, the ports of a line between Los Angeles, San Francisco and Honolulu.

A young man posing as an employee of the Times was arrested yesterday, charged with blackmail.

SOUTHERN CALIFORNIA. Riverside elected with a three-cornered fight for the office of Mayor. The difficulty in finding a reader who would do justice to himself will not depend wholly upon the foregoing comprehensive table of contents, though it is, but will take in the complete News reports, which cannot be luminously summarized, epitomized or classified.

JURY FAILS TO AGREE.

Drumgoole, Who Was Implicated in Murder of Sacramento "Tenderloin Queen," May Be Tried Again.

[BY A. P. NIGHT WIRE TO THE TIMES.]

SACRAMENTO, Oct. 23.—The jury in the case of "Jack" Drumgoole, charged jointly with "Sam" Raber and Cleo Sterling with the murder, last July, of Cherry de St. Maurice, Sacramento's "tenderloin queen," failed to agree on a verdict tonight after six hours' deliberation and was discharged. Jurymen were unanimous in balloting on Drumgoole's guilt, but could not agree on a penalty. Drumgoole's defense was that Raber forced him at the point of a gun to enter Cherry's apartment for the purpose of robbery.

Raber, whose trial was held last week, was found guilty and sentenced to be hanged January 2, 1914. Raber said Drumgoole killed the woman.

ECHO OF COAL FRAUD.

Appeal of Two Men Sentenced in Seattle Argued in United States Court at San Francisco.

[BY A. P. DAY WIRE TO THE TIMES.]

SAN FRANCISCO, Oct. 23.—The appeal of John H. Bullock and Charles E. Houston of Seattle, under sentence of one year and $2000 fine each for having conspired to defraud the United States government out of approximately $50,000 on coal bids for army posts in Alaska, was argued today before the United States District Court of Appeals here. The men were convicted last November at Tacoma.

Alleged errors in the indictments and the admissibility of certain testimony at the trial are the grounds on which a new trial is sought.

An unsuccessful effort to obtain executive clemency for the pair was made toward the close of the Taft administration.

SHOT WHILE HUNTING.

Manager of California Fruit Canners' Association Is Mistaken for a Bear.

[BY A. P. NIGHT WIRE TO THE TIMES.]

SACRAMENTO, Oct. 23.—Charles M. Bentley, manager of the California Fruit Canners' Association and formerly president of the San Francisco Chamber of Commerce, was shot by an unknown hunter in the McCloud River region several days ago. A bullet from a heavy-caliber rifle shattered his arm. The hunter said he took Bentley for a bear. Bentley was assisted to the McCloud River Country Club, five miles away, by the unknown man. Bentley was sent to San Francisco for treatment. His condition is serious from loss of blood.

Confiscatory.

MORE PAY DEMANDED

Fifty Million Wage Increase Asked.

Forty Thousand Railway Engineers and Firemen Seek New Contracts.

Ninety Systems Reaching to the Pacific Coast Are Affected.

Managers Declare Cut in Present Salaries May Be the Outcome.

[BY DIRECT WIRE TO THE TIMES.]

CHICAGO BUREAU OF THE TIMES, Oct. 23.—[Exclusive Dispatch.] Forty thousand locomotive engineers and firemen employed by ninety railroads operating between Chicago and the Pacific Coast have notified officials of these lines that they will terminate their present agreements with them November 10 and demand a wage increase amounting to more than $50,000,000 a year. While the railways will refuse to grant any increase in pay, it is said to be improbable that a strike will be called. According to opinions expressed by railway officials yesterday, the entire controversy undoubtedly will be placed before a board of arbitration for adjustment. The railroads already have notified Warren S. Stone, grand chief engineer of the Brotherhood of Locomotive Engineers and W. S. Carter, grand chief of the Brotherhood of Locomotive Engineers' and Enginemen, that they are dissatisfied with the existing contracts and welcome a readjustment of wage schedules and working conditions.

One of the most important features of the proposition submitted by the engineers and firemen is a request for a joint contract with the roads. Each organization has had a separate agreement with the railways for many years and the joint contract plan is regarded as a distinct step along the lines of the federation scheme which has been agitated for a long time among railroad employees throughout the country.

MAY MEAN DECREASES.

It is expected that when formal negotiations are begun for a joint contract the railroads will contend that instead of any wage advances being conceded, a substantial number of decreases should be put into effect and important changes made in working conditions. Both the engineers and firemen are paid on the mileage basis. At present engineers on freight trains receive between $4.80 and $6.40 for very run of 100 miles, according to the type of engine handled and other work conditions. Passenger train engineers are paid between $4.15 and $5.60 per 100 miles, passenger firemen between $2.40 and $4, and freight firemen between $2.95 and $4.25. The advance sought ranges between 35 cents and $1 per 100 miles, according to the nature of the service performed.

The rail lines also have been asked to pay for overtime on the basis of a fifteen-mile run for every hour worked over ten hours. The existing rate is based on ten miles for every extra hour.

BIG INCREASES GRANTED.

Locomotive engineers and firemen in western territory have obtained, as a rule, higher pay than those employed by eastern lines. The eastern engineers were granted an annual increase of $2,000,000 in 1912 and last May the firemen in that territory obtained an advance of $3,750,000 per year. Officers of western roads assert that if the present demand is granted it will be equivalent to placing a lien upon their properties of $1,000,000,000 5 per cent. securities having preference over first mortgage bonds. It is understood that no meetings between representatives of the roads and the brotherhoods will be held before the present contracts terminate, November 10.

LAWLESSNESS IN COURT.

Striking Union Miners Attack Deputies and Cause Riot in Office of Calumet Justice.

[BY A. P. NIGHT WIRE TO THE TIMES.]

CALUMTT (Mich.) Oct. 23.—Outbreaks of lawlessness throughout the copper strike district today kept a large force of deputies and the mounted troops busy. Activities of the strikers in the Calumet district and at the Quincy mines were confined to attacks on deputies, in which a number of strikers suffered broken heads and several officers were beaten or stabbed. A feeling of unrest prevails tonight, and more trouble is anticipated.

An exciting scene was enacted at the court of Justice Jackson in Calumet this afternoon when thirteen strikers arrested as a result of disturbances this morning were being taken into court for their preliminary hearing on various charges. Strikers in the hallway attacked the deputies and attempted to block the passageway. The officers were compelled to draw clubs and beat their way through. A large crowd gathered in front of the building and a riot call was sent to military headquarters. A troop of cavalry responded and patrolled the street until the conclusion of the court proceedings.

A Chicago and Northwestern passenger train bringing three coach loads of strike-breakers for the Calumet and Hecla Mining Company, was stoned by several hundred strikers when it reached Hancock today. Sixty-eight windows in the train were broken. No one was hurt.

GARY SILENT ON THE FUTURE.

REFUSES TO CONFIRM RUMOR OF SHUTDOWN.

A Largely-Attended Meeting of United States Steel Officials at Chicago Is Being Watched Closely by Business Interests on Account of the Market Depression.

[BY DIRECT WIRE TO THE TIMES.]

CHICAGO BUREAU OF THE TIMES, Oct. 23.—[Exclusive Dispatch.] With the gathering of Elbert H. Gary, chairman of the board of directors of the United States Steel Corporation, and the members of the executive board in Chicago today, business men generally are watching closely to see what course they will adopt in view of the depressed condition of the steel market all over the world.

Mr. Gary has refused to confirm reports from Washington that the plants at Gary would be closed, and said he did not wish to discuss the steel market just now.

The fact that the railroads of the country are without funds to purchase new rails and other steel products is largely responsible for the decrease in the demand on the steel companies, and railroad men have said they do not know when they will be in a position to place large orders. At present they are buying just what they have to.

The condition of the steel market

Trapped.

LIST OF DEAD INCREASES IN DAWSON MINE HORROR.

Two Hundred and Twenty-three Men Are Now Believed to Have Perished, Although the Rescuers Have Faint Hope Few Sealed Up Room in Time to Save Their Lives After Explosion Occurred.

[BY A. P. NIGHT WIRE TO THE TIMES.]

DAWSON (N. M.) Oct. 23.—Two hundred and twenty-three miners are believed to be dead tonight beneath tons of fallen earth, timber, coal and rocks in the cuts and rooms of Stag Canon mine No. 2 of the Stag Canon Fuel Company here. Hundreds of miners, working in shifts of fifteen each, are slowly forcing their way through the rooms and entries, fighting against dangers of gas and a fire which today started in an adjoining mine and which tonight threatens to reach the space in which the entombed men were trapped. Only twenty-three men have been taken from the mine alive. At 6:15 tonight the first miner to be rescued alive within twelve hours was taken from the main entry. He was found unconscious near a mule which earlier in the evening had been found alive. The man was two miles within the mine. Thirty-eight dead, twenty-three rescued, make up the total of the day's work of recovery. The finding of the live mule in the mine late today encouraged officials in charge of the rescue work to hope that some live miners perhaps are still located more than 4000 feet in the mine.

Henry P. McShane, son of Mrs. E. P. McShane of New York City, widow of a former heavy stockholder in the mine, is among the known dead. McShane, who was but 19 years of age, had come to the mine in which his father's estate still held an interest in order to learn mining from practical experience.

U. S. CHIEF IN CHARGE.

J. C. Roberts, chief of the United States mine rescue bureau in this district, arrived today and took charge of the rescue work. Mr. Roberts stated tonight that it was impossible to tell what caused the explosion, but that it was of such violence as to cause him to lose hope for the rescue alive of any more victims.

In the mine at the time of the explosion were 284 miners, and that the death list will reach so great a figure is attributed to the fact that the great fans which kept the air circulating within the mine were rendered useless by the force of the

Detained.

AMERICAN SHIP HELD BY A MEXICAN GUNBOAT.

Mrs. John Lind and Other United States Citizens on Board.

Captain of the Morro Castle Cited to Appear Before a Vera Cruz Judge on a Criminal Charge—Lind Sends a Vigorous Protest Against the Action to Bryan—Wilson Believes England Has Gone Back on His "Policy."

[BY CABLE AND DIRECT WIRE TO THE TIMES.]

VERA CRUZ (Mex.) Oct. 23.—[Exclusive Dispatch.] The steamer Morro Castle of the Ward Line, is held up in Vera Cruz with the guns of a Mexican gunboat trained on her bow. On board are Mrs. John Lind, wife of President Wilson's special envoy to Mexico, many other American passengers and mail for the United States.

Capt. Huff, the vessel's commander, has been cited to appear tomorrow before a local judge to answer a criminal charge. What the charge is he has not been told and the Mexican authorities have not disclosed its nature.

Mr. Lind, who saw his wife go aboard the Morro Castle has sent a vigorous cablegram of protest to Mr. Bryan, Secretary of State at Washington, and to the Minister of Foreign Affairs, Mr. Moheno, in Mexico City.

The Morro Castle has been preparing to steam for two days. It was announced last night that Mrs. Lind would be among the passengers. All passengers went aboard this morning and the vessel was in shape to clear when word was sent out to the vessel that clearance papers had been refused by officers of the port. The pilot was warned not to go aboard.

Capt. Huff, with local officers of the steamship company immediately took steps to learn the cause of the holding up of the vessel and then Capt. Huff was served with the citation to appear before a local judge on the unnamed criminal charge.

While these things were transpiring ashore the Mexican gunboat Zaragoza, steamed from her anchorage in the shadow of the island fortress and took the position just off the bow of the Morro Castle.

On board the gunboat are five persons not concerned with her navigation and it is supposed these are the five men in the suite of Gen. Felix Diaz, who reached here yesterday, who were arrested for failure to obey orders from the military authorities and stay in Havana.

Gen. Felix Diaz is very much concerned over the arrest and detention of his friends and he has been unable to ascertain the cause of their arrest. Gen. Diaz does not know what he will do himself. At first he had intended to go on to Mexico City, but he changed his mind this morning, declaring he was entirely undecided on his next move.

Gen. Diaz, who went to the home of his mother-in-law, has remained there ever since. He has so far escaped arrest. But his friends believe that if he appears in the streets he will be taken into custody by President Huerta's forces. Detectives and police are watching him.

Military authorities deny the receipt of an order for the arrest of Gen. Diaz, but the assurance is not sufficient to cause the general to venture from his house into the street.

REBELS LOOKING FOR INTERVENTION

[BY DIRECT WIRE TO THE TIMES.]

WASHINGTON BUREAU OF THE TIMES, Oct. 23.—[Exclusive Dispatch.] Possibility of American intervention in Mexico, being precipitated by the Morro Castle incident, looms prominently tonight before the eyes of Constitutionalist sympathizers here.

No report of the incident has yet reached the Department of State. Immediately a dispatch from Vera Cruz was communicated to the officials of the department, a cable was sent to Consul Canada at Vera Cruz, asking for a quick report upon the affair.

The Navy Department is without advices from Admiral Frank F. Fletcher, commander of the second division of the Atlantic fleet, who is at Vera Cruz. The Navy Department authorities have every confidence that Admiral Fletcher will take such steps as may be necessary for the full protection of Capt. Huff and any of the other American interests involved.

Much will depend upon whether an effort has been made by the Mexican authorities to take Capt. Huff from his ship, which flies the American flag.

GLOOMY DAY IN WASHINGTON.

[BY A. P. NIGHT WIRE TO THE TIMES.]

WASHINGTON, Oct. 23.—An atmosphere of gravity and somber silence enveloped the Mexican situation here tonight, not only with regard to the dissatisfaction of the United State at Great Britain's attitude, but as to the critical state of affairs in Mexico City as the election of October 26 draws near.

An incident of the day, which official Washington interpreted ominously, was President Wilson's refusal to discuss Mexico or any phases of the problem when he met the Washington correspondents in the usual semi-weekly conference.

Secretary Bryan showed equal reticence.

The conclusion drawn generally was that a crisis slowly was approaching; that the arrival of Gen. Felix Diaz appeared to complicate internal affairs in Mexico, and that stern measures by the Washington government would not be surprising.

For the first time in the talk of recess and adjournment of Congress the Mexican situation was injected as a reason for keeping the national Legislature in session.

It became apparent in well-informed quarters that Great Britain's failure to repudiate the action of Sir Lionel Carden, British Minister to Mexico, who presented his credentials immediately after Huerta proclaimed his dictatorship, had caused Washington officials to feel that they no longer could depend upon the help of England in solving the Mexican problem, and henceforth the United States would go forward single-handed if necessary in a firm and aggressive policy.

Whether this will be revealed in a declaration by the United States of her intention as "the nearest neighbor" of Mexico to take such steps as will compose the situation, has not materialized, but many officials believe the Washington government will soon assert itself in a manner that will be tantamount to a notice to Europe generally that interference in Mexico is not desired by this country.

The attitude of some of the administration officials, hitherto strong advocates of a policy of moral suasion, was decidedly pessimistic today, and they reluctantly admitted that the United States government might take drastic steps.

Though officials do not discuss the British attitude in any way, persons close to the administration say the policy of Great Britain has created

(Continued on Second Page.)

"Marie Celeste."

FIND BOAT LOST SIX YEARS, FATE OF CREW A MYSTERY.

Steamer Centennial, Which Left Japan for San Francisco With Thirty-eight Men Aboard, Discovered in the Ice Off Saghalien Island, Siberia, With Nothing to Show What Became of the Sailors in Charge.

[BY A. P. NIGHT WIRE TO THE TIMES.]

SEATTLE, Oct. 23.—The steamer Centennial, which left Muroran, Japan, six years ago for San Francisco, with a cargo of sulphur, and which was never heard from afterward, is reported to be in the ice off Saghalien Island, Okhotsk Sea, Siberia.

Members of a Russian expedition bound through the Okhotsk Sea discovered the missing vessel. The lifeboats were gone, the name was partly obliterated and the iron was corroded. There was no sign of a human being on the ship. The crew must all have perished.

It is supposed the Centennial was driven from her course by storm and was caught in the ice. Capt. E. Hieber, a pilot on the China coast, who piloted the Russian expedition that found the Centennial, told G. A. Griffin, an engineer of the Philippine coast guard, of his discovery, and Griffin repeated the story here at headquarters of the Marine Engineers' Beneficial Association.

Hieber has been asked for further details. The Centennial was first named the Delta, then the Takasago Maru, then under her last title she became an Alaska gold ship, afterward a government transport, and at last passed into the hands of the Charles Nelson Company of San Francisco, her owners at the time she disappeared.

OWNERS ARE ASTOUNDED.

[BY A. P. NIGHT WIRE TO THE TIMES.]

SAN FRANCISCO, Oct. 23.—"We certainly never expected to hear again from the Centennial," was the astonished comment at the offices of the Charles Nelson Company when informed of the discovery of the missing vessel in the Arctic ice.

The Centennial sailed from this port during the Russo-Japanese War with a cargo of salt and beef for Vladivostok, under charter of Barneson & Hibbard. She was seized by the Japanese as a blockade runner, but later, when a truce had been declared, she was allowed to proceed from Yokohama to her original destination and discharge. The vessel then went to Muroran and loaded sulphur for San Francisco. She was last reported from Hakodate, February 24, 1906.

The Centennial was in command of Capt. B. Gibby, and had a crew of thirty-eight. The chief engineer was James Flannagan. At the time she was built, in 1883, she was one of the largest iron vessels afloat, having a tonnage of 2075. At that time she was sailing under the British flag, and was a side-wheeler.

During the early gold rush to the Klondike, the Centennial was put into the passenger and freight service and operated between Seattle and Nome. The only survivor of the crew who sailed from San Francisco is Chief Officer McCarron, who quit the vessel in Japan and now is in the sailors' home at Snug Harbor, N. Y.

American Ship Held.

Continued from First Page.)

an embarrassing situation here, with an ever-increasing tension. It is not likely that Ambassador Page and the British Cabinet will discuss Mexico until after the elections of October 24, as Sir Edward Grey was reported as intimating that he would not bind his government to any policy until after the elections.

There is a confident feeling in official circles that whatever pronouncement President Wilson will make after the elections will be an emphatic reiteration that the United States will stand by its policy of dealing only with governments founded on law and order, and there is a likelihood he will go a step further and assert an intention of seeing that constitutional government is maintained on this hemisphere.

The Washington administration considers that the Huerta government was tottering, that natural resentment was being manifested throughout Mexico after the arrest of the members of the Mexican Congress, when at the critical moment the presentation by Sir Lionel Carden of his credentials unrepudiated by Great Britain, had the effect of morally supporting the Huerta regime.

Secretary Bryan's only comment on the Mexican situation was to the effect that representations had been made to persuade the Federal authorities in Mexico to give the captured Maderos a fair trial. While Gen. Felix Diaz by no means is regarded with favor by the administration here, it was apparent that American officials would look with displeasure on any harm befalling him, or any other candidate in the coming elections.

GEN. FELIX DIAZ IN SECLUSION.

[BY A. P. NIGHT WIRE TO THE TIMES.]

VERA CRUZ, Oct. 23.—Gen. Felix Diaz, who arrived here yesterday on the steamer Corcovado, remained at the home of his mother-in-law tonight. He has escaped arrest so far, but his friends believe that if he should appear on the streets of Vera Cruz he will be taken into custody by President Huerta's forces. Detectives and police are watching the house, and all Gen. Diaz's plans for a visit to the capital appear to have been abandoned.

It is considered possible that Gen. Diaz will take refuge later tonight in one of the consulates. He conferred for several hours today with several of his intimate friends, while others remained outside the house, eyeing the Huerta guards and discussing resistance if the police or military attempted to serve an order of arrest.

Diaz insists that he will not flee the country and is reluctant to believe that the Huerta-Blanquet ticket has official sanction, although he admits that the wide distribution of the announcement of Huerta's candidacy makes the success of other tickets almost impossible.

This was the anniversary of the recapture of Vera Cruz by the Federals, after the Diaz revolt, when Gen. Diaz and his entire staff were made prisoners.

The Vera Cruz authorities deny the receipt of an order for the arrest of Gen. Diaz, but the assurance is not sufficient to cause the general to venture from the house.

The gunboat Zaragoza received a bill of health today and, it is reported, will sail with five passengers. It is supposed these five are the officers arrested for failure to obey the orders to remain in Havana. They are now confined in the island prison of San Juan de Ulua.

The civilians arrested yesterday have been released.

AT THE STATION.

[BY A. P. NIGHT WIRE TO THE TIMES.]

MEXICO CITY, Oct. 23.—Several hundred adherents of Gen. Felix Diaz waited two hours at the railroad station today for the arrival of their leader, whose coming from Vera Cruz had been announced in the morning newspapers. In spite of the advice given by the organ of the Diaz party that no demonstration be attempted, the general's followers had prepared to give him an ovation.

It is now expected that Gen. Diaz will arrive at the capital tomorrow, although his movements appear to be uncertain.

LONDON FOG GROWS DENSER.

[BY CABLE AND A. P. TO THE TIMES.]

LONDON, Oct. 23.—Not a word has been heard here officially from the alleged interview given by Sir Lionel Carden, the British Minister to Mexico, to which, dispatches from Washington say, the United States takes exception. No action will be taken in this direction unless the British government's attention is drawn to the matter officially.

Diplomatic circles here cannot believe that a man of the experience of Sir Lionel Carden would publicly criticise the policy of another government. The greatest confidence is reposed in the Minister by the government here. In fact, he was sent to Mexico because of his long experience there as Consul, and because of the success he achieved as British Minister to Guatemala. Should the United States object to what he is credited with saying the usual course would be for Washington to inquire from the American representative in Mexico as to the accuracy of the report before making representations. Sir Edward Grey, the British Foreign Secretary, has gone to the country for a brief vacation and this is taken as an indication that he does not consider the situation serious.

In the absence of any more information from British official quarters, comment on the Mexican situation was generally confined to brief paragraphs questioning the genuineness of the alleged interview given by Sir Lionel Carden, the British Minister to Mexico, in which he is said to have remarked that the "Washington government does not understand the situation in Mexico."

Most of the papers urge a speedy disclaimer of the interview, declaring that the Americans, being nearer the spot, are better able than Great Britain to judge where the shoe pinches.

REPORT BATTLE AT MONTEREY.

[BY A. P. NIGHT WIRE TO THE TIMES.]

MEXICO CITY, Oct. 23.—Fighting is reported to be in progress in the outskirts of Monterey. Rebels are said to have made a dash into a suburb and taken possession of some of the outlying positions.

The attack on Monterey began this morning, the first shots being fired about 10 o'clock. Shortly afterwards the telegraph lines were cut and communication ceased.

TO RELIEVE MONTEREY.

[BY A. P. NIGHT WIRE TO THE TIMES.]

LAREDO (Tex.) Oct. 23.—All Federal border forces within striking distance today proceeded under forced marches to the relief of Monterey, capital of Nuevo Leon, and an important strategic Federal stronghold, which is threatened by Constitutionalists. Monterey is about 100 miles south of the Mexican border. The bulk of this relief cannot reach Monterey until tomorrow morning.

MONTEREY SURROUNDED.

[BY A. P. DAY WIRE TO THE TIMES.]

DALLAS, Oct. 23.—A dispatch to the Times-Herald from a reliable source of the Mexican border announced that Constitutionalists had surrounded Monterey, Mex., and expected to assault that city today. Monterey is the most important city in Northern Mexico.

Gary Silent.

(Continued from First Page.)

is generally considered the barometer of business, especially in the United States, and for this reason the assemblage of high officials of the steel corporation is thought by business men generally to be of much significance.

American consumers who have been investigating the foreign markets since the enactment of the new tariff law are showing reluctance to import iron and steel unless there is a distinct price advantage shown. For this reason, it is thought foreign competition will not be an important factor, and the American market may be aided. The fact that Scotch steel-making iron similar to Bessemer manufactured in the United States, was found to be $2.50 a ton higher in another point, indicating that the market may be helped.

The heads of the subsidiary companies of the corporation, with Mr. Gary, inspected the steel mills at Gary, Ind., today.

The executive board will hold its sessions in conjunction with the fifth general meeting of the American Iron and Steel Institute. Sessions will be held tomorrow and Saturday. On Sunday, Mr. Gary is scheduled to return to New York.

Among the officials of the steel corporation in Chicago are Eugene J. Buffington, Illinois Steel Company; A. C. Dinkey, Carnegie Steel Company; E. W. Parguy, American Sheet and Tin Plate Company; W. P. Palmer, American Steel and Wire Company; W. G. Schiller, National Steel Company; August Ziessing, American Bridge Company; F. E. House, Duluth and Iron Range Railroad Company; George G. Crawford, Tennessee Coal, Iron and Railroad Company; J. H. Redd, Bessemer and Lake Erie Railroad Company; E. M. Hager, Universal Cement Company, and William A. McGonagle, Duluth, Mesaba and Northern Railroad Company.

Modern Warfare.

PLAN SURPRISE FOR GEN. MAAS.

REBELS SAY HE WILL NEVER REACH SALTILLO.

Object of Constitutionalists Is to Prevent the Issuance of a Proclamation Calling for the Elections Next Sunday—Continue Harassing Federals at Piedras Negras.

[BY DIRECT WIRE TO THE TIMES.]

EAGLE PASS (Tex.) Oct. 23.—[Exclusive Dispatch.] Methods legalized by the rules of modern warfare as well as those of Mexican origin will be used in preventing Gen. Maas and his party from reaching Saltillo during the present week according to orders issued by the Constitutionalist leaders at the front last night.

In company with Gen. Telles, the military commander of Nuevo Leon, Gen. Maas left Laredo on a special train expecting to reach Monterey tonight, but it now appears that dynamite, and poison if necessary, will be used to stop the expedition before it reaches the State capital, as the Constitutionalists seem determined to prevent a legal proclamation calling for the elections next Sunday.

In the meantime one division of the Constitutionalist army has been detailed to harass the Federals at Piedras Negras and prevent them from going to Monterey. According to information received at the office of United States Commissioner Bonnet the Federals under the command of Col. Alberto Guajardo were caught in an ambuscade for the second time at a point near Musquiz, but details of the engagement are lacking.

The prosecution of American cattlemen accused of buying stock alleged to have been stolen from the Trevino ranch has been abandoned and C. O. Fisher, the American arrested at Piedras Negras, has been given his liberty as the Federal commanders feared that the Texans might retaliate by declaring another quarantine or by expelling Huerista leaders from Eagle Pass.

It was reported at the Constitutionalist camp tonight that Gen. Felix Diaz had been expelled from the country at Vera Cruz and that he would not be allowed to become a candidate for President. This notice produced intense excitement and there is a possibility that the Constitutionalists may attempt a "Mexican" battle" in this vicinity before the day appointed for the election.

BELIEVE FLEET GOING TO MEXICO.

[BY DIRECT WIRE TO THE TIMES.]

NORFOLK (Va.) Oct. 23.—[Exclusive Dispatch.] Believing that the entire Atlantic fleet may be ordered to Mexico, a number of naval officers telegraphed their wives not to take passage to Europe as planned to meet the ships on the other side after their Mediterranean cruise. The orders received by the fleet, according to reports, have not changed previous plans for their departure from Hampton Roads on Saturday for the Mediterranean Sea. They will, however, proceed at only eight knots an hour until they receive orders from Washington. It is said at this rate the fleet could be ordered to Mexico at a moment's notice without loss of time. They will be in touch with the wireless station at Norfolk and Arlington until next Wednesday. The fleet is taking on an unusually large quantity of ammunition.

MURDER ENTIRE VILLAGE.

Revolutionists in Michoacan Also Charged With Torturing Three Prisoners to Death.

[BY A. P. DAY WIRE TO THE TIMES.]

MEXICO CITY, Oct. 23.—Revolutionists yesterday murdered the entire population, numbering about fifty, of the village of Cheran Atzicurin, in the State of Michoacan, while they were defending the village church against looters. The villagers fought until their ammunition was exhausted and then used machettes, stones and clubs to beat off their assailants, but they were eventually overcome and killed and the village was burned to the ground.

Rebels are reported to have tortured Lieut. Jose Bracamontes and two soldiers belonging to a small Federal garrison standing near Cameron, south of Nuevo Laredo, after having killed the remainder of the Federal troops.

The rebels are said to have skinned the soles off the feet of their three prisoners, walked them several miles and then beheaded them with machettes because they refused to shout for Carranza.

Independent.

WARD LINER TO CLEAR DESPITE MEXICAN ORDER.

[BY DIRECT WIRE TO THE TIMES.]

VERA CRUZ, Oct. 23.—[Exclusive Dispatch.] Despite the refusal of the government to issue clearance papers to the Ward liner Morro Castle, the American Consul, William W. Canada, issued the necessary permit from the consulate, and the vessel will steam as soon as convenient. It is not believed the Mexican gunboat Zaragoza, which is anchored just off the bow of the Morro Castle, will oppose her departure.

Five months ago Capt. Huff took Francisco Vasques Gomes from this port and refused to deliver him to the local authorities without full judicial consular orders. Consul Canada sustained Huff in his position. It is alleged government officials then threatened to effect Canada's recall and dismissal from the consular service, and Capt. Huff has been more or less persona non grata. Nothing was done, however, until today. Capt. Huff said he will steam as soon as the weather permits. A strong norther is blowing, and the heavy sea is dangerous for a ship going out.

Felix Diaz is within easiest access to the American Consulate, where he will be accorded every protection in the event an attempt is made to arrest him, as is rumored will be done. Diaz left the residence of his wife's parents at 11 o'clock tonight, and took apartments at a German hotel, where only a wall separates him from the consulate. A door opens from his room into the consulate. A small crowd of Americans, including John Lind and Consul Canada, were waiting outside the Diaz residence, and as soon as he appeared at the door they surrounded him and the party walked to the hotel two blocks away. Three of Diaz's intimate friends are with him in his new quarters.

Wrecked.

STEAMER RUNS ON REEF FORTY-FOUR DROWNED.

[BY CABLE AND A. P. TO THE TIMES.]

HERNOSAND (Sweden) Oct. 23.—The steamer Westkusten, which left Vasa in the gulf of Bothnia yesterday afternoon in a gale, ran on a reef a few hours later and forty-four persons were drowned. A single survivor was picked up by the steamer Carl von Linne and landed here tonight.

The crew succeeded in launching a boat, but the steamer sank in a few minutes, the boat was swamped.

Several of the crew clung to the rigging, but with one exception all succumbed to the cold and exposure during the night.

Overcome.

MENDEL BEILISS BREAKS DOWN.

CONTINUOUS STRAIN TELLING ON JEWISH PRISONER.

Counsel of Hebrew Charged With Ritual Murder Calls Attention of Court to Fact that Defendant's Name Was Not Mentioned During Entire Day of Proceedings.

[BY CABLE AND A. P. TO THE TIMES.]

KIEV (Russia) Oct. 23.—When the trial of Mendel Beiliss for the alleged murder of the Christian boy, Yushinsky, in March, 1911, reopened this morning, the prisoner's counsel called the attention of the presiding judge to the fact that, although the court sat yesterday from early in the morning until midnight, the prisoner's name was not once mentioned. Counsel asked the president to put this on record and he consented to do so.

The first witness called today was Xenia Diakonoff, a sister of Catherine Diakonoff, who gave such important testimony yesterday. She identified the piece of a pillowcase found near the cave in which the body of Yushinsky was discovered as similar to some she had made for Vera Tcheberiak. She also confirmed the statement made by her sister Catherine that she had stayed in Vera Tcheberiak's flat, which the latter had denied when she was confronted with Catherine Diakonoff yesterday.

Vera Tcheberiak flatly denied that Xenia Diakonoff had made any pillowcases for her, declaring she possessed no pillowcases. A former servant, Gaovsky, who also acted as janitor at the Tcheberiak house, corroborated the statement.

The strain of the trial is telling on Beiliss. At the afternoon session, although nothing in the way of evidence was being given to cause him alarm, he suddenly broke down, buried his head in his hands and sobbed aloud. The sitting was suspended to allow him to recover his composure.

NO ELECTION IN COAHUILA.

[BY A. P. NIGHT WIRE TO THE TIMES.]

LAREDO (Tex.) Oct. 23.—There will be no election in the State of Coahuila, Mex., next Sunday. This was made certain today when a dispatch was received from Gen. Joaquin Maas, the newly-appointed Federal Military Governor of Coahuila, stating that because of burned bridges it would not be possible for him to reach Saltillo, the State capital, in time to issue the requisite proclamation.

Gen. Maas and Gen. Telles, with a large force of government troops, had left Nuevo Laredo for Saltillo. The effort to reach Saltillo was abandoned today, however, and the troops are being hurried to Monterey to aid in the defense of that city, reported besieged by Constitutionalists.

CAUTIONS MEXICO ABOUT MADEROS.

[BY CABLE AND A. P. TO THE TIMES.]

VERA CRUZ, Oct. 23.—The American State Department, by way of Vera Cruz, has instructed Consul Clarence A. Miller, at Tampico, to say to the local authorities that the United States would regard with displeasure any accident to Evaristo and Daniel Madero, who are being taken as prisoners to the capital.

The Maderos were arrested recently at Monterey and are charged with complicity in a plot to turn that city over to the revolutionists.

THE BUFORD'S ARRIVAL.

REACHES SAN FRANCISCO.

[BY A. P. DAY WIRE TO THE TIMES.]

SAN FRANCISCO, Oct. 23.—The transport Buford returned to San Francisco late yesterday from a relief trip to the west Coast of Mexico. Ninety-one refugees, eighty of them Americans, were brought to this port, 156 refugees having disembarked at San Diego. Charles Jenkinson, special representative of the State Department, and the American Red Cross, who was in charge of the expedition, said today that only 2000 Americans remained in Mexico.

The Buford brought word of the supposed loss of the Mexican steamer Carmen. The Carmen left Altata for Mazatlan, a day's run, four weeks ago, and is believed to have foundered.

SCORES MOTIVE OF GOVERNOR.

McNab Objects to Judge Appointed by Johnson.

Declares Peairs Cannot Act Fairly in Oil Case.

Intimates Executive Seeks to Control Courts.

[BY DIRECT WIRE TO THE TIMES.]

BAKERSFIELD, Oct. 23.—[Exclusive Dispatch.] The motives of the Governor in appointing Judge H. A. Peairs to the vacancy on the bench of Department Two of the Superior Court of Kern county caused by the death of Judge Bennett, are attacked by Gavin McNab of San Francisco, attorney for W. S. Tevis and other defendants, in an affidavit filed by mail today in connection with the suit of the Mercantile Trust Company of San Francisco against the Sunset Road Oil Company and others which comes up tomorrow morning before Judge Peairs on a motion of the Union Oil Company as intervenor for a motion for a new trial.

In substance McNab, in his affidavit, declares that Gov. Johnson is a bitter enemy of W. S. Tevis, one of the parties concerned in the damage suit, and that he (Johnson) had in fact at the time of his appointment of Judge Peairs to the local bench the purpose of thereby wreaking vengeance upon Tevis.

McNab makes it evident in no uncertain manner that he considers that Judge Peairs would, in favoring Johnson, be compelled to do the bidding of the Governor in connection with legal matters wherein Governor Tevis were involved. McNab declares that Johnson made strenuous efforts his enmity toward Tevis in the past in San Francisco of the case of The People vr. Fremont Older and others, for criminal libel, in which the present chief executive of California was counsel for the defendants.

The attention of Judge Peairs is also called to the fact that the Governor's son, Hiram W. Johnson, Jr., is one of the attorneys of Southern Superintendent Williams, and the defunct Kern Valley Bank, also involved in the Sunset Road Oil case, are opponent of Tevis and his associates.

McNab objects to Judge Peairs presiding in the hearing of the motion for a new trial and is willing to submit the matter to any judge in the State elected by the people or to an appointee of Gov. Johnson.

One of the paragraphs in the affidavit reads as follows:

"That this affiant avers, with due respect for Your Honor, that, while the feelings that Your Honor may have held toward a Governor who is a personal and political friend, the feeling that Your Honor must entertain toward him for appointing You to or to the dignified and important position you hold, it would be contrary to the laws of human nature, no matter how much Your Honor might strive to do so, and no matter what efforts Your Honor might make to impartially consider this case, to divest yourself from bias and prejudice."

PACKARD TWO-THIRTY-EIGHT

The new model is here. It is the embodiment of Packard quality. You are invited to see this latest six cylinder Packard and inspect these attractive features.

WORM BEVEL DRIVING GEARS
Unequaled as a silent drive when installed in rear axle transmission. A new departure in mechanical development.

ONE MAN TOP
Can be raised or lowered by one man from a position in the car or on the ground

ELECTRIC SELF-STARTER
An independent motor unit for cranking only. Spins the engine at one hundred revolutions per minute.

ELECTRIC LIGHTING GENERATOR
Independent dynamo with self-contained regulator, insuring at all times a properly charged battery.

SEPARATE MAGNETO IGNITION
Magneto for starting and running, with battery system in reserve. Greatest possible insurance against electrical trouble.

CENTRALIZED CONTROL
Every switch and operating adjustment on control board just beneath the steering wheel.

LEFT DRIVE
Avoids stepping into the street. Safest in traffic.

LEFT HAND GEAR SHIFT
Adds to the convenience of driving and avoids obstructing the front compartment of the body.

SHORT TURNING RADIUS
Car turns in a circle forty-four feet in diameter.

HYDRAULIC GOVERNOR
Helps to prevent racing or stalling the motor. Steadies the car in rough going.

FORCE FEED OILING
All engine bearings, including cam shaft, floated on a film of oil under pressure. Direct leads to cylinder walls feed oil to piston thrust surface when engine is working hard.

SEVEN BEARING CRANK SHAFT
Two and one-eighth inches in diameter. Held in seven bearings in heavily ribbed crank case. Contributes to smooth running.

DRY PLATE CLUTCH
Practically indestructible. Made of hardened steel discs and asbestos lining. Does not grab nor slip. Fitted with clutch brake of uniform resistance.

TRANSMISSION
Three speeds progressive on rear axle, permitting of the lightest and most flexible chassis.

WINDSHIELD
Packard folding design with rain vision. The most rigid and enduring windshield ever built.

STEERING
Worm and nut mounted on roller bearings. Easy and safe.

RADIATOR SPLASHER
Keeps radiator clean in muddy going. The motor is mud tight. Enclosed wiring, valves and oil passages make clean design.

GASOLINE TANK
Outside of the body on rear of frame. Not necessary to disturb a single passenger when taking on supplies. Tank is sealed tightly, avoiding odor or waste by evaporation.

REAR TIRE CARRIER
Removal of tires from running board permits access to the front compartment from either side.

FRAME
Six inches deep to give maximum service. The bridge builder's factor of safety embodied in every detail of Packard construction.

ACCESSIBILITY
Every important unit of motor, clutch, transmission, brakes and steering readily accessible for cleaning, oiling and adjustments.

The Packard "2-38" Chassis, with standard 7-passenger body, built in Packard shops, $4000. Same Chassis, with special 6-passenger body, built elsewhere, $3500. Nineteen styles of open and enclosed carriages.

The Packard will run more miles with less mechanical attention than any other motor car made. Any kind of demonstration over any kind of road.

SONGS MOVE GATE CITY.

Visiting Shriners' Voices Are Accompanied by the Great Crowds Massed in the Streets.

[BY DIRECT WIRE TO THE TIMES.]

SAN FRANCISCO BUREAU OF THE TIMES, Oct. 23.—[Exclusive Dispatch.] A great tribute will be paid Vasco Nunez de Balboa and Queen Sepulveda of the Portola tomorrow. For the first time in the history of Shrinedom, a body of Shriners, in full regalia, will take part in the ceremonies and celebrations of another organization, when they march in the Portola parades.

Everything was thrown wide open to the fez-topa. People everywhere are singing and whistling, "I Love You, California" and F. B. Silverwood's new 1915 fair song, "Keep Your Golden Gate Wide Open."

This evening the $10,000,000 band and troupe of operatic stars gave a concert at the Pavilion rink to a house sold out eight days ago, and "Keep Your Golden Gate Wide Open" was formally sung and presented to San Francisco. In the morning Vasco Nunez de Balboa and Queen Sepulveda of the Portola were serenaded by the great band, under the direction of A. F. Frankenstein, who composed the music for "I Love You, California." The State's song was taken up along the massed streets and, when the chorus was played for the last time, Director Frankenstein's cheeks dripped tears as he turned to F. B. Silverwood, and said: "At last it has come—this is the first time we really have known how much Californians love our song."

TRAINING YOUTH FOR THE FUTURE

Hamburger's Manager Tells San Francisco How.

Notable Address to State Dry Goods Captains.

How Business Efficiency Is Taught in Los Angeles.

[BY DIRECT WIRE TO THE TIMES.]

SAN FRANCISCO BUREAU OF THE TIMES, Oct. 23.—[Exclusive Dispatch.] The inevitable benefits of the mercantile efficiency course, established in the public schools of Los Angeles were driven home to San Francisco by W. E. Chamberlain, manager of Hamburger's and chairman of the Business Men's Commission in an address tonight at the banquet of the State Retail Dry Goods Association in the Bay City. The speaker declared that the course would result in better citizenship, enlarged opportunities and increased earning capacity for the school pupils of the city.

Chamberlain said that the strife for commercial supremacy in California and throughout the entire United States had resulted in more consideration being given to business efficiency and economy.

WHAT HE SAID.

"The course is unique and without precedent in public schools," he said. "The object is to arouse interest in the commercial affairs of life, and teach the young men and women how, to teach them to analyze, and prepare them to meet emergencies.

OUR OWN BUSINESS.

"At first thought you may feel that this is not our business, but it is our business for more reasons than one.

"First—The public school system of California belongs to us, belongs to the citizens, the taxpayers, and not, as some people imagine, to the various boards of education. We are the ones who support financially, this most important branch of our municipality, and it is our business to see that the best results are obtained in education.

"Second—From a purely business standpoint it is to our interest to see that the future managers of commercial affairs in our State have included in their early education some practical training, along the lines of the modern methods of today.

"It is stated by men who have made a study of this subject that there are more people in the United States who make their living selling something than there are in all the trades and professions combined.

"This is a commercial nation, and California is a commercial State, and it is proper that we, as business men, should demand a course of education that will fit the rising generation to be self-supporting, and very early in their business career be able to demand results in proportion to the salary received.

"The indications are that the total enrollment for Los Angeles during the year 1913-14 will exceed by 10,000 or 12,000 that of last year. The enrollment in the elementary schools has increased at the rate of 6 per cent. during the past three years. Today Los Angeles has the largest enrollment per capita in the high schools, and the night high schools, and the elementary night schools, of any large city in the country.

AMAZING GROWTH.

"The high school enrollment in the past has grown in the last eight years from 4000 to 14,000; the number of courses of study from two to ten; the number of courses of study from four to eighteen. Los Angeles high schools have increased their enrollment the past three years 33⅓ per cent.

"These conditions have placed a considerable financial burden on the taxpayers of Los Angeles, and it is to their credit that the burden has been able to even keep pace with this increased attendance. The Los Angeles schools, in common with many of the public schools of today, have given considerable attention to the lines of training. This has been along the lines of the manual arts, industrial training and some little special training.

"They have also introduced courses for the girls in millinery, dressmaking, household accounting and cooking. Of course, in addition to these purely academic courses, including languages, journalism, dramatics and the three R's," but it has remained until this time to introduce a course which is especially planned and prepared for those who will in life make their living by selling. The course might have been called 'Salesmanship,' but it was the Business Men's Commission, who first suggested this to the Board of Education, as well as the Board of Education themselves, that the course should cover salesmanship in all the trades and professions and the benefits might be raised to an extent not only to the end that the business education, but that with the professions and the handicraft, there should be added to the curriculum attached to salesmanship.

"The results of the investigations and conferences of the Business Men's Commission have been given to the public, and at present a course along these lines is being taught to some teachers in the Los Angeles schools by Otto Buehrmann of Chicago, who was brought to the Coast by the committee. It is the intention of the Los Angeles Board of Education to complete this course with the close of the end of January, following that these teachers who are receiving this special training will impart this knowledge and education to their pupils themselves.

"What has been done in Los Angeles can be done in every city in the land, and you will perhaps be surprised to find that the Board of Education, the pupils and the public at large will meet you with enthusiasm in any suggestion in the direction of improving, in a practical way, the present course of study."

Hamburger's Manager Tells San Francisco How.

Public Address to State Dry Goods Captains.

Business Efficiency Is Taught in Los Angeles.

[BY DIRECT WIRE TO THE TIMES.]

SAN FRANCISCO BUREAU OF THE TIMES, Oct. 23. — [Exclusive Dispatch.] The inevitable benefits of a practicable efficiency course, established in the public schools of Los Angeles, were driven home to San Francisco by W. E. Chamberlain, manager of Hamburger's and chairman of the Business Men's Committee, in an address tonight at the banquet of the State Retail Dry Goods Association by the Bay City. The speaker declared that the course would result in better citizenship, enlarged opportunities and increased earning capacity for the school pupils of the city.

Chamberlain said that the strife for commercial supremacy in California throughout the entire United States had resulted in more consideration being given to business efficiency and economy.

WHAT HE SAID.

"The course is unique and without precedent in public schools," he said. "The object is to arouse interest in the commercial affairs of life, and to help young men and women to teach them to analyze, and to fit them to meet emergencies.

OUR OWN BUSINESS.

"You thought you may feel that this is our business, but it is our business for more reasons than one. The public school system of Los Angeles belongs to us, belongs to the taxpayers, and not, as people imagine, to the various boards of education. We are the ones to support financially this important branch of our municipality and it is our business to see that the best results are obtained in the best way.

"From a purely business standpoint it is to our interest to see that the future managers of commerce and industry in our State have included in their early education some practical training along the lines of the methods of today.

"Conducted by men who have made a success of this subject that there are many openings in the United States who are in need of help selling something that they are in all the trades and professions combined.

"California is a commercial nation, and Los Angeles is a commercial State, and we, as business men, demand a course of education to fit the rising generation to meet the requirements of the future, and very early in the business career be able to demand a salary in proportion to the salable value of the services rendered.

"Statistics are that the total school enrollment for Los Angeles during the year 1912-14 will exceed 50,000 or 12,000 that of last year. The enrollment in the elementary schools has increased at the rate of 2,000 during the past three years. Los Angeles has the highest enrollment per capita in the United States, and the night high schools and the elementary night schools of any large city in the country.

SHARING GROWTH.

"The high school enrollment in the past three years has increased in the last eight years from 4,000 to 14,000; the number of courses from two to ten; the courses of study from four to eight. Los Angeles high schools have increased their enrollment during the past three years 33⅓ per cent.

"These additions have placed a considerable financial burden on the citizens of Los Angeles, and it is with difficulty that the demand has been able to even keep pace with the increased attendance. The high schools, in common with the other public schools of today, are considerable attention to manual training. This has been one of the manual arts, printing and some little special training.

"We have also introduced courses of study in millinery, dressmaking, bookkeeping, accounting and cooking, and, of course, in addition to the purely academic courses, including mechanics, journalism, dramatics and the three R's," but it has remained for this time to introduce a course which is especially planned and arranged for those who will in after years make their living by selling. Many young men might have been called 'salesmanship,' but it was the Board of the Business Men's Association who first suggested this course to the Board of Education, as well as the Board of Education themselves, that a course should cover salesmanship in the largest and broadest sense, not only to the end that the student might benefit by more practical education, but that a demand might be raised to an equality with the professions and the trades and therefore attached to salesmanship.

"The results of the investigations and experiences of the Business Men's Committee have been given to the Board of Education, and at present a courses along the lines is being taught to some extent in the Los Angeles high schools by Otto Buehrmann of Chicago, who was brought to the Coast for that purpose. It is the intention of the Los Angeles Board of Education to complete this course with the beginning of the end of January, following which those teachers who are to receive special training will immediately begin their studies and education to fit themselves for the work.

"What has been done in Los Angeles can be done in every city in the country, and you will perhaps be surprised to find that the Board of Education, the pupils and the public at large will meet you with enthusiasm in your suggestion in the matter of improving, in a practical way, the present course of study."

Mexico Instructed to Restore's Fifty Per Cent.

[BY A. P. WIRE TO THE TIMES.]

MEXICO, Oct. 23.—The French Minister was instructed today to protest energetically against the increase of 15 per cent. in the customs protects imposed by the Madero government.

The Conde started from Vera Cruz at 5 o'clock this

W. E. Chamberlain,

Manager of Hamburger's, who told San Francisco how we do it at a banquet in the Bay City last night.

List of Dead Increases.

(Continued from First Page.)

explosion, permitting poisonous gases to permeate every recess of the mine. Not until four hours after the explosion were the fans repaired.

Mr. Roberts stated tonight that many of the dead yet in the mine undoubtedly were suffocated. Some of the rescue parties tonight declared it their belief that a party of the entombed miners had reached a room and had sealed it in time to keep the gas from overcoming them.

Dr. S. P. Morris, representative of this district of the American Red Cross Society, reached here at noon and at once made preparations in the name of the organization to relieve the families of the victims of the explosion.

CALLED A MODEL MINE.

The explosion at the mine, with its attendant appalling death list, has made an awful impression upon the town. The mine was supposed to have been one of the model mines in the United States, and that such a disaster could befall the men within it had been considered impossible. Only two days before the tragedy State Mine Inspector Riddow had examined the property. In telling of the explosion Mr. Roberts of the government bureau said:

"It was the impossible that happened. Just another case of the unloaded gun which discharged. What caused the explosion is a mystery which may never be solved; at least, not for weeks to come.

"The miners were at the 'high line' or main entry for tram cars when the explosion caught them, and they were buried under the debris at the mine opening. One of them escaped; the other was hurled under the tram, where his body was recovered a few hours later. These were the only men of the day shift who were not in the mine."

Those who saw the explosion say it was like a volcano in eruption. First came the roar, then the noise of the great explosion. Instantly from the two lateral entries issued flashes of flame, followed by dense clouds of heavy black smoke.

The sound of the explosion attracted practically the entire population to the mine, and women began to fight frantically to gain vantage points from which they could see the slow progress of the rescuers. Soon they began to interfere with the work and the entries were roped off, while police officers were forced to drive back the gaunt, silent, but ever-advancing throngs. And at the ropes, straining them forward as they leaned upon them, stood women through the long night, through the bitter, disappointing morning, watching silently and sorrowfully the begrimed rescuers as they carried now and then a blanketed form upon a stretcher.

At the hospital identification first is attempted without any of the relatives of the explosion's victim present. If identification fails, the body is sent to an old company store, which has been converted into a morgue. There relatives and friends are permitted to review the bodies, many of which have been mutilated beyond recognition.

That most of the miners were killed with suddenness of the explosion is evident from the attitude in which they have been found. One man, unidentified, was found leaning against a wall, with both arms elevated to his face as though he were striving to ward off a sudden and unexpected blow.

GRUESOME SPECTACLE.

The interior of the mine presents a most gruesome spectacle.

The rescuers as they proceeded, stopped only to determine that the men they found, were dead, lay them aside and make note of the entry at which they were found. For hundreds of feet into the mine lay the dead bodies awaiting the arrival of rescuers, who are not forced to use oxygen helmets and to whom time is not so precious.

Two hours is the limit of time a rescue shift is permitted to remain within the mine, and as happens occasionally, when they have overstayed that time allotment, another shift is sent to find what has happened to them. Men conducting the rescue work are in constant fear that harm will befall the men who are risking their lives to save any man who yet lives within the mine.

When a man emerges from the black cavern of death and doffs his helmet, if his face has become a bit pasty, or if his hand is a trifle shaky, he is hurried away to the Emergency Hospital for heroic treatment, and after an hour, is permitted to join the crew again.

MANAGER IS OVERCOME.

General Manager O'Brien until late this afternoon had worked incessantly within the mine as well as outside in directing the work. He had not even stopped for a bite to eat, and when in the act of placing a helmet upon his head to enter the mine again at the head of another crew he suddenly crumpled, fell to the floor, exhausted and unconscious. In such a manner are the rescuers, each of them, making their valiant fight against fire, gas, stone, dirt and coal. And these rescuers, illiterate foreigners for the most part, follow their leaders into the cavern of death without a tremor, even with a smile upon their faces and a jaunty encouraging remark to a sadly waiting wife who stands behind the ropes, perhaps with a babe clutched tightly to her breast and with red and tearful eyes transfixed upon the manway through which these men, grim and kind-hearted, are to bring her husband to her, dead or alive.

Added to the horror of the situation is the slowly smoldering fire which started early this morning in the abandoned workings of mine No. 3 and which, so far as the rescuers have been able to learn, has spread already to the inaccessible parts of mine No. 2, the very part in which it is feared the majority of entombed miners had been caught by the debris.

Nothing is visible of the fire, not even the smoke, but the word quickly passed among all the sorrowing watchers that this new danger had been added.

Tonight, grouped with the wives and women of the entombed miners, stand the wives and women of the rescuers, fearful lest the ever-expected recurrence of a slide of dirt and rock, or the sudden bursting forth of the flames will add new victims to the mine's already terrible toll.

Getting to the one room where it is believed the entombed miners still might be found alive has proved a most difficult task, as the rescuers must walk more than 3000 feet into the mine and then dig away the debris within the two short hours they have at their disposal, until their supply of oxygen becomes exhausted and they are relieved by the next crew. Because of this it is feared that several days must elapse before entrance can be gained into this room. Of the men entombed, 100 are Greeks, 100 Italians, twenty Slavs and Poles, and the remainder are of English-speaking races.

STRIKERS AID RESCUE.

VOLUNTEER FOR WORK.

[BY A. P. NIGHT WIRE TO THE TIMES.]

TRINIDAD (Colo.) Oct. 23.—Strikers and coal operators, embroiled for a month in a bitter labor war, joined hands today in efforts to rescue the miners entombed at Dawson, N. M. Seventeen strikers from Trinidad, Sopris and Starkville, who, before the strike were members of first aid and helmet teams, volunteered their services to their former employers for rescue work at Dawson. Under the leadership of the superintendent of one of the mines against which the strike is being conducted they started today for Dawson.

Unripe.

AWAIT NOD OF CAMINETTI.

REFEREE TOO BUSY TO DISPENSE JOBS.

Applications from Candidates Pile Up on the Desk of the Postmaster-General and the California Congressmen Are Similarly Afflicted, but Plums Fail to Fall.

[BY DIRECT WIRE TO THE TIMES.]

WASHINGTON BUREAU OF THE TIMES, Oct. 23.—[Exclusive Dispatch.] Let Democratic place-hunters have a heart; that batch of twenty fourth-class postmasters appointed Tuesday in California, was not the last the Postmaster-General has been promising to send in this week. He still has the list on his desk, and is waiting only for the referee, A. Caminetti, to call and say that is all right.

Of course, letters are piling in on the Postmaster-Geneneral asking why he does not get busy, but then he is used to that by this time, for the same thing has been going on in other States as well as in California, and the Postmaster-General is a patient man. He has the disposition at the present time to wait for the verdict of the referee.

It is most unfortunate, of course, that the many candidates for postoffice jobs must wait a while longer, but that is the situation. Perhaps Mr. Caminetti will get his mail all signed up soon and pass a batch of names for the approval of the White House.

Still, Mrs. Pankhurst took up some of his time, and also helped to complicate matters.

Congressman Church was back at his desk today. He found said desk groaning under a pile of letters, mostly from candidates for postoffices, but he is not doing much in the patronage line just now. Things have gone pretty well in his own district, and as for the other sections of the State, why, that is up to Caminetti and the San Francisco bunch.

He had a tentative plan to go to the Postoffice Department with Congressman Raker to talk about postoffices, but, as the Times announced, he has abandoned that plan. He can see nothing better for the anxious candidates than to write, or wire to Caminetti. Perhaps Congressman Kettner, who is in California, is giving the candidates some comfort. His address is San Diego. He rather enjoys getting letters.

The Democratic County Central Committee of San Luis Obispo county has forwarded to Washington its recommendations for several of the principal postoffices of that county. Its recommendations are as follows: Manuel S. Tregueiro, at San Miguel; Eddie L. Righetti, at Arroyo Grande; W. D. Wood, at Paso Robles; Amanda B. Walker, at Santa Margarita; Arthur I. Kahl, at San Luis Obispo.

Congressman Church today indorsed the following candidates for postoffices, who already have received the indorsement of their county committees: Wade H. Howell, at Modesto; Ralph Giddings, at Turlock; W. S. Body, at Oakdale.

Church's candidate for United States Marshal, C. T. Walton, has been indorsed by the county committee of San Luis Obispo county. This was without solicitation by Church, and he is pleased because of R. J. A. Jenkins, "of Texas" dropped in to see the Congressman today, and said that he wished to indorse Fern Cartright Catron, who wants to be postmistress at Glendora. His indorsement was very hearty, and if he has any weight with the administration the lady should get the place.

DIRECTORS RE-ELECTED.

Santa Fe Stockholders Ratify Lease of Verde Valley Line in California. Number of Stockholders Increases.

[BY A. P. NIGHT WIRE TO THE TIMES.]

TOPEKA, Oct. 23.—Stockholders of the Atchison, Topeka and Santa Fe Railroad Company re-elected today the following directors for a term of four years:

Benjamin P. Cheney of Boston, T. Dewitt Cuyler of Philadelphia, and Augustus D. Jalliard of New York.

The stockholders ratified the lease of the property of the Verde Valley Railway Company, a short line in California, and that of the Dodge City and Cimarron Valley Railway Company, from Dodge City to Elkhart, Kan. It was announced that the Santa Fe now has 37,182 stockholders, an increase of more than 5000 since the meeting of 1912.

NEW BOOKS TO READ—Just Out

A Thrilling Book.

GOLD

By Stewart Edward White.

Author of "The Riverman," "The Blazed Trail," "The Rules of the Game," etc.

A throbbing story of men's passions chock full of the real adventurous spirit that was abroad in the 49's. Romance once held high carnival in the land and the electric news of gold discoveries in California drew thousands around the Horn or across Panama to the Pacific and thence to the diggings. As a picture of this feverish time when men dared all to win or lose a fortune, "Gold" will remain unforgettable. The very restraint of its realism giving an indelible quality to the exciting and many-colored life of the mining camp.

Illustrated in color by Thomas Fogarty. Net $1.35.

A Joyous Book.

The Children's Book of Christmas Stories

Edited by Asa Don Dickinson and Ada M. Skinner

Here you have the child's own Christmas book. The stories are those prime favorites that have become part and parcel of the festival. A valuable feature is that the stories are for different ages, indication of this being given in the table of contents. Librarians and teachers, take notice. Frontispiece. Net $1.25.

An Amusing Book.

The Best Stories in the World

Edited by Thomas L. Masson of "Life."

About 400 gilt-edged reasons for laughter. Stories selected by Thomas L. Masson of "Life," who for twenty years has seen the cream of the world's humor. If these do not move you, why, pray, should you be amused at all? Net $1.00.

An Inspiring Book

THE MIXING:

What the Hillport Neighbors Did.

By Bouck White

Author of "The Call of the Carpenter," etc.

You can't read Bouck White's book without a feeling of neighborliness for the people about you. What a group of summer people did for the little town they were in suggests a hundred ways of social help and co-operation. The book is inspiring and quite practical. Net $1.20.

A Clever Book.

CROWDS

By Gerald Stanley Lee.

"A cupful of common sense with a quart of idealism poured over it. Get a copy and watch it swell."—Life.

"Crowds belongs with that class of books of whose doctrines the uncultured crowd sometimes says, 'That's just what I've thought—but I couldn't say it.' Mr. Lee says it."—The Detroit Free Press.

Fifth great printing. Net $1.35.

A Much Discussed Book.

VIRGINIA

By Ellen Glasgow, author of "The Miller of Old Church," etc.

We expect something distinctive from this author and her latest book splendidly fulfils our hopes. From beginning to end the book is alive with absorbing interest, and all the characters are convincing in their realism. A sure touch is manifested throughout. It is a striking work, in style, in thought, in sympathy and understanding."—London Daily Herald. Frontispiece. Net $1.35.

GREETS MASONS AT WHITE HOUSE

Wilson Receives Members of the Supreme Council.

Contract Awarded for New Temple in Washington.

Many Californians Receive Honorary Degrees.

[BY DIRECT WIRE TO THE TIMES.]

WASHINGTON BUREAU OF THE TIMES, Oct. 23.—[Exclusive Dispatch.] All the active and honorary thirty-third degree Masons who are in Washington to attend the Supreme Council of the Scottish Rite for the southern jurisdiction of the United States, were received at the White House by President Wilson this morning. There were about one hundred present.

The Supreme Council met in executive session again today, the principal business taken up being the awarding of a contract for the completion of the new Masonic Temple in Washington.

The Supreme Council has elected 296 Masons to be Knights Commander of the Court of Honor, and conferred the thirty-third degree honorary on 170. Thirty-one States, Porto Rico, the Canal Zone, and the Philippines were represented in the list of those who received honors or degrees.

THIRTY-THIRD DEGREE.

Among those who received the thirty-third degree were the following: From Iowa—George Martin Bechtel, David Davidson, Thomas Matthew Giberson, John Taylor Hamilton, George Jepsen, Melborn McFarlin, Allen Emmett McManus, William Henry Norris, Henry Clay Plumb, Joseph Gage Rounds, Almor Stern, John Robert Thompson.

The following Iowans were made Knights Commander of the Court of Honor: Oswald Becker, Elmer Harley Bickford, Charles McMunn Cathcart, Parker Leslie Crouch, Everett Jerome Doolittle, John Craig Dunlavy, Frank Wolcott Ellis, Kent Corwin Ferman, Wilbur Walker Fidlar, Walter Byron Howard, Charles Samuel Huber, Robert Hunter, Frederick William Hoch, Francis Randolph Kerns, Eugene Mannheimer, Philo John Martin, Frederick Weller Robinson, Woodbury Sanborn, Alfred Garrett Smith, Forest Shepard Treat, John Delbert Van Allen, George Elmer Wells, Charles Brown Whelpley, Willard Baxter Whiting and William Fiske Cleveland.

WESTERN SLOPE HONORS.

The honor of Knight Commander of the Court of Honor was conferred upon the following from California, Nevada and Arizona:

Northern California—Duncan Donald Allison, Herbert Z. Austin, Joseph Philip Bernhard, Earle Faldo Binkley, Charles Hardie Campbell, Charles Duebel, Edward Elizur Goodrich, Otto Ferdinand Grundel, Roderick George Guyett, Edward Henry Hart, Thomas Ochtreigh Heydenfeldt, Frank George Kenne, Max John Kuhl, Henry George Ilderton, Frank Durning Moyer, Thomas Muirhead, Robert Austin Peabody, George Mairs Perine, Jesse Claude Perry, Carl Werner, Jesse Meigs Whited and George Filmer.

Southern California and Arizona—Harry Wilber Asbury, Joseph Fleishman Chambers, Thomas Richard Coles, Edward Francis Dishman, Frank Graham Finlayson, Edward August Geisler, William Henry Gilbert, Ferguson Smith Harding, Ernest Claudius Hickman, Julier Clyde Hizar, William Parrish Jeffries, Mose Eggleston Kelley, Harry Clifton Knox, Charles Penny Lyndall, Montgomery McDonald Moulton, Frank Wilkins Robinson, George Herbert Wigmore and Arthur Wright.

Nevada—Alexander James Barclay, Silas Earl Ross and Robert Hazard Parker.

HONORARY DEGREES.

The thirty-third degree honorary was conferred on the following from the same States:

Northern California—Arthur Morris Flood, Ellis Franklin, John Augustus Hill, Benjamin Oliver Johnson, Francis Valentine Keesling, Harry Maundrell, Albert Lippett Smith, Frank Wesley Smith, Edward Warren Tucker and James Andrew Wilson.

Southern California and Arizona—Charles Vollum Ecclestone, Motley Hewes Flint, William Augustus Hammel, Francis Henry Mead, Irving Jefferson Mitchell, Thomas William O'Reilly, Francis Marion Parker, Thomas Charles Peck, Sanford Torrey Tyler and William Henry Vedder.

Nevada—Henry William Miles. An invitation from the California bodies, handsomely engrossed on parchment and sealed was presented to the Scottish Rite Supreme Council this morning by Sovereign Grand Inspector-General William Parker Filmer of the Northern California jurisdiction, asking that the next session of the Supreme Council be held in California.

It was received but declined with thanks by the Supreme Council. Tomorrow evening the newly-elected thirty-third degree honorary members will receive their degree at the cathedral.

PROTECTS U. S. UNIFORM.

War Department Sanctions Bill to Prevent Discrimination Against the Garb of Soldiers or Sailors.

[BY A. P. NIGHT WIRE TO THE TIMES.]

WASHINGTON, Oct. 23.—The War Department has given its approval to the first draft of a law designed to uphold the dignity and honor of the military uniform of the United States in all of the States and Territories and in the insular possessions. The measure forbids discrimination in any public place against any officer or enlisted man wearing the uniform of the army, navy or Marine Corps, and likewise prohibits any person not duly authorized from wearing the uniform or any part of it. Offenders could be prosecuted in any United States court.

This measure, which will be submitted to the next Congress with the approval of Secretary Garrison, is the outgrowth of a movement started more than three years ago by Mrs. Russell M. MacLennan of this city. Aroused when three enlisted men of the Marine Corps were expelled from a local theater, Mrs. MacLennan voiced her protest and was at first instrumental in obtaining the passage by Congress of a measure protecting the uniform and its wearers in the District of Columbia, the Territories and insular possessions.

Realizing that the work of putting a law through each of the State Legislatures would be slow and arduous, Mrs. MacLennan besought President Wilson and Secretaries Garrison and Daniels to aid in the enactment of a Federal statute.

POSTOFFICE CHANGES.

The Branch at Casa Verdugo Is Ordered Removed to North Central Avenue.

[BY DIRECT WIRE TO THE TIMES.]

WASHINGTON BUREAU OF THE TIMES, Oct. 23.—[Exclusive Dispatch.] Samuel S. McFarland of Beverly Hills has been commissioned as postmaster of Beverly Glen, in Los Angeles county, four miles from Beverly Hills, which will supply it with a special service.

Casa Verdugo, a branch of the Los Angeles postoffice, has been established at No. 1129 North Central avenue, in lieu of the postoffice at Casa Verdugo, which is discontinued, effective November 1.

The summer postoffice at Bass Lake has closed for the season. Mail for this office should be sent to North Fork, Madera county.

NAME DAHLIA BURLESON.

Postmaster-General Has New Botanical Fame Thrust Upon Him in Baltimore.

[BY A. P. NIGHT WIRE TO THE TIMES.]

WASHINGTON, Oct. 23.—Fame sought out Postmaster-General Burleson today and cloaked him when it produced a new variety of dahlia and named it "the Burleson." W. H. Harvey, a clerk in the postoffice at Baltimore, was the humble agent through which the investiture was accomplished. Mr. Harvey dug and delved and produced the new bloom. "And it's a corker," he said proudly. "It's worthy of the distinguished name it bears."

The Postmaster-General evidently subscribed to Mr. Harvey's views, for the "Burleson" dahlia rested proudly in a vase on the official desk today.

VENICE GROWING.
GETS FREE DELIVERY.

[BY DIRECT WIRE TO THE TIMES.]

WASHINGTON BUREAU OF THE TIMES, Oct. 23.—[Exclusive Dispatch.] Venice has arrived at the dignity of free city mail delivery. The department has ordered the establishment of a service effective February 1, with four carriers, one substitute carrier, twenty-two street letter boxes, one package box and twenty-two steel posts.

Test for Postmaster.

WASHINGTON BUREAU OF THE TIMES, Oct. 23.—[Exclusive Dispatch.] A civil service examination will be held on November 22 for postmaster at Cressy, Dorris and Petrolia.

Pensions to Californians.

WASHINGTON BUREAU OF THE TIMES, Oct. 23.—[Exclusive Dispatch.] Pensions have been granted as follows: Arthur Johnston, Long Beach, $25; Anna Burgher, Middletown, $12; Margaret Gunsolis, San Francisco, $12; Amanda E. Stewart, San Jose, $12.

Appoints Bakersfield Woman.

WASHINGTON BUREAU OF THE TIMES, Oct. 23.—[Exclusive Dispatch.] Fannie M. Hess of Bakersfield has been appointed Postmistress of a new postoffice established in Kern county, and to be known as Progress. Earnest A. Sinclair has been reappointed under civil service as Postmaster of Glenblair, Mendocino county.

Break Sacramento Deadlock.

SACRAMENTO, Oct. 23.—[By A. P. Night Wire.] After balloting for a month the City Commission today broke the deadlock by unanimously selecting Henry Elliott as Commissioner of Finance to succeed J. A. Filcher, resigned. Elliott was a compromise candidate.

Oppose Hetch-Hetchy Plan.

WASHINGTON BUREAU OF THE TIMES, Oct. 23.—[Exclusive Dispatch.] The Santa Barbara Audubon Society has forwarded to Washington, copies of a resolution it adopted opposing the transfer of Hetch-Hetchy to San Francisco for a reservoir site.

Nominates Indian Commissioner.

WASHINGTON, Oct. 23.—[By A. P. Night Wire.] President Wilson today nominated Edgar B. Merritt of Fayetteville, Ark., for Assistant Commissioner of Indian Affairs.

PRAISES AMERICAN METHOD.

Lloyd George Tells Suffragists Women Are Winning Here by Peaceful Methods.

[BY CABLE AND A. P. TO THE TIMES.]

SWINDON (Eng.) Oct. 23.—Chancellor of the Exchequer Lloyd George believes that a measure giving the preliminary suffrage to women in the British Isles will become a law within a short time, but not during the present Parliament. He said this today in reply to questions put to him by a deputation from a number of suffrage societies.

"They are winning State after State in the United States," the Chancellor of the Exchequer said, "and it is very significant that Mrs. Pankhurst had to give a pledge that there would be no militancy there—not even preached. That shows that in a country where women have won the vote it has been achieved by peaceful methods."

ARSON SQUAD AT WORK.

[BY CABLE AND A. P. TO THE TIMES.]

LONDON, Oct. 23.—An arson squad of militant suffragettes today set fire to and destroyed the sports pavilion of Brixton University.

Washington.

SEAMEN'S BILL PASSES SENATE

As Amended President Would Readjust Treaties.

Measure Would Give Greater Freedom.

La Follette Attacks Commissioner of Navigation.

[BY A. P. NIGHT WIRE TO THE TIMES.]

WASHINGTON, Oct. 23.—The La Follette substitute for the "white servitude" bill, as amended to affect the treaty relations of the United States until the Powers have been given an opportunity to act upon them, passed the Senate today at the end of a debate that was characterized by unusual proceedings.

In the end the debate became a eulogy of Andrew Furuseth, president of the Seamen's Union, who was lauded as the man chiefly responsible for the passage of the bill.

Senator Fletcher, chairman of the subcommittee in charge of the preparation of the seamen's bill, defended the measure as passed by the Senate today would accomplish three important shipping reforms: The granting of greater freedom to seamen, the promotion of greater safety to the lives of passengers, and crew, and the abolishing of the wage costs in operating vessels in foreign and domestic trade.

Efforts by Senators Bourne and Burton to amend the bill, failed.

Senator La Follette closed the debate on the measure with a speech in which he said, ought to be removed. declared Chamberlain had not since President Cleveland's administration by "trimming and twisting," but that all of them showed that his recommendations into the interests of the shipping interests.

Senator La Follette declared that Congress and the Commerce Department of the government had "shown a subservience to the shipping interests."

INDUSTRIAL BOARD CRITICISED.

Commission Empowered by Congress to Investigate Labor Conditions, Holds First Meeting.

[BY A. P. DAY WIRE TO THE TIMES.]

WASHINGTON, Oct. 23.—[Exclusive Dispatch.] At the request of the Federal Industrial Commission, which is empowered by Congress to investigate economic conditions in the United States, held its first meeting today and elected Frank P. Walsh of Kansas City, permanent chairman, and Prof. J. R. Commons of Madison, Wis., temporary secretary.

Mrs. J. Borden Harriman of New York, Frederick A. Delano of Chicago, Harris Weinstock of Sacramento, S. T. Ballard of Louisville, John B. Lannon of Boston, James O'Connell of Washington, and Austin B. Garretson of Iowa, the other commissioners, all were present. The commission was created by Congress, which expressed the hope and belief that with the members conferred on it, the body would be in position to accomplish many previous commissions had failed to do. Frank P. Walsh, secretary of the federation, and Felix Cohen of New York, also were present.

Later the commissioners called on President Wilson, who outlined to them briefly.

BLUE GUMS FOR LUMBER.

Forest Service Reports Many Selected Trees Which Can Be Treated in Kiln.

[BY DIRECT WIRE TO THE TIMES.]

WASHINGTON BUREAU OF THE TIMES, Oct. 23.—[Exclusive Dispatch.] The forest service is experimenting with blue gum grown in California in the preparing it in a special kiln. It states while some selected blue gum trees of this size will furnish lumber suitable for lumber.

PERKINS'S GOOD RECORD.

Senior Senator Says He Has Missed Sessions only Twice in Twenty Years.

[BY DIRECT WIRE TO THE TIMES.]

WASHINGTON BUREAU OF THE TIMES, Oct. 23.—[Exclusive Dispatch.] George C. Perkins, senator from California, has a perfect attendance record, although he has gone home, he had to do it. Because of his departure from Washington fifteen days from his record for long terms of service. In the senate today was read a message from Senator Overman in response to messages sent out to the senators by them to return, saying that he had been in the years' service he had been absent from the Senate when in session only two days. He explained he was detained by illness, and would report to the senate as "able to travel."

CAPITAL'S TRIBUTE.

Fountain Erected in Memory of Two Titanic Victims Is Dedicated at Washington.

[BY A. P. DAY WIRE TO THE TIMES.]

WASHINGTON, Oct. 23.—The fountain will be completed in the near future for the dedication of which was erected south of the White House in memory of Maj. Archibald Butt, former White House aide, and Francis D. Millet, noted artist and author, who lost their lives in the Titanic disaster. Announcement of the completion of the fountain was made today. Former President Taft is chairman of the committee which raised the fund.

CALIFORNIA POSTS ASK CONDEMNED GUNS.

[BY DIRECT WIRE TO THE TIMES.]

WASHINGTON BUREAU OF THE TIMES, Oct. 23.—[Exclusive Dispatch.] The Black Point, San Francisco, has appealed for the old Civil War cannon to be used in adorning the plot in the cemetery. Hopkins submitted the request to Chief of Ordnance of the War Department.

New Arizona Postoffice.

WASHINGTON BUREAU OF THE TIMES, Oct. 23.—[Exclusive Dispatch.] The order creating a postoffice at Stanley, Cochise county, Arizona, has been rescinded. A new office has been established at Portal, Cochise county, Arizona, and Mrs. Lavern of Phoenix has been appointed postmaster.

Railroad Record.

PERMIT RAILWAY TO RAISE RATES.

Petition of Boston and Maine Will Be Granted.

Precedent Commission Sets Important Precedent.

Money Needed to Stave Off Receiver, Says Elliott.

[BY A. P. NIGHT WIRE TO THE TIMES.]

BOSTON, Oct. 23.—The investigation of railroad rates in New England, which has been conducted by the Interstate Commerce Commission at various times in the last year, was brought to a close today after Howard Elliott, chairman of the New York, New Haven and Hartford directors, and Morris McDonald, president of the Boston and Maine, had been heard.

Charles A. Prouty of the Interstate Commerce Commission, who sat with the commissioners of Maine, New Hampshire, Vermont and Massachusetts, after the hearing that without doubt the Boston and Maine would be permitted to increase its rates.

Mr. Elliott told the commission today that the New Haven road controlled the Boston and Maine, and was interested vitally in its success. The Boston and Maine, he said, must have additions of $27,000,000 within the next six months or go into the hands of a receiver.

Referring to salaries, McDonald said that an allowance of $60,000 was made last June to former President Charles S. Mellen, who had been receiving a salary. The Maine Central allowed $40,000 to Mr. Mellen.

Mr. McDonald said that he was receiving $25,000 as president of the Boston and Maine, and $15,000 as president of the Maine Central, although he was only to give his Sundays and possibly a few Saturdays to the latter road.

Questioning Mr. McDonald, Commissioner Prouty said: "It is our opinion that the man who is president of the Boston and Maine has enough to do to devote all his time to that road."

RATE SWITCHING CHARGE.

SAN FRANCISCO OBJECTS.

[BY DIRECT WIRE TO THE TIMES.]

SAN FRANCISCO BUREAU OF THE TIMES, Oct. 23.—[Exclusive Dispatch.] At the request of the chamber of commerce bureau of the Chamber of Commerce, the Public Utilities Committee of the Supervisors voted 3 to 2 to investigate the condition in the proposed Third-and-Townsend-streets franchise of the Southern Pacific Company that would abolish the switching charge of $15 a car on all line-haul cars and transfer points to or from industries located within the switching limits of San Francisco.

Supervisor Vogelsang voted against the recommendation of the committee, because, he said, while the switching charge is wrong and discriminatory and ought to be abolished, yet other commissioners did not have the legal power to insert it as a condition in the proposed Third-and-Townsend franchise.

J. P. Wheeler and Seth Mann, attorneys for the traffic bureau, declared that the Southern Pacific Company makes this switching charge in other cities of the State, except in the cities of Los Angeles and San Diego, and practically in no other city. The charge was not made in Sacramento, Stockton, nor anywhere in the State of Oregon. Wheeler further stated that the railroads throughout the nation did not make the switching charge in favor of the East, to which the city of San Francisco objected. Wheeler stated that for the entire city of San Francisco this switching charge amounted to about $250,000 a year, and that it is proving a burden to the city's commerce. The Chamber of Commerce, he said, had the matter before the Interstate Commerce Commission and secured a decision in favor of the city; the company had appealed it to the Commerce Court and there secured a reversal of the decision, and the city had appealed it to the Supreme Court of the United States, where it is now pending.

TO INFLUENCE MEXICO.

CHICAGO, Oct. 23.—The Mexico City Club, recently organized, held its first meeting here today. Robert Lansing, the president, in an address, declared that the society must devise some way whereby the influence of Americans who are thoroughly acquainted with the situation in Mexico may be effective in any programme to safeguard American interests in Mexico.

New Angle.

HARRY THAW IS IN ON CONSPIRACY

[BY A. P. NIGHT WIRE TO THE TIMES.]

NEW YORK, Oct. 23.—A blanket indictment, charging Harry K. Thaw and four others with conspiracy in connection with his escape from Matteawan State Hospital for Criminal Insane, in August, was returned by the grand jury here this afternoon. It will be used as a basis by William Travers Jerome in efforts to extradite Thaw from New Hampshire.

The others indicted were former Deputy Sheriff Richard Butler, Michael Conley, "Gentleman Roger" Thompson, Eugene Duffy, who are alleged to have been Thaw's companions in the automobile in which he escaped, and three are the same men for whom warrants were issued in Dutchess county after Thaw's flight.

The warrants on today's indictment were issued by the court and delivered over to detectives of the District Attorney's office. Mr. Jerome announced that he would ask at once for extradition papers on the new charge to be sent to Governor of New Hampshire. Thomas E. Gressman, counsel for Thaw, announced the indictment as a conspiracy.

"A person who has been committed to an asylum as insane cannot be adjudged guilty of conspiracy," he said. "I do not believe the indictment will stand and I doubt if it will affect the status of the case in New Hampshire."

THAW LAUGHS AT BILL.

[BY A. P. NIGHT WIRE TO THE TIMES.]

CONCORD (N. H.) Oct. 23.—When informed that an indictment charging conspiracy had been returned against Harry K. Thaw in New York today, Harry K. Thaw issued the following statement: "Does this indictment mean that Judge Foster of the Court of General Sessions will keep me for months, perhaps years, in the county jail on the charge of conspiracy, that the grand jury in New York has indicted me for answer can be made to the charges."

GOVERNOR'S REPLY.

[BY A. P. NIGHT WIRE TO THE TIMES.]

ALBANY, Oct. 23.—Governor Glynn announced today that he would not be pressed to issue a requisition for the extradition of Harry K. Thaw from New Hampshire until the New York authorities are all through with him. The Attorney-General of New Hampshire, Franklin R. Jones, has issued a record with Governor Felker, asking that Thaw be returned to New Hampshire to serve out the sentence imposed upon him for the murder of Stanford White.

ANOTHER POSTPONEMENT.

[BY A. P. NIGHT WIRE TO THE TIMES.]

CONCORD (N. H.) Oct. 23.—Further postponement of the extradition hearing of Harry K. Thaw, now in New York, was granted by Governor Felker, Chief Executive of New Hampshire, today. Thaw's counsel asked for the postponement because Thaw had returned a New York court. It was said that the hearing would probably be held December 27.

Those of Thaw's friends here tonight who had expected to see the new

NEW LAUGHS AT BILL.

[BY DIRECT WIRE TO THE TIMES.]

CONCORD (N. H.) Oct. 23.—When ... an indictment charging ... had been returned against ... in New York today, Harry K. Thaw issued a signed statement which said:

"Does it not appear plain that no indictments can be legal from the fact that Judge Seabury of the Supreme Court of New York, within six months, instructed the New York county grand jury of the April, 1913, term, that I was to be considered by the grand jury as under commitment in New York as irresponsible? What answer can be made?"

GOV. GLYNN SATISFIED.

[BY A. P. NIGHT WIRE TO THE TIMES.]

ALBANY (N. Y.) Oct. 23.—Gov. Glynn and Atty.-Gen. Carmody expressed tonight the opinion that the extradition papers for Thaw's return now in the hands of the New Hampshire authorities, charging conspiracy, are all that will be necessary. The Attorney-General probably will direct either William Travers Jerome or Franklin Kennedy to proceed to Concord and file a copy of the indictment with Gov. Felker.

ANOTHER POSTPONEMENT.

[BY A. P. NIGHT WIRE TO THE TIMES.]

CONCORD (N. H.) Oct. 23.—A further postponement of the hearing on the extradition of Harry K. Thaw to New York will be granted by Gov. Felker. On hearing tonight that Thaw's counsel would request a postponement in view of the indictment returned against Thaw by the New York county grand jury, the Governor said that the request will be granted. The hearing has been set for October 27.

Those of Thaw's counsel who were here tonight said their plan of action could not be decided until they had seen the new documents in the case.

Huge Bank is Urged.

(Continued from First Page.)

stances, rest entirely with the government.

VANDERLIP EXPLAINS.

Mr. Vanderlip pointed out that his bill differed from the administration plan in that it eliminated the banks from participation in the administration of the system, which would control the issue of currency. In the pending bill, the banks would own the stock and elect six of the nine directors of each of the regional reserve banks, which would issue currency, make rediscounts and hold bank reserves under the control of the Federal Reserve Board.

The Vanderlip plan differed from the so-called Aldrich plan, proposed by the National Monetary Commission, in that the latter provided for central and subsidiary banks, owned and controlled by the member banks themselves.

Senators Bristow, Reed, O'Gorman and Hitchcock of the committee, expressed themselves tonight in favor of the principle embraced in the Vanderlip plan.

REED FAVORS PLAN.

"This is the plan Senator Hitchcock and I have favored since consideration of currency reform began," said Senator Reed. "The only question is whether it is not proposed in concrete form too late to make it advisable to alter so radically the provisions of the bill under consideration."

The Vanderlip plan will be taken up by the committee in connection with the President's concession that the number of proposed Federal reserve banks could be cut down from twelve, the number fixed in the bill, without altering the basic principles of the administration measure.

Senator Bristow said that he favored such a plan because he believed it would operate to prevent a concentration of credit and money.

Mr. Vanderlip said he had talked over his plan with a few bankers and that they favored it.

"Do you think bankers generally would accept it or would we have another Boston convention if we adopted it?" asked Senator Reed.

"I think bankers generally would be somewhat shocked at first by the idea of absolute government control," answered Mr. Vanderlip, "but I think that when they understood the safeguards thrown about the appointment of the controlling board and the quality of men who would be named, they would accept it with favor. It eliminates the provision of the administration bill which would force banks to supply a part of their funds to the national system, eliminates the objectionable provision that would compel mutual rediscounting among Federal reserve banks and provides for the issue of true bank notes instead of government fiat money."

The plan as detailed by Mr. Vanderlip would allow the bank to take up the 2 per cent. bonds, upon which the present bank note currency is based and to issue one-year notes at 3 per cent. These notes would be subjected to renewal at the option of the government for twenty years and would be used by the bank to buy gold abroad when its reserves fell low, or to check exports of gold.

"The head office of the Federal bank would be in Washington with twelve branches in cities selected and sub-branches wherever designated by the board of the Federal bank," said he. "The stock of the Federal bank might be subscribed entirely by the government or offered for public subscription, but holding national banks liable for the purchase of their pro rata proportion of any stock not taken by the public."

CURRENCY BILL HITS CALIFORNIA.

[BY A. P. NIGHT WIRE TO THE TIMES.]

SACRAMENTO, Oct. 23.—California may lose $200,000 annually in taxes on national bank stocks if the currency bill now pending in Congress is adopted without certain amendments, according to announcement of the State Controller's office. The question is being investigated by the Controller, Evan J. Hughes, tax expert in the office, and Carl C. Plehn, expert of the State Board of Equalization.

There probably will be two Federal reserve banks established in California with a combined capitalization of from $10,000,000 to $20,000,000. Under the proposed currency bill this capitalization is to be furnished by national banks subscribing 20 per cent. of their own capital stock. This capitalization is to be exempted from taxation.

Under the present California law each bank pays a tax of 1 per cent. on its capitalization based upon capital paid in, its surplus and undivided profits, less the county assessment of real estate, such taxes being collected from shareholders.

Irregular.

DECLARES VOTE WAS ILLEGAL

JUDGE QUESTIONS THE ELECTION OF MODERATOR BROWN.

Connecticut Jurist at the Congregational National Council Raises Technical Point, Which He Says Might Cause Unpleasantness—Gov. Baldwin Opposes Prohibition.

[BY A. P. NIGHT WIRE TO THE TIMES.]

KANSAS CITY (Mo.) Oct. 23.—That the national council of Congregational Churches violated the provisions of its constitution yesterday in naming the Rev. Charles R. Brown, dean of Yale divinity school, as moderator, afterward naming H. M. Beardsley of Kansas City, assistant moderator, was charged by Judge John H. Perry of Southport, Ct., in an address before the commission of nineteen of the council today. The commission is framing a new constitution for the new council.

"Everyone is happy," said he, "at the selection of Moderator Brown, but under the constitution his election was illegal. Mr. Brown was not present when he was chosen and if the technicality was pressed it might cause unpleasantness. Of course, his election will not be questioned. The election of Mr. Beardsley, too, was not regular under the constitution as he is not a voting member."

The commission of nineteen, appointed six years ago to draw a new constitution, has recommended that the missionary bodies of the church be assembled under the guidance of the national council. Rev. Samuel H. Woodrow, pastor of Pilgrim Congregational Church, St. Louis, tonight addressed the delegates, deploring the decadence of the rural church.

Rev. Hubert C. Herring of New York City, general secretary of the Home Missionary Society, pleaded for the establishment of a $1,000,000 fund to be used to provide for the expansion of the growing city churches.

"Under this plan of co-operation," said he, "our society in the last three years has not established a church in a small community where religious work is being carried on already. Exchanges have been made with other denominations leaving one self-supporting, aggressive church in a community, instead of two non-supporting ones."

Disagreement on the temperance question loomed up when Gov. Simeon Baldwin of Connecticut, announced himself as opposed to recommendations of the committee on temperance for an amendment to the Federal Constitution prohibiting the manufacture and sale of liquor within the United States. Gov. Baldwin is said to have a substantial following.

The storm that has been brewing over the proposed constitution and change of doctrine as recommended by the commission of nineteen, broke tonight at a public hearing of the commission's recommendations. In the debate the declaration of doctrine was described as "colorless," "spineless" and "ecclesiastically sophisticated."

Leadership implies some sort of superiority;

a man or a business that stands conspicuously at the head doesn't get there by accident, or chance. That's where we stand today in the clothing business—conspicuously first in an industry hundreds of years old.

The explanation is simple; we've done more than make good clothes, and print good advertising about them; we've made our name in a garment mean to hundreds of thousands of men exactly what it means to us—a mark of our responsibility for quality in everything that clothes should have.

The $25 suits we make are a good illustration of the thing that has given us this prestige and pre-eminence.

14 Minutes to Palisades Park

The Southland's Finest Residence Place

The proposed Subway to Santa Monica which is now assured, will bring Palisades Park closer to the business section of the city than any of the present high class residential sections, and this, together with the fact that Wilshire Boulevard restrictions run out in 1915, will make Palisades Park THE most popular district for exclusive residence sites. Just imagine what lots here will be worth when served by 14-minute car service from Los Angeles. Lots that now are jumping in value 25 per cent or more each year and which can now be bought for $1000 and up.

PALISADES PARK is in the most beautiful residence section of the whole Southland, located as it is on the brow of the Palisades, overlooking the beautiful crescent bay of Santa Monica, right where the mountains and sea embrace.

Come with us Saturday and see for yourself. We will show you lots 50x150 feet, all improvements paid for, in the heart of this aristocratic section, that you can buy on small monthly payments.

The Joy Of Coming Motherhood

A Wonderful Remedy That is a Natural Aid and Relieves the Tension.

Mother's Friend is the only remedy known that is able to reach all the different parts involved. It is a penetrating external application after the formula of a noted family doctor, and lubricates every muscle, nerve, tissue or tendon involved.

By its daily use there will be no pain, no distress, no nausea, no danger of laceration or other accident, and the period will be one of supreme comfort and joyful anticipation.

Mother's Friend is one of the greatest of all helpful influences, for it robs childbirth of all its agonies and dangers, dispels all the doubt and dread, all sense of fear, and thus enables the mind and body to await the greatest event in a woman's life with untrammeled gladness.

You will find it on sale at all drug stores at $1.00 a bottle, or the druggist will gladly get it for you. Mother's Friend is prepared only by the Bradfield Regulator Co., 237 Lamar Bldg., Atlanta, Ga., who will mail an instructive book to expectant mothers. Write for it to-day.

ARREST SLAYER ON TRAIN.

Divorced Husband Accused of Killing Woman and Daughter Is Held in North Dakota.

[BY A. P. NIGHT WIRE TO THE TIMES.]

RAY (N. D.) Oct. 23.—L. T. Culberson, accused of shooting D. T. Dillon and instantly killing Mrs. Dillon and her daughter, Lena, yesterday, was arrested today on a train.

The officers say Dilion has identified Culberson, a former husband of Mrs. Dillon, as the murderer. According to Dillon, Culberson applied for work at the Dillon home, followed Dillon to the barn, and there shot him in the back.

Mrs. Dilion was killed while running to the barn to learn the cause of the shots. The girl was murdered in the house.

SCHMIDT'S PAL ON TRIAL.

Truckload of Counterfeiting Paraphernalia Placed on Exhibit in New York Court.

[BY A. P. NIGHT WIRE TO THE TIMES.]

NEW YORK, Oct. 23.—A truck bearing printing outfit, stamps and dies and other materials used in manufacturing money, was wheeled before a jury in the Federal court today, when Ernest A. Muret was placed on trial on a charge of counterfeiting.

Muret was indicted on this charge with Hans Schmidt, the German priest who confessed slaying Anna Aumuller. Schmidt is in the Tombs awaiting trial on the charge of murder, and probably will be a witness in the Muret trial. Schmidt is not likely to be tried under the Federal indictment. The Muret jury was completed late today.

UNION CHIEFS BEHIND BARS.

Heavy Hand of Justice Falls on Rioters.

Canadian Judge Imposes Long Sentences.

Says Throwing of Bombs a Deliberate Plan.

[BY A. P. NIGHT WIRE TO THE TIMES.]

VANCOUVER (B. C.) Oct. 23.—Officers of the Miners' Union at Nanaimo and three foreigners were sentenced today to two years in prison for rioting. Thirty-four others were given sentences ranging from a year each with a fine of $100 each, to three months each and $50 fines. There are still nearly 200 cases of alleged rioting to be heard.

Among those sentenced were Sam Guthrie, president of the Ladysmith Miners' Union, and J. J. Taylor, vice-president of the British Columbia Federation of Labor, each of whom got two years, and D. McKenzie, secretary of the Ladysmith union, who was sentenced to one year.

In passing sentence Judge Howay said this was no ordinary riot, but a calm, deliberate scheme. The riots in Ladysmith, Extension, South Wellington, and Nanaimo were simultaneous and carried out in one line of purpose. Bombs were thrown, and property destroyed, he said.

Several of the prisoners' wives in the gallery screamed and became hysterical, and had to be taken from the courtroom while sentence was pronounced.

DEMAND FIVE UNION LABELS.

Textile Workers Try to Prescribe Conditions to Be a Delegate to Annual Convention.

[BY A. P. NIGHT WIRE TO THE TIMES.]

PHILADELPHIA, Oct. 23.—A resolution was unanimously adopted at today's convention of the Textile Workers of America, demanding a uniform scale of wages for all textile workers throughout the country. The Label Committee offered a resolution that in all conventions in the future each delegate be required to have attached to his or her clothing at least five union labels. The resolution was referred back to the committee.

TWO TEACHER-MOTHERS LEFT.

New York School Board Finds Mrs. Becker, Wife of Convicted Police Lieutenant, Still at Work.

[BY A. P. DAY WIRE TO THE TIMES.]

NEW YORK, Oct. 23.—The status of the teacher-mother in the New York public schools is still under consideration by the Board of Education, with the report current that ultimate dismissal of all teachers of this class is the aim of the board.

From a list of fifteen teachers who had absented themselves from school to become mothers since January 1, last, it was found that nine had already presented resignations, and only two of those named are now in schools.

The list made up by the various district superintendents, when the board dismissed Mrs. Bridget Feixette because she became a mother, names Mrs. Helen L. Becker, wife of Charles Becker, the convicted police lieutenant, as one who absented herself from school for maternal reasons. Her child did not live, and Mrs. Becker is one of the two teachers reinstated.

PASADENA BROKER DIES.

Stops Off to Visit Relatives in Virginia and Succumbs to Kick of a Mule.

[BY DIRECT WIRE TO THE TIMES.]

CHARLOTTESVILLE (Va.) Oct. 23.—[Exclusive Dispatch.] News reached here today from Middleboro, Ky., telling of the death in that city of Bernard E. Dodson, stock broker of Pasadena, Cal., while he was en route to Charlottesville to visit his wife's relatives.

Mr. Dodson stopped off at Middleboro to spend a day or two with a brother-in-law. Soon after his arrival of his widow and mother from and died within a few hours. His remains will be held pending the arrival of his wife and mother from California, who have already been notified. Mr. Dodson was educated at Jefferson School, this city, and at the University of Virginia.

THE WEATHER BACK EAST.

Chicago Rain Ends, but the East Central and Gulf States Have a Heavy Downfall.

[BY DIRECT WIRE TO THE TIMES.]

CHICAGO BUREAU OF THE TIMES, Oct. 23.—[Exclusive Dispatch.] Chicago's maximum temperature today was 51 deg. and minimum 34 deg., with a trace of rain before daybreak. The Ohio Valley is about four degrees warmer than this figure. The entire Southwest and Eastern States today warmed up an average of fifteen degrees. Heavy rains fell in the East Central and Gulf States. Other temperatures:

Characterization.

CALLS ADMIRAL JEKYLL-HYDE.

DEFENSE WILL TRY TO PROVE DUAL PERSONALITY.

Counsel for Mrs. Eaton Tells Jury She Will Not Plead Insanity, but Witnesses Will Show that Her Husband, Described as a Victim of Drugs, Poisoned Himself.

[BY A. P. NIGHT WIRE TO THE TIMES.]

PLYMOUTH (Mass.) Oct. 23.—Rear-Admiral Joseph G. Eaton, whose widow, Mrs. Jennie May Eaton, is on trial here charged with his murder, was painted in the opening address of the defense today as a "drug fiend and a man of dual personality, a veritable Dr. Jekyll and Mr. Hdye."

Attorney Francis J. Geogan, who made the opening argument, said it would be shown that Admiral Eaton was addicted to the use of liquor and drugs to such an extent that he endangered his vessel and the lives of the men under him when in the navy. He attributed the death of the admiral to arsenic, self-administered. Geogan announced that Mrs. Eaton, the defendant, would take the stand and tell the story of her life.

"We will show you there was no friction between Mrs. Eaton and her husband up to the time of his illness," said Geogan. "There was no misunderstanding."

Geogan said it would be shown that the admiral left Mrs. Eaton nothing but a heritage of debts, and that she could have no motive for desiring his death. On the other hand, he said, as a motive for keeping him alive, she had the fact that an income of $4500 a year, representing the admiral's retired pay, ceased on his death. The defendant, the attorney added, would not hide behind a cloak of insanity.

Dr. F. Fremont Smith of Washington, D. C., the first defense witness, testified regarding the admiral's habits of intoxication at the time of his first wife's illness and death. It developed in Dr. Smith's testimony that naval records show Admiral Eaton to have been afflicted with a disease for which arsenic and other drugs sometimes are administered.

WILL DISOBEY LANE.

Atty.-Gen. Thayer Refuses to Become Executive of Hawaii When Mott-Smith Leaves.

[BY CABLE AND A. P. TO THE TIMES.]

HONOLULU, Oct. 23.—Despite Secretary Lane's instructions that Atty.-Gen. Wade Thayer be Acting Governor until the new Governor takes his office. Thayer considers that he will have no legal authority and will not act excepting to supervise the office force.

The Territory will be without an executive when Acting Governor Mott-Smith leaves for the Coast on Saturday.

For pastry there is nothing to compare with

Cottolene

Cottolene "creams up" beautifully, always, and every cook knows what an advantage that is. It is always plastic and blends readily with the flour or sugar. This makes Cottolene especially pleasant to use in cakes, pastry, sauces, biscuits and the like.

Have you tried Cottolene yet? If not, do at least test it for yourself. You will then understand some of its many advantages. At the same time, do not forget that food experts advocate this wholesome shortening as reliable, economical and digestible.

Send for the FREE Recipe Book, "HOME HELPS," by these five leading cooking authorities:

Mrs. Mary J. Lincoln, Mrs. Sarah Tyson Rorer, Mrs. Helen Armstrong, Lida Ames Willis, Marion Harland.

San Diego.

DYNAMITE CONSPIRACY

Link in Chain Discovered at San Diego.

Man Arrested Disavows Any Guilty Knowledge.

Superintendent Francis Talks to Convention.

SAN DIEGO, Oct. 23.—What is believed to be a link in a well-laid conspiracy to dynamite several public buildings in San Diego was uncovered yesterday, when a plant of fifteen sticks of dynamite was found at a spot adjoining the new Federal Building, in which are located the postoffice and numerous Federal offices.

Monday night an employee of the San Diego Transfer Company discovered the explosive under some gunny sacks in a corral just back of the building. The police pledged all who learned of the find to secrecy, and for two nights armed officers watched the cache, hoping to apprehend the conspirators in the act of removing or attempting to explode the dynamite. The second evening Detectives Brigance and Fish arrested Parrish Stephens, 50 years of age, who states he is a laborer, while he was loitering a short distance from the corral. Stephens protested at being taken into custody, and said he was looking for a place to sleep. As he had over $60 in his pockets, the police are inclined to scout this statement, and he is being held at headquarters on an investigation charge, pending the developments in the case of "Red" Ryan, who was sent to Los Angeles on Sunday to answer to a charge of planting large quantities of dynamite in and around Los Angeles. The police are of the opinion that Ryan knows something of the plant found Monday night, and that it is possible Stephens may have been a henchman working for the "higher-up" powers.

FRANCIS TALKS.

In the session last night of the fourth-fourth annual State Sunday-school convention, at present holding in the city, Prof. J. H. Francis, superintendent of the Los Angeles public schools, spoke on the subject of "Child Culture" to a large and appreciative audience. Other speakers were Dr. Robert Perry Shepherd of St. Louis, who is at present directing the educational work of the Colorado State Sunday-school Association, and Rev. Dr. Moore, a presiding elder of the Methodist Church. The keynote throughout the convention has been to emphasize the importance of the child to the nation and to bring to the notice of the delegates the various branches of work which have been opened up in order to give the child its chance.

Pleasure is being consistently mingled with business in the routine of the convention, auto rides through the city and launch rides on the bay being arranged for all visitors.

BABY ACTOR.

The sordid details of the Ervay-Johnston case, which is being aired once more in Superior Judge Lewis's court, were rehearsed yesterday before a large and interested audience. Testimony reflecting strongly on the character of the plaintiff was allowed to stand by the court, and an undercurrent of feeling pervaded the room that someone other than the defendant was being tried by the twelve men in the box. In the former trial last spring the name of Rex Clark, prominent millionaire rancher, was mentioned in connection with that of Miss Johnston, and Clark himself was an attendant at the trial. This time he has been conspicuous by his absence, and the prosecution has sought to have any testimony introducing his relations with the Johnston girl omitted. Miss Johnston remains cool and unmoved throughout the scathing remarks, and the only persons who have awakened pity in the breasts of the listeners is the innocent child of the trouble, the 8-months'-old baby girl whose paternity Miss Johnston is trying to fasten on the defendant, H. S. Ervay.

WOMAN'S CLUB LUNCHEON.

Los Angeles Women Will Attend Redondo Beach Function, Which Meets Reciprocity Day—Briefs.

REDONDO BEACH, Oct. 23.—The Woman's Club will give a luncheon and a literary programme tomorrow—the reciprocity day of the club—at the parlors of the Congregational church, to representatives of other clubs of the Los Angeles district of the federation. Luncheon will be served at 12:30 o'clock and the programme will begin at 2 o'clock. Mrs. W. C. Mushet, president of the Los Angeles district, will give a greeting to the guests. The subject of the programme will be "Citizenship." Mrs. J. H. Francis of Los Angeles will speak on "Education in Relation to Citizenship." Mrs. J. E. Coleman of Los Angeles will speak on "Philanthropy in Relation to Citizenship." Mrs. James Beatty will talk of "Dress" in regard to the subject. Mrs. Rogers Atkinson will talk on "Protecting the Child for Citizenship," and Mrs. W. A. Galentine of the local club will talk on "Civil Service." Mrs. Margaret Taft of Los Angeles will also.

NEWS BRIEFS.

Frank Shiry, a sailor on the steamer Thomas L. Wand, a lumber vessel, had his ankle broken this afternoon by jumping from wharf No. 2 to the deck of the steamer Marshfield, which was in port. Shiry was taken to the Clara Hospital in Los Angeles.

Miss Ruth Kegeris, the pretty daughter of Mr. and Mrs. D. W. Kegeris of Francisco avenue, and Jack Hartley, a member of the Biograph Company, returned yesterday from Santa Ana and announced to friends and Mrs. Kegeris that they were married Tuesday at Santa Ana. Mr. and Mrs. Hartley will live in Los Angeles. After the Red Sox had been here on their spring training trip three years ago it was reported from Boston that the engagement of Miss Speaker and Ray Collins, the Red Sox pitcher, had been announced, but this was denied by Miss Kegeris.

At a meeting of representatives of the City Councils, women's clubs and chambers of Hermosa Beach and Redondo Beach at Hermosa Beach City Hall, last night, the matter of sewerage was discussed. A mass meeting will be held November 6 at Redondo Beach, when engineers and others versed in the matter will lay before plans for sewage systems for the two towns.

Foreign.

VERIFIES TALES OF ATROCITIES

Carnegie Balkan Commission Files Its Report.

Finds the Belligerents Guilty of Savage Crimes.

Full Text of Conclusions Will Be Published.

[BY CABLE AND A. P. TO THE TIMES]

PARIS, Oct. 23.—Troops of all the warring Balkan States are guilty of gross atrocities, according to the evidence gathered by the International Carnegie Commission in its recent inquiry just ended.

The conclusions of the Carnegie Commission are to be published in book form with illustrations and facsimiles of a number of the documents on which the book is based. In the words of the commission's desire to present an absolutely impartial account of its investigations, the text will not be divided into sections written by individual members, but issued as a whole, for which all the members of the committee take responsibility.

One of the noteworthy facts in the examination and verification by the commissioners of the famous packet of letters from Greek soldiers captured by the Bulgarians, containing horrible descriptions of crimes by Greek soldiers "avenging themselves" on Bulgarians who fell into their hands.

The commission believes that it has established the authenticity of these letters. Other documents show that the Greeks occasionally made use of the forbidden dum-dum bullet, and show also the mistreatment of Bulgarians and other belligerents. The inquiry did not extend to the Armenians.

SEEKS EXPATRIATION.

American Manager of Japan Newspaper Fights Deportation on Perjury Charge.

[BY CABLE AND A. P. TO THE TIMES]

TOKIO, Oct. 23.—John Stuart Russell, business manager of the Japan Advertiser, arrested here October 11 on requisition from the American ambassador for alleged perjury, has made an appeal today from prison to the Supreme Court of Japan not to deliver him to the United States and stating that he desires to become a Japanese citizen. He is wanted in Boston for the alleged abduction of his daughter and for contempt of court.

NAVAL COLLEGE FOR CHINA.

College at Shanghai Will Further the Work of the Other Institutions.

[BY CABLE AND A. P. TO THE TIMES]

LONDON, Oct. 23.—China has decided to establish a central naval college at Shanghai to supplement the work of the naval schools at Foochow, Tsin, Nanking and Canton. Officers are expected soon for a number of additional training ships.

The British admiralty has lent to the Chinese government Capt. [illegible], Christian of the British navy, and not Rear-Admiral Arthur Christian, as stated in dispatches from Peking, to superintend the organization of the training corps of the Chinese navy. Capt. Christian will leave soon, accompanied by a staff of naval instructors.

NINE LOSE LIVES IN STORM.

Tornado Which Swept Southern Louisiana Does Heavy Damage to Buildings and Demolishes Crops.

[BY A. P. NIGHT WIRE TO THE TIMES]

NEW ORLEANS, Oct. 23.—A negro woman and her baby and seven negroes lost their lives, and many persons were slightly injured in a storm which swept parts of Louisiana at dawn today. Many crops were razed, miles of fences demolished and other damage done on plantations and in the city.

Cutting a clean path 250 feet wide, the tornado swept through the Labadieville plantation at Lula, La., destroying the negro quarters, killing seven negroes and maiming several others, including a white woman and child.

Wire communication was interrupted and it was late this morning before the range of the storm and extent of the damage was known.

EARTHQUAKE AT PANAMA.

Isthmus Is Again Visited by Severe Shock, Which Causes Damage to Canal.

[BY CABLE AND A. P. TO THE TIMES]

PANAMA, Oct. 23.—After a lapse of twelve days another severe earthquake shock occurred here today. The populace rushed from their houses to the open, but no damage to the tremor was done here or anywhere else, but reports from the canal zone, but reports from the province of Los Santos, where the movements were of the greatest intensity during previous disturbances, have not been received.

The earthquake was composed of a double movement with an interval of a few seconds between the two. There were periods and the entire disturbance lasted from twenty to thirty seconds. The movement was recorded on the pen of the instrument at the seismograph station of the canal commission, but the general direction of the tremor was shown to be from the northwest to southwest and it was not felt to the other resort [illegible] lasted to the earthquake today.

The earthquake today, which appears merely a repetition of the shocks that have been disturbing the Pacific coast of the Isthmus since October 3, is of less intensity than the first movement, but it was more severe in force than the majority of the shocks. Meager reports from the province of Los Santos indicate that the shock was severe there.

COLON FEELS IT.

[BY CABLE AND A. P. TO THE TIMES]

COLON, Oct. 23.—An earthquake shock lasting about fifteen seconds occurred here at 9:01 o'clock this morning. Houses rocked and creaked, but no serious damage was done in this city.

This Beautiful Hair

Is like what you want your hair to be—

Lustrous, bright and glossy; soft, silky and wavy

To have beautiful hair like this, use

HARMONY HAIR BEAUTIFIER

It's just what its name implies—just to make the hair glossy, and lustrous, and more beautiful—just to make it easier to dress, and more natural to fall easily and gracefully into the wavy lines and folds of the coiffure, just to give that delightful fresh and cool effect, and leave a lingering, delicate, elusive perfume.

Will not change or darken the color of the hair. Contains no oil; therefore, cannot leave the hair sticky or stringy.

Very pleasant to use, very easy to apply—simply sprinkle a little on your hair each time before brushing it.

To thoroughly clean your hair and scalp, use

Harmony Shampoo

A liquid shampoo to keep the hair clean, soft, smooth and beautiful. It gives an instantaneous rich, foaming lather, penetrating to every part of the hair and scalp. It is washed off just as quickly, the entire operation taking only a few moments.

It leaves no lumps or stickiness.
—Just a refreshing sense of cool, sweet cleanliness.
—Just a dainty, pleasant and clean fragrance.

Both in odd-shaped ornamental bottles, with sprinkler tops.

Harmony Hair Beautifier, $1.00; Harmony Shampoo, 50c. Both guaranteed to please you, or your money back.

Sold only by the more than 7000 Rexall Stores—The World's Greatest Drug Stores—and made in our own 160 Rexall Laboratories, where all the delightful HARMONY, VIOLET DULCE and BOUQUET JEANNE Perfumes and Toilet Preparations are made.

Sold in this community only at

GOLD
A TALE OF THE 'FORTY-NINERS
By STEWART EDWARD WHITE
Author of "The Riverman," "The Rules of the Game," etc.

It's a story of that time when the country went mad, when the farmer left his plow, the bookkeeper his stool to hurry off to amass his fortune. Gold! It drew thousands fascinated by its gleam across the long wastes of Western desert, or glistened tantalizing before them as they slowly rounded the Horn or crossed the fever-stricken Isthmus. Among them was Talbot Ward and his little party of four. In the story of their adventures you feel the thrill of excitement as the strikes were made the tenseness of the atmosphere combined with the holiday spirit that was abroad in those days when men needed their every wit.

In the early part of the story Mr. White gives a wonderful picture of Panama in the 49's.

ACRES

are the best for investment and home.

SOUTHWEST.

These half-acres of ours have both yellow and red car services. Prices as low as

$575.

Water piped. Terms: $25 down, $10 monthly. Only a few left.

Also a few high, sightly residence lots with cement walks, trees, graded streets and water piped, $258 each; $10 down, $5 monthly.

GET M. BUSH CO.,
901 Story Bldg.

FOR SALE—
Owner: If you have 80 to 160 acres and are looking for an investment either to hold or build on, read the following closely:

$2100, worth $2750, that fine large lot, southwest corner Western ave. and 39th st., one block south of car line. Will sell for $100 cash, when the boulevard to ocean is completed? Do it now.

$1250, worth $2000. That large lot, 50x182 to alley in rear. All street work paid for on Franklin ave., near North Park ave., East Hollywood, a view, high sightly. Cash or all mortgage if you build.

$950, worth $1000. Large lot 68th st. near Main.

$600, worth $850. Just west of Figueroa st. near Florence ave. Cash or mortgage for all if you build.

$500, worth $750. A fine business corner. Cash or mortgage for all if you build; good for bakery, butcher or most any kind of business. Corner Slauson ave. and Sulphur. Close in, only 20 minutes out on yellow car.

I want an offer for the southeast corner of W. Washington and Oxford, 150 on Washington, a fine corner.

I want an offer on 150x150, northeast corner West Adams and Seventh ave. One of the finest residence corners on the fashionable street, West Adams. No reasonable cash offer refused.

I have 127 feet left on E. Fourth st. near Molino for sale or lease. Fine factory sight or most anything else wanted for. Alley in rear. I will give you a bargain on this frontage. Will sell front feet or more. Come direct to the owner if you choose or buy through any agent.

J. FRANK BOWEN,
420 Stimson Bldg.

TREES—STREAMS.
8 acres.

Nine miles from the business center of Los Angeles, covered with beautiful trees and with two running streams that never go dry. There is but one tract near Los Angeles where you can secure anything like this. Beautiful scenic location, 1000 feet above sea level, price reasonable. Several of the best people in this city have bought places adjoining this 8 acres and many beautiful homes will be erected shortly. Located on an electric car line with frontage on two beautiful boulevards. A million dollars could not artificially create the natural beauty of this property. Let us show this to you. Price $2000 per acre. It is worth double.

CLARK & ARNOLD,
Phone, Main 762. 100 Chamber of Commerce Bldg.

FOR SALE—

JUST ONE ACRE LEFT IN THE RICO ACRES TRACT.

Seventeen minutes' ride by trolley from Sixth and Main streets. Attractive surroundings. Piped water.

You can make this acre pay for itself by what you grow on it.

$25 down, $15 per month takes it.

HENRY LOEWENTHAL,
935 Security Bldg.

FOR SALE—

VAN NUYS.

For an ideal home place where you can raise your own fruits, berries, vegetables and chickens, right by the beautiful atmosphere of suburban life and at the same time enjoy the conveniences of the city, secure one of those spacious lots in the new town of Van Nuys. The city man, confined in the office or store all day, requires just this kind of a home place. Free excursion to show property from 319 SOUTH HILL ST.

FOR SALE—5 ACRES, SOUTHWEST, NEAR VERmont, high ground, right on the way to the harbor; say, sit up and take notice that subdividers are paying from $1500 to $2000 an acre for land in this vicinity, which is not as good. I can sell this land for only $5890; $1000 cash, balance like rent; later on you can make it big thing out of the five acres; set busy. Plant your money where it will double and treble. If you are interested now is the time. See me for appointment to look at the land. Banks, with STRONG, DICKINSON & MCGRATH, 810 Van Nuys Bldg.

FOR SALE — WE HAVE THREE IMPROVED ranches between Lankershim and Van Nuys, at exceptionally low prices, from $400 to $600 per acre, in 5 and 6-acre tracts, including all improvements; also unimproved lands from $300 to $400.

A2018. PATTON & LONGLEY CO.
Main 8278. 330 S. Hill st.

FOR SALE—
Country Property.

ALFALFA LAND

$40 to $55 Per Acre.

One-Tenth Cash, and You Team to Pay the Balance.

Only 40 Miles from Los Angeles, at Dayerman.

There is money certainly and real worth in this perfect alfalfa land, from the point of view, by any comparison, as to soil, water, location, or climate, than other land offered in Southern California.

This land is right here in Los Angeles County, no further away than Long Beach, and not so far as Riverside.

There is no hardpan, no alkali or shell. It is a deep, sandy loam soil, and is especially adapted to the raising of alfalfa.

This land adjoins alfalfa fields which are yielding 5½ tons of hay per acre, and is getting electric interurban lines now, which is adding to the value.

The wells in this district are generally 40 to 200 inches of water, and artesian stands about 12 to 25 feet from the surface.

This land is not away of somewhere, but is right here close to Los Angeles, so you can go there and back in a day.

Do this land before you think of putting a dollar into land anywhere else.

EXCURSION SUNDAY.

Special car leaves Southern Pacific depot Sunday at 7:30 a.m. and returns the same day. Make arrangements early.

OUR OFFICE OPEN EVERY EVENING.

PATTON & LONGLEY COMPANY,
820 South Hill st. Main 8221.

RESPECT FOR SYSTEM.

Man Loses and Recovers Two Thousand Dollars and Wants to Give a Suitable Reward.

SAN BERNARDINO, Oct. 23.—[Exclusive Dispatch.] W. I. McCleary, who lost $2000 in the railroad depot at Cheyenne, Wyo., arrived in San Bernardino today and, after considerable trouble in identifying himself, secured from the postoffice the registered letter containing the cash, which was sent to him by Frank Mandanis of Cheyenne, who found the money and advertised for the owner.

McCleary answered the advertisement and established his claim to the cash, sending 4 cents in stamps to the finder to mail the money to him; but Mandanis is a good fellow and added 10 cents to it to pay for registering, and forwarded the cash to its owner. McCleary says he is going to send the finder a reward. While McCleary finally succeeded in establishing his identity at the postoffice, he now has a much greater respect for the care exercised by Uncle Sam to see that registered letters fall into the proper hands than he previously entertained.

Long Beach.

MASON MATTER COMES UP AGAIN.

Former Pastor in Role of Rebel Leader.

Proposition Made to Form a New Church.

Couple Overturn Automobile While Out Riding.

LONG BEACH, Oct. 23.—After several weeks of peace the unpleasantness in the First Presbyterian Church threatens to break out again with the plans of the friends of former pastor Mason to secede from the mother church and form a new flock over which Rev. Mason will preside, it being understood that he has signified his intention of accepting the call. At the close of last night's prayer meeting his adherents went to the home of A. E. Hall, on Locust avenue, where plans were discussed. Among the leaders in the movement are Messrs. A. E. Hall and L. B. Palmer. They are confident they can take from 100 to 150 old members from the church, but more conservative ones fix the number at from forty to sixty.

It is said that the seceders want to call their new congregation the Third Presbyterian Church, and have gone so far as to ask the elders who have been opposing Mason if they would object to such a designation, and were told that the designation would be most vigorously opposed if Rev. Mason was to be the pastor.

As at present planned there will be a meeting of the Los Angeles presbytery next week, at which time application to form the new church will be made. If the presbytery objects to the designation of the church as a Presbyterian church, it is rumored that Rev. Mason will voluntarily withdraw from the presbtery and that his followers will go ahead with the organization, calling it the People's Church, and will probably secure Chapel Hall for its meetings.

The trustees of the First Presbyterian Church held a meeting last night and authorized Rev. Paul Stephens, acting moderator, to secure Dr. Shaw, pastor of Emmanuel Church, Los Angeles, for a series of evangelistic services in the near future, and Dr. Shaw will also be asked to accept the permanent pastorate of the local church.

MACHINE OVERTURNS.

Miss Babe Stonaker, aged 16, of this city, and her young escort were badly injured in an auto accident on the Whittier boulevard last night near Alhambra, and the machine is practically a total wreck. Miss Stonaker went to Pasadena yesterday to consult a specialist, under whose care she is and accepted the invitation of a young man whose name is unknown, but who is said to be the son of a wealthy Oklahoma family wintering in Pasadena, to bring her home in his auto. They were en route by way of the Whittier road, when the driver of a horse and buggy deliberately blocked efforts to pass him. Endeavoring to do so, the young man drove his machine into an embankment on the side of the road, but instead of mounting it the auto rebounded and went over the bank on the opposite side and into a ditch, throwing both young people out as the machine turned over. Miss Stonaker was unconscious when picked up and is suffering with shock and bruises, while her escort is badly cut by flying glass. They were picked up by a passing auto and brought to Long Beach for treatment.

ESTATE INVOLVED.

F. A. Knight, a local attorney, this morning unearthed a will drawn by him nine years ago, which gives a probable clew to an heir to the $10,000 estate of W. T. Flint, who died yesterday of burns incurred in a fire which destroyed his home.

The will was drawn by Mrs. Carrie F. Bennet, a sister of Flint, who died a month after drawing up the instrument. By its terms George A. Flint, a brother, was given $400, and after providing for her burial, William Flint was made residue heir and executor of the estate without bonds. At that time the brother George lived in Stroudsburg, Pa., and telegrams of inquiry have been sent there. If no word is received by Monday the body of Flint will be buried here. Public Administrator Bryson was in the city today and took charge of affairs pending word from the East. George Flint is said to be the only living relative, and in case he is dead the estate will revert to the State.

NEWS BRIEFS.

Secretary Albert Johnson of the Board of Education received word this morning from the County Supervisors that the city had to its credit in the county treasury $110,000, proceeds of that amount of bonds purchased by the county, and that an additional $35,000 would be added as soon as that amount of bonds had been forwarded to the State Board of Control. This will make possible the building of needed new school buildings as soon as contracts can be let.

The Long Beach Chamber of Commerce this morning launched a movement to have the young men of the city organize a branch of the California naval militia, and by co-operation with the Los Angeles branch, secure for the harbor a training ship furnished by the government. S. L. Cook, former master-at-arms of the Tacoma militia, is at the head of the local movement. At present the Los Angeles reserves only secure occasional training on regular government boats as they call at the San Pedro port.

The plan proposed to the City Council to handle the garbage question by leasing hog raisers city lands, was given a knockout blow today, when the Board of Public Works voted to notify the City Council that it would not approve of leasing any of the city lands for the purpose. It was suggested that part of the city's water-bearing holdings could be so used, but the Board of Public Works, which has charge of the water supply, thinks that such use might contaminate the water supply.

SUNDAY-SCHOOL SESSIONS.

Speaker Denounces Redlight District—Would Keep Youths in Sabbath Classes.

SAN DIEGO, Oct. 23.—Rev. W. A. Brown of Chicago, international Sunday-school worker, denounced the policy of permitting redlight districts to exist in any city, in his address before the annual convention of the State Sunday-school Association today. He declared there is no room for sin in any city. His subject was, "The Keeping of the Boy and Girl Interested in the Sunday-school."

The speakers this afternoon were Dr. E. P. Hallenbeck of San Diego, Rev. C. H. Seccombe, Los Angeles; Rev. Henry K. Booth of Long Beach, Rev. W. A. Brown of Chicago, H. A. Dowling, Dr. C. N. Quon, Mrs. Stella B. Irvine and F. B. Josselyn. A launch ride on the bay began at noon and ended in time for the afternoon meeting.

Elementary and secondary work was the chief topic of discussion. Mrs. Brassford, elementary superintendent of Los Angeles county, conducted a blackboard class.

Mrs. A. L. Dennis's delineation of the function of song in Sunday-school teaching was a revelation. She is engaged in interdenominational Sunday-school work where special help is needed. She led her class of adults to develop verse after verse of simple song.

The adult conference gave much time to the discussion of house-to-house visitation plans.

Tomorrow the conference will be by Prof. J. H. Montgomery of Los Angeles on social service, and "Adult class" talks, led by Rev. A. V. Kimmell, also of Los Angeles.

Take that and Suffer.

TASTE NO PROOF OF GOOD ORANGE.

CRABBED OLD UNCLE SAM HAS TO HAVE ANALYSIS.

So He's Sending Two Chemists Out Here to Tell Us When the Yellow 'Uns Are Fit to Eat—From Now on They Must Have Right Proportion of Acid and Sugar, See?

Two experts of the United States Department of Agriculture are coming out here to tell us when an orange is fit to eat.

Most persons are perfectly willing to trust their taste-buds for evidence in the case of an orange, but as the government board of food and drug inspection will not, some other proof-positive of palatableness is necessary.

It is expected that this evidence will be secured by lengthy experiments to demonstrate the precise proportion of sugar and acid to be expected in an orange that is fit to eat. The method of demonstrating this fitness—the sense of taste being classified as no judge—has not yet been revealed.

Specifically, however, the Department of Agriculture wishes to supply a form on which to base an exact interpretation of certain court decisions on unripe fruit.

General Manager Powell of the California Fruit Growers' Exchange, who is directly responsible for the coming of the experts, said yesterday:

"The existing rules as to fruit selection are perhaps the best that can be made. They do, however, leave too much to the shipper. In other words, an orange that he considers fit to eat or palatable may be condemned by the inspectors of the food and drug board.

"Furthermore, the uncertainty compels the shipper to take a chance and thereby cause considerable loss each year to the business. If the Department of Agriculture can provide a simple chemical means of determining the percentage of acid and sugar in ripe oranges, then the shippers will have, as it were, a measure by which to judge their oranges."

While in the East recently, Powell took up the matter with Assistant Secretary of Agriculture Galloway, and is now assured by him that two expert chemists are on their way here.

Pertinent interest attaches to their coming at the present time, for the Tulare, Butte and Sacramento citrus districts will next week begin the harvesting of a crop estimated at 4500 cars. That is, the harvesting of the fruit on the light, warm, early-maturing soils will begin. Last year some of the shippers in the Tulare district had cars of oranges condemned as unfit for consumption, and naturally are interested in any schemes to safeguard them in the shipping of the golden globes. It is expected that the Department of Agriculture experts will be able to give that assurance to an appreciable degree off-hand, though they are to conduct investigations to devise an absolute method of separating the sheep from the goats in the citrus field.

DEMANDS DAMAGES.

An action was filed by Dist.-Atty. Schoonover yesterday in the United States District Court against John S. Hull. It is alleged that Hull, who is a resident of Nestor, San Diego county, on October 3, 1913, solicited an unskilled Mexican laborer, Barnardin Garate, to emigrate from Tia Juana to the United States in violation of the Federal statutes and a judgment of $1000 is prayed for.

Arizona.

TO APPORTION FLOW OF WATER

Arizona Land Owners Ask Decision of Courts.

Phoenix Federal Bench Has Unwieldy Document.

Gov. Hunt Has Accepted the New City Charter.

[Special Correspondence of The Times.]

PHOENIX (Ariz.) Oct. 21.—The only considerable body of land within the Salt River Valley not entered in the Reclamation Service lies within the service scope of the Tempe canal, embracing about 20,000 acres. This section heretofore has preferred to depend upon its own irrigation priorities, which date back of 1880 for about half of its acreage. Now, in a time of water scarcity a change has come in the attitude of the Tempe farmers, and the older land owners are petitioning the Superior Court for local enforcement of the Kent decision. This would apportion the distribution of water according to priority of appropriation. As the newer lands under the Tempe canal, where not "signed up" under the Roosevelt project, — wholly dependent upon the normal flow diverted to the canal, they are in danger of being wholly deprived till such time as they may secure entry as a part of the area entitled to service from the flood water storage at Roosevelt. It is alleged that at present the water diverted from [illegible] to the Tempe canal is being divided equally to all farms, regardless of their date of original settlement.

LARGE COURT DOCKET.

The United States Federal Court, now in session in Phoenix, probably has a larger docket than will ever again be known, for the court sessions hereafter are to be divided with three other cities of the State. The local County Jail is crammed, for, mainly from other localities, 126 prisoners are being held for Federal Court action. These prisoners, held for the lower order of misdemeanors, are nearly all Mexicans of most unattractive sort. This morning they made a weird procession when paraded up First avenue from the jail to the Courthouse, where they were photographed, with the grand jury seated in the foreground. Twenty-nine have pleaded guilty already, most of them accused of selling liquor to Indians. Few cases of importance are to come before the court at this session, though an investigation is being made of the traffic in arms across the border line.

When Robert F. Maehl of Los Angeles was held to the Federal grand jury under $1200 bail, charged with violation of the Mann act, the woman in the case, Mrs. Elsie Starck, was placed in comfortable quarters in the Crittenton Home. She had testified freely against Maehl at the preliminary examination and was considered a safe witness before the grand jury. But she has disappeared, undoubtedly with the collusion of someone on the outside. Her room at the home was found unoccupied a couple of mornings ago, a letter left that told, "I cannot stay here with this hanging over me. I simply cannot be the means of sending him to prison. I don't care to live any more. I may be able to get some place where I can work and support my little girl. It's all the fault of the District Attorney." No trace of the woman has been found and it is believed she was taken by automobile to some point such as Tucson, where a train could be boarded without danger of detection.

Acting upon the advice of Atty.-Gen. Bullard, Gov. Hunt has signified his acceptance of the new Phoenix city charter, but will delay signing the document till all details of the charter and bond election have been closed.

During the eighteen months ended June 30, 1913, foreign insurance companies collected within Arizona the sum of $2,827,599 in premiums. At the head of the list is the New York Life Insurance Company, with premium collections of $524,221, the Mutual following, with $263,339. Both showed large gains in business over the preceding report period. The Hartford of Connecticut led the list of fire insurance companies, with premium collections of $32,027.

As compensation for injuries received by a fall of 125 feet down an ore chute, Clarence A. Barrett has sued the Ray Consolidated Copper Company for $30,000.

Dr. W. W. Wilkinson of Phoenix has been elected president of the Arizona Sunday-school Association, and C. R. Craig of Phoenix has been re-elected secretary. The banner for the largest percentage of attendance was awarded to the Sunday-school of the First Baptist Church of Phoenix.

Last night at Tempe $26,000 damage was done by the burning of an immense hay barn, owned by A. J. Peters & Co., and filled with hay mainly owned by the same firm. Insurance carried aggregated about $19,000.

Celebrating the borderland auto route and the commercial aspirations of their city, a trainload of El Paso business men is visiting the principal towns of Arizona, arriving in Phoenix Thursday afternoon.

At Phoenix during fair week will be organized a borderland route association, with representatives present from all towns in the southern part of the State, from San Diego, Imperial Valley, Southern New Mexico and El Paso.

The Maricopa county Board of Supervisors has abolished all speed regulations for motor cars taking part in the Los Angeles and El Paso races. The City Council has thought best to refuse permission to end the race within the city, as had been proposed, and the finish will be at the Fair grounds, as heretofore.

The Los Angeles road within Arizona will be marked this week with signs furnished and installed by Phoenix business men, telling, at five-mile intervals, the distance to this city.

FUEL FOR ORANGE GROWERS.

Last Winter's Frost Causes the Birth of a New Industry—Short News Stories.

ONTARIO, Oct. 23.—A new industry for this city, and one which is attracting not a little attention at present, is the manufacture of fuel for orchard heating purposes. A plant for the manufacture of such fuel has just been established by W. Starbuck Fenton and Welles T. Ross, two well-known local men, and it is now being turned out at the rate of between four and five sacks a minute.

The fuel is a composition of oil and wood shavings, and the manufacturers already have orders on their books from citrus men who wish to be prepared to fight a possible frosty spell next winter, for close to 500 tons of the product.

In order to properly mix the oil and shavings it is first necessary to heat the oil to a very high temperature. This is done by steam, after which the oil passes into a revolving mixer, being constantly fed shavings, and from the lower end of the mixer the finished product emerges, and is sacked ready for the market. Eight men are already employed at the local plant, and the force will probably be increased. The new fuel is said to be have been proven extremely satisfactory for orchard heating, through test, and will probably be largely used by local ranchers this winter, in case necessity demands.

The jury in the case of the People vs. Roswell R. Brownson, the millionaire Socialist," on a charge of exceeding the speed limit in this city, failed to agree this afternoon. The case will be heard again on October 31. Attorney John Beardsley appeared for Brownson, and City Attorney Isaac Jones for the State. The case was heard before Judge George R. Crane at the City Hall. Brownson, at the time of his arraignment, charged that J. P. Brogan, the motor officer, arrested him falsely and maliciously, and there were many in court to hear the case today.

Vicente Vasques, who on the evening of July 3 shot and seriously wounded Domingues Seila at a Mexican version of Independence Day celebration, in the local Mexican quarters, was today found guilty of assault with a deadly weapon. His sentence has not yet been pronounced.

Traffic Record.

THE "OLD MAN" COMING TODAY.

TO CONFER WITH THE ESPEE'S PERSONAL GUARDIAN.

Builder and President of Salt Lake Railroad to Meet Chairman of Board of Directors of Union Pacific to Formulate Plans for Latter's Benefit.

Ex-Senator Clark, multi-millionaire mining man, and builder and president of the Salt Lake Railroad, is to arrive today from Jerome, Ariz., for a conference with ex-Judge Lovett, chairman of the board of directors of the Union Pacific, who came early in the week with other officials of the former Harriman line, for an intensive study of traffic conditions in the Southland.

That the conference is for the purpose of formulating plans to make the Union Pacific, which is part owner of the Salt Lake, a force to be reckoned with in the growing competition for the increasing traffic of Southern California, was the assertion yesterday of various Salt Lake and Union Pacific officials.

"Southern California is growing faster than any other section of the country," said B. I. Winchell, director of traffic of the Union Pacific. "Furthermore, its growth is cumulative, or, according to an ascending scale of averages. Naturally, the Union Pacific, with its splendid Salt Lake outlet, wants its share of the increasing business. It also desires to be prepared for the opening of the Panama Canal, and for the business of exposition year."

Clark, who has been inspecting his mine holdings around Jerome, the past ten days, is expected to arrive during the morning. No time has been definitely set for his conference with Lovett and subordinate officials. It will probably be in the office of Second Vice-President Clark, in the Pacific Electric building.

Sweeping away from the Alexandria yesterday in three big touring cars, Lovett and party set forth to view the citrus belt. Second Vice-President Clark of the Salt Lake, who returned Wednesday night from San Francisco, was host; General Traffic Manager Wan of the same road, was guide.

The party invaded the heart of the "Golden Belt," with many stops, notably at groves and packing-houses, and finally wound up at Riverside, to pass the night. Other automobile trips are being planned, for Lovett has prepared himself for a lengthy stay.

Coming atop the annual meeting of the Union Pacific board, Lovett's minute inspection of the Salt Lake and his evident interest in the traffic possibilities of Southern California, is taken as a tribute of a clever man to the present and future prosperity of the country of which this city is the capital.

OPEN CUT-OFF.
SHORTENS WAY TO EAST.

Clipping 125 miles from the distance now separating Los Angeles from Kansas City over the Salt Lake and the Union Pacific, and making it possible for a freight train to negotiate the distance in twenty-four hours less than at present, the Marysville-Gibbons cut-off of the Union Pacific, in Kansas and Nebraska, will be thrown open to traffic Monday. This announcement was made yesterday by Director of Traffic Winchell of the Union Pacific.

For the present, no plans for the routing of passenger trains over the cut-off have been made, but when they are will probably permit a cut of at least eight hours in the time between this city and Kansas City.

A real, live effect of the opening of the new "short cut" from the Coast to the Middle West will be a reduction in the importance of Denver as a Union Pacific town. The old line from Kansas City west runs to Denver and thence nearly due north to Cheyenne. This arrangement means a roundabout haul of trains and from the economic standpoint alone was an undesirable arrangement.

The opening of the new cut-off and the reduction of time is of pertinent importance at this time, as closer working relations between the Salt Lake and the Union Pacific are now cementing. Another important result of the new cut-off is that it will give the Union Pacific, in effect, three lines east of the Rockies, a very desirable thing in view of the heavy traffic promised for exposition year.

END INSPECTION.
ESPEE'S SOUTHERN DISTRICT.

General Superintendent Platt and Assistant Chief Engineer Barlow of the Southern Pacific last night completed the annual physical inspection of the southern district. A week was passed on the road, in a special train, and every inch of track and every structure owned by the Southern Pacific was placed, figuratively, under the microscope.

Division Engineer Titcomb and Supts. Whalen, Dyer and Worthington of the Los Angeles, Tucson and San Joaquin divisions, respectively, were members of the party.

Sport Special.

Special service from Bakersfield to Taft is to be provided Monday by the Santa Fe for the Longford-Lester meet.

DEATHS.

With Funeral Announcements.

ADAMSON. At San Jacinto, October 22, 1913, Ida B. Adamson, daughter of Mattie A. Grantley and grand-daughter of Mary B. King.
Notice of funeral later. (Denver papers please copy.)

DOYLE. In this city, Mary M. Doyle, a native of Wisconsin, aged 48 years.
Funeral from the parlors of Cunningham & O'Connor Saturday, October 25, at 8:45 a.m. Requiem mass at St. Vincent's Church at 9 a.m. Interment, Calvary Cemetery.

LAMONT. At No. 212 North Wilton drive, October 22, Mrs. Alice Louise Lamont, aged 28 years.
Remains at parlors of Pierce Bros. & Co. Notice of funeral later.

MARLATT. At No. 1106 West Forty-ninth street, October 21, 1913, Josephine Marlatt, mother of L. E. Marlatt.
Funeral at the chapel of Brasee Brothers, 855 Figueroa street, Friday at 1:30 o'clock. Friends invited.

RISELY. In this city, Annie Risely, aged 61 years.
Funeral from the parlors of Cunningham & O'Connor, No. 1031 South Grand avenue, Saturday, October 25, at 7:30 a.m. Services mass at St. Mary's Church at 8 a.m. Interment, Calvary Cemetery.

ROBBINS. In this city, Minnie Pearl Robbins.
Remains at the parlors of W. H. Sutch.

SHEPARD. October 22, 1913, Clara, wife of Dr. C. A. Shepard of Knollon, Cal.
Funeral services will be held in the chapel of Paris, Carmichael & Co., corner Tenth and Flower streets, Saturday, October 25, at 3 o'clock p.m. Interment, Inglewood Park Cemetery.

STECKER. In this city, October 22, August Stecker, aged 73 years.
Funeral at the chapel of Connell Co., Eleventh and Grand, Saturday, October 25, at 10 a.m. Friends invited. (Napa county papers please copy.)

DEATHS.

With Funeral Announcements.

TOWNSEND. At Phoenix, Ariz., October 21, 1913, Lottie, wife of Lester Townsend.
Funeral at the chapel of Brasee Brothers Saturday at 3 o'clock.

TURNER. In this city, October 23, 1913, Verne Turner.
Remains at Brasee Brothers. Funeral notice later.

VIGNES. October 23, 1913, Mrs. Mamie M. Vignes of No. 2905 North Griffin avenue, aged 36 years, beloved wife of H. P. Vignes, bailiff of Judge Chambers' court.
Funeral Saturday, October 25, at 2 p.m., from the funeral parlors of W. A. Brown, No. 1047 South Figueroa. Interment, Calvary Cemetery.

WALSH. In this city, October 22, Mary Walsh, late of No. 1446 Naud street.
Funeral Friday, October 24, at 8:30 a.m., from the parlors of Cunningham & O'Connor, No. 1031 South Grand avenue. Requiem mass at the Cathedral of St. Vibiana at 9 a.m. Interment, Calvary Cemetery.

WROUGHTON. At No. 1443 West Twenty-eighth street, October 20, Job Wroughton, aged 66 years.
Funeral at chapel of Brasee Brothers Saturday at 1:30 o'clock.

YBARRA. October 23, Pedro Ybarra, of No. 913 North Broadway.
Remains at Pierce Bros. & Co. Funeral notice later.

SCOTTISH RITE CATHEDRAL, No. 920 South Hope street. Tonight at 7:45 o'clock, Fifteenth Degree. Visiting brethren invited.

LODGE NOTICE.

Signet Chapter, No. 57, R.A.M., will confer the Royal Arch Degree at the Masonic Temple, Pico and Figueroa streets, on Friday evening, October 24, at 7:30 o'clock. All Royal Arch Masons welcome.
M. A. BRENNE, H.P.

"Your Honor."

SEVERAL NAMES ARE MENTIONED.

GOVERNOR EXPECTED TO PICK NEW JUDGE SOON.

Frederickson and Valentine Prominently Spoken Of—Long List of Others Stand in Line for a Chance at It—Work Piling Up for Eighteenth on Bench.

The selection of a successor to Judge Conrey, appointed to the vacancy of the Appellate Court bench caused by the death of the late Justice Allen, is causing considerable speculation at the Courthouse.

Some believe that the Governor will redeem the promise said to have been made to Police Judge Frederickson and Fred H. Taft (now Superior Court judge) when the "Progressives" told the candidates for the bench if they would withdraw in the fall of 1912 they would have the next opening. Taft has been appointed to the Juvenile Court, but Police Judge Frederickson was not among the six appointees named by Johnson. His friends state that the present vacancy belongs to him. Frederickson declined to discuss the situation yesterday.

Many think that L. H. Valentine, former United States District Attorney, is in strong favor, and that his chances overtop the rest. He was a receptive candidate when the six new Superior Court departments were created by the Legislature. His friends have made every effort to have his name considered favorably.

At the Courthouse Valentine appears to be the leading choice for the position. Among others mentioned are Justice Reeve, Dell Schweitzer, J. A. Anderson, Fred Morrison and Kemper B. Campbell. The latter has been interviewing a number of judges lately and it is said that he has the backing of E. T. Earl and the Good Government Organization.

The appointment is expected at an early date as the delay forces more work upon the other judges whose calendars are already crowded with cases.

The general opinion is that the Governor will announce his choice by telegraph from Sacramento just prior to his eastern trip, which will keep him away from the State for about a month.

HOW A FIREMAN TELLS IT.

The following wedding announcement, which may be said to have some claim to originality, was received by The Times yesterday:

"Mr. E. L. Rieson, the driver of Truck No. 3 of this fire department, will not be on duty till the tenth of November; reason, that he took unto himself a wife, the said party being Miss Hazel Keller of the city. A large wedding party was served in the evening at Brink's Cafe. Members of the fire department send congratulations. Parties being present: H. Brocker, Charles Cross, L. L. Jadwin, C. R. Teater and Feinlon Dütch.

CITY NEWS IN BRIEF.

Child Labor Law Test.

C. H. Hancock, special agent of the State Labor Bureau, filed a complaint yesterday against C. F. Jones, proprietor of a penny arcade at No. 146 North Main street, alleging a violation of the child labor law in employing as cashier a girl under the legal age.

Income Tax, His Subject.

J. R. Carter, the Collector of Internal Revenue, will deliver an address on the income-tax law at the regular weekly meeting of the Million Club at 2:30 o'clock this afternoon at the Chamber of Commerce. He will give special attention to the administrative features of the law as covered by the Federal statutes. The general public is invited to the meeting.

Hollywood High Band Concert.

A band concert will be given Friday of next week at 2 p.m. at the Hollywood High School auditorium by the High School Band, under the direction of Herr Kirchhofer, musical director of the school. The proceeds from this concert are to be used in securing new uniforms for the band. Lynn Nichols, a school musician and composer, will give selections, including one of his own composition.

On Cowboy Ballads.

Our national folk-song, the cowboy ballad, will supply the subject of a sort of lecture-recital to be given in the chapel of the University of Southern California this afternoon at 2 o'clock. The speaker-singer will be Prof. W. O. Shepard of the university faculty. The subject will be continued at the same hour a week from today.

Investigate Trade Schools.

Special Agent H. A. Cable arrested B. A. Finch, president of a trade school conducted at No. 240 South Main street, yesterday, charging him with operating an employment office without a license. Cable stated that he had received many complaints against the alleged trade schools, and an attempt will be made to compel them to take out a regular employment-office license.

Evening With Negro Poet.

Prof. Charles Alexander of Boston will give his entertainment entitled "An Hour With Paul Laurence Dunbar," in the First United Presbyterian Church, this evening. Himself a scholar and a poet, Mr. Alexander is well known as a reader and interpreter. It is declared to be a great treat to hear him in his delineation of the characters of the negro poet. The entertainment is free and the public is invited.

Attractive Booklet.

"Trolley Trips Through Wonderland" is the title of a pretty folder on Southern California just issued by the Pacific Electric preparatory to the near-opening of the winter tourist season, as an example of the lithographer's art, the folder is worth keeping. There is also a little story, numerous beautiful pictures, as well as a map of "Wonderland." As a drawing card for the Southland, its beauty and thorough makeup promise much.

Strangely Missing.

Mystery surrounds the disappearance of William Schiller, an ornamental plasterer, of No. 1223½ West Tenth street, who has been missing since September 6. On that date Schiller, after a dinner appointment with a business associate, announced his intention of going to Camarillo in regard to a contract. Since then his family has heard nothing of him. He has been somewhat despondent, and it is feared he may have become mentally unbalanced or met with mishap. Schiller is 55 years of age, six feet tall, and gray.

Fine Fowling-piece Stolen.

A fowling-piece de luxe exhibited in the show window of the Dyas-Cline Company, at No. 214 West Third street, for the past few weeks, excited the cupidity of a burglar early yesterday morning, and he cut the heavy glass in the window and extracted the coveted piece, which belonged to John Powers, a local sportsman, and is valued at $1000. The burglar also took, as "lagniappe" (or good measure,) a cheaper shotgun valued at $325. The only clew, a slight one, is a button of unusual shape torn from the intruder's coat in getting through the broken window. Finger prints on the glass were not discovered until they became valueless through conglomeration with others.

COMPLIMENTARY BANQUET.

Friends of New Police Justice Celebrate His Appointment to Place Made Vacant by Justice Rose.

A banquet was tendered Thomas P. White last night at Hamburger's Cafe, in honor of his appointment to the position of Police Justice, at which about 150 of his friends and admirers vied with each other to make the occasion one of the jolliest on record. The banquet-room was handsomely decorated for the occasion and the banquet opened with an invocation by Rev. Joseph S. Glass. I. B. Dockweiler acted as toastmaster, and after the dinner, the following responses were made to toasts: "Pushing Ahead," John P. Burke; "What He Is Up Against," Warren L. Williams, police justice; "Our Nation's Strength," Bishop Conaty; "Politics and the Young Man," R. H. Norton, County Supervisor; "The Bench and the Superior Court; response, Thomas P. White. There was a song by William A. Steffen and musical specialties by Walter J. Goldsmith.

HARKS AWAY BACK.

Lummis Compares Los Angeles of Twelve Thousand to Half Million City of Today.

Charles F. Lummis, former librarian of Los Angeles and founder of the Southwest Museum, was the principal speaker at the meeting of the Los Angeles Realty Board yesterday. His subject was "Los Angeles—Yesterday and Today." He said, in part:

"I have seen Los Angeles grow from a village of 12,000 to its present magnificent proportions, and the thing for which I am most thankful is that it has been able to preserve a social atmosphere which is unique among American cities. This, combined with our splendid educational advantages, is the greatest asset, because it attracts and holds the class of people we want here. It is very gratifying to stand high in the census list, but it is vastly more important to have the right kind of residents. Quality is before quantity."

F. O. Bristol of the New England Mutual Life Insurance Company, talked of "The Other Fellow," and Robert L. Ware, formerly of St. Paul, but now established here, drew a witty picture of the contrast between the two cities, in which Los Angeles came out decidedly ahead.

Roy Silent and C. C. C. Tatum told the members of the board about the big convention of the State Realty Federation at Del Monte last week.

Thomas D. Campbell was the chairman of the day.

THE WEATHER

LOCAL OFFICE, U. S. WEATHER BUREAU, Los Angeles, Oct. 23.—[Reported by Local Forecaster.] At 5 o'clock this morning registered 30.10; at 5 p.m., 29.96. Maximum temperature during the corresponding hours of the day, 75 deg.; minimum, 47 deg. Relative humidity, 5 a.m., 69 per cent.; 5 p.m., 30 per cent. Wind, 5 a.m., south, velocity 7 miles; 5 p.m., south, velocity 9 miles. Rainfall during the twenty-four hours ending at 5 p.m. today, 71 deg.; lowest, 49 deg. Rainfall since July 1, 1913, .53 of an inch. Barometer reduced to sea level.

WEATHER CONDITIONS.—The storm which has been over the western portion of the United States in Idaho and Oregon, with the barometer at its lowest point, 29.80 inches, has moved southeastward to Nebraska, Missouri, Kansas and Oklahoma, and has increased in intensity. Heavy rain fell during the past twenty-four hours in Idaho, Oregon, Nebraska, Missouri, Kansas and Oklahoma, and in Oklahoma to 2.22 inches, and 1.50 inches in Kansas. The barometer is slightly rising in Oregon, Idaho and Utah, and has fallen slightly in Nebraska, Missouri, Kansas and Oklahoma. Elsewhere the pressure is generally from Washington to the Pacific Coast. The weather will be unsettled and probably cooler, with rain in the Rocky Mountain states and Nebraska, Missouri, Kansas and Oklahoma during the next thirty-six hours. The weather will be fair in this district tonight and tomorrow.

LOCAL FORECAST.

OIL COMBINE TO... MANY MI...

Royal Dutch-Shell, th... Concern, Bu...

Working on Projects Which... Enormous Investments—Seek... Million-Dollar Purchase in th... Mighty Powers May Swing W...

THAT the Royal Dutch-Shell Combine, the great European oil concern backed largely by Rothschild capital, is figuring on investments here which, in addition to those already made, will involve approximately $75,000,000, was verified yesterday. The Dutch-Shell's latest purchase—that of the Mays-Consolidated Company in the Midway field—was announced yesterday. The flat sum of $1,000,000 was paid for this concern's properties.

By virtue of the fact that the European combine has always been the most powerful rival of the Standard Oil Company in world oil trade, it is evident that investments to the extent indicated, would virtually revolutionize the oil business here, and probably result in its settling finally into the hands of the two mighty powers.

Chief among the projects, which are being worked on by the Royal Dutch-Shell combine, is the more than probable absorption of the Union Oil Company of this city, on the control of which Eugene J. de Sabla, Jr., in the name of the General Petroleum Company of San Francisco, holds an option.

De Sabla, who is president of the General Petroleum, left New York for London only a few weeks ago in his Capt. John Barneson, manager of the company, presumably for the purpose of closing up the transaction, which is also to include the General Petroleum Company. Barneson has been in London since last spring, and has been negotiating with the Rothschild combine a large part of that time.

Everything seems to point to early completion of the deal. Those here who are in touch with the negotiations say that they understand that steady progress is made toward that end. Reports and advices pointed to the fact that the finalization on the transaction is practically up to the Royal Dutch-Shell directorate.

XXXIIND YEAR. FRIDAY, OCTOBER 24, 1913.—EDITORIAL SECTION. POPULATION {By the Federal Census (1910)—319,198 By the City Directory (1913)—482,457}

Revolutionizing Industry.

OIL COMBINE TO BRING MANY MILLIONS HERE.

Royal Dutch-Shell, the Great European Concern, Busier Still.

Working on Projects Which Will Involve Further Enormous Investments—Seek Control of Union Oil. Million-Dollar Purchase in the Midway Field—Two Mighty Powers May Swing Whole Business.

[illegible] the Royal Dutch-Shell Combine, the great Etropean oil concern backed largely by Rothschild capital, is figuring on investments here which, in addition to those already made, will involve approximately $71,000,000, was verified yesterday. The Dutch-Shell's latest purchase—that of the Mays-Consolidated interest in the Midway field—was announced yesterday. The flat sum of $2,000,000 was paid for this concern's properties.

Despite of the fact that the oil combine has always been the most powerful rival of the Standard Oil Company in world oil trade, it is evident that investments to the extent indicated, would virtually revolutionize the oil business here, and would result in its settling finally into the hands of the two mighty concerns.

Among the projects, which are reported on by the Royal Dutch-Shell combine, is the more than probable absorption of the Union Oil Company of this city, on the control of which Eugene J. de Sabla, Jr., in the interest of the General Petroleum Company of San Francisco, holds an option.

De Sabla, who is president of the General Petroleum, left New York for this coast only a few weeks ago with Capt. John Barneson, manager of the company, presumably for the purpose of closing up the transaction. It is also to include the General Petroleum Company. Barneson has been in London since last spring, and has been negotiating with the Rothschilds to dispose a large part of that interest.

Everything seems to point to early consummation of the deal. Those here who are in touch with the negotiations declare that understand that steady progress is made toward that end. Reference is pointed to the fact that the decision on the transaction is finally up to the Royal Dutch-Shell directors.

Modifications in the option on the Union Oil control have been asked, and the purchase price still stands at $120 a share. Payments on the option have steadily been made, and $733,000 of the $1,000,000 involved has been received. The deal for the Union's control involves over $20,000,000 and will net stockholders of United Petroleum and Union Providence $120 a share when consumated under the present terms.

FIRST STEPS.

It is certain that the first steps in the Royal Dutch-Shell deal were taken before Barneson's departure for Europe. It was not long after this that public announcement of the combine's intention of entering the oil-producing business in California was made. The combine for some time previous had been shipping gasoline to this Coast from the Orient, through its subsidiary, the American Gasoline Company. Most of the cargoes went to Seattle, although lately San Francisco has also been receiving them.

The first producing property purchased by the combine was the California Oilfields, Ltd., a very successful English corporation, operating in Coalinga field. This deal involved $12,500,000. Almost simultaneously came the announcement that the European concern would also build a pipe line and refineries to handle this oil. It is worthy of note, however, that since the negotiations for the Union and General Petroleum have been coming to a head, the pipe line scheme has apparently been dropped.

The Union Oil Company controls the Producers' Transportation Company's line from the Kern county fields to Port Harford, near San Luis Obispo. This line has a capacity of about 40,000 barrels a month, having recently been doubled from Junction Station to Port Harford. Over this line is also handled the oil of the members of the Independent Oil Producers' Agency, a co-operative organization, of which the Union is a member. Besides this the Union is well supplied with oil transportation

(Continued on Eleventh Page.)

In the Instant.

BABY KILLED BY AN AUT[illegible]

Riding on Bicycle Bars W[illegible] Struck at Dusk.

Mother Away Visiting; [illegible] Is Taken by Daughte[illegible]

Man at Wheel Jailed Cha[illegible] With Fast Driving.

Two-year-old George Tuber was instantly killed shortly after 6 o'clock last night when knocked off a handle-bar, of a bicycle, on which he was riding with his brother, by an automobile driven by Paul Hinkley, a the Hudson Auto Sales Company.

Verne Tumber, the fifteen-year-old brother, was severely bruised and lacerated when thrown from the bicycle wheel near his home at No. 111[illegible] Ninth street.

Hinkley is in the city jail facing a serious charge. He is general manager and superintendent of the Hudson Company. With him was H. L. Arnold, an agent for the company. Arnold was not detained.

Laughing and prattling, Baby Tumber sat on the handle-bars of his brother's bicycle. It was rare sport for this. Brother Verne held him steady as he started from the curb in front of the Tumber home.

Hinkley drove west on Ninth [illegible]

STORIES DIFFER.

Verne says he saw the machine coming, did not turn in front of it. He was riding west on Ninth street, he says, and turning in his saddle saw the approaching car. Whether it came confused as the glare of the electric lights struck him or whether as Hinkley says, the boy turned his bicycle directly in front of the approaching car are matters to be determined.

Hinkley has the reputation of being a careful driver.

Hinkley says he was not driving to exceed fifteen miles an hour. In this statement he is borne out by several persons. On the other hand the boy's father says that the marks of the tires on the smooth asphalt show that the automobile was braked severely. Hinkley says his machine did not run more than thirty feet. All the same Hinkley was arrested and [illegible] to jail. He is beside himself with remorse.

"If it only had been a man or a woman; if it had been anyone who could have reasoned or [illegible] sought to avoid my machine, I could think about it sanely; but, my God, think about it sanely; but, my God, to have killed a baby!"

Arnold hurried the injured boy to the Receiving Hospital. At the hospital there came to him a realization of what had occurred.

OVERWHELMED.

"At home, with its mother, I saw a baby just his age," he began. Then by two big tears crept down his cheeks and with a half-strangled cry of "I must get to them. I must get to them!" he staggered from the room.

Not those alone were to suffer. For the little 12-year-old sister, Thelma, came the hard part. Her brother was visiting in Garvanza. Dead! A nameless horror; tears frozen in wide blue eyes, the little girl was placed on a street car to [illegible] mother of what had happened. The light mission this, to tell a mother that her baby will not smile again for her, and there were many pathisters.

George W. Tumber, father of the dead child, is in Arizona seeking health. He is a plumber. The little family has been in rather straitened circumstances, so say the neighbors.

An inquest probably will be held today, and until the verdict of the Coroner's jury is returned it is likely that no formal charge will be lodged against Hinkley. He is held without suspicion.

CONCLUDES INSPECTION.

Tour of Southern Counties by Forester Ends at Pasadena Talk on Park.

Chief Forester H. S. Graves concluded his visit to Southern California last night, with his address before the Tri-county Improvement Committee, consisting of the representatives from each of the counties of San Bernardino, Orange and Riverside at the latter place. His address delivered at the Angelus Hotel, Pasadena, H. Charlton of the Angeles National Forest spoke of the work that has been accomplished by the Forest Service, and referred to the [illegible] tion, and referred to the future usefulness.

Yesterday afternoon Chief Forester Graves and Supervisor Fenby [illegible] dressed the Pasadena Board of Trade at the Hotel Maryland on the subject of the proposed Angeles National Forest.

Chief Forester Graves left last night for Williams, Ariz., en route back to his desk in Washington City. He yesterday expressed his high appreciation of the work done in the various forests throughout California and was especially complimentary in regard to the management of the local

TOO MUCH IS ENOUGH.

Festive Young Folks of Sherman Won't Permit Newlyweds to Sleep. Deputy Sheriff an Optate.

Mr. and Mrs. M. T. Spencer are attractive young married people of Sherman. They are naturally much in love and the honeymoon is still shining brightly. But each night, according to Mrs. Spencer, riotous residents of Sherman gather beneath their windows and rattle tin pans and howl in a way to make the very dogs hang their stubby tails in fear.

Deputy District Attorney Veitch was appealed to yesterday to stop the prolonged charivari. His chivalrous heart was touched and he at once got into communication with the Sheriff's office. From now on a trusted representative of the law will watch the Spencer home to see that their slumbers are undisturbed by the festive young people. Arrests on a charge of disturbing the peace may follow for neighbors who have long passed the honeymoon stage are equally averse to the hideous, ear-piercing yells and discordant sounds that emanate from the darkness of the shrubbery.

"We wouldn't have minded it for one night," Mrs. Spencer told Veitch, "but it has gone on for a week. I have a headache and my husband threatens to get a shotgun and fire at the joy-makers."

Hereafter the revelers will be prosecuted "to the fullest extent of the law."

Cataclysm.

DELUGE COMES FOR DR. LYMAN.

COWERS UNDER WITHERING HAIL OF ACCUSATION.

Amazing Allegations Made in the Federal Courtroom Against the Panama Promoter When His One-Time Right-hand Man Tells the Whole Story of His Operations.

Following are the principal points in the startling testimony given against Dr. John Grant Lyman yesterday by John Redpath, who was vice-president of the Panama Development Company:

"Dr. Lyman said he did not want to be known in connection with the affairs of the Panama Development Company.

"Stock was issued in the names of a number of different people, but never delivered.

"The Panama Development Company was requested to take its account from the Security Savings Bank.

"Dr. Lyman told me the company represented the Panamanian government, and similar statements were made to the representatives of the Dun and Bradstreet agencies.

"The assets of the company, $54,473, were based on figures based on statements made by Dr. Lyman. I know nothing about them.

"'Send the people to me, and I will attend to them,' said Dr. Lyman.

"My salary was $50 a week. I never attended a meeting of the board of directors; never heard of a [illegible], but signed the report of the proceedings as prepared by Lyman."

The case against Dr. John Grant Lyman developed with amazing suddenness yesterday afternoon in the United States District Court.

John Redpath, who was vice-president of the Panama Development Company, was on the stand and made a full and startling statement of his connection with the concern. While his former associate was testifying, Dr. Lyman sat with a very much flushed face. For the first time the nervy defendant seemed to have lost his equanimity. He almost cowered, it seemed. His attorney, Paul W. Schenck, had to content himself with objections that were for the most part overruled.

In April, 1911, Redpath testified that he saw an advertisement of Dr. Lyman, asking for a salesman of Panama lands and called upon Lyman

AS ABRUPT AS ITS BEGINNING.

Thompson Bribery Trial Is Halted in Midair.

Secretary McKeag Unable to Identify the Check.

Famous Saloon Case It Just Curls Up and Dies.

The case against E. W. Thompson, applicant for a saloon license on Spring street and who was charged with attempting to bribe the former Police Commission, came to an abrupt ending yesterday afternoon when Deputy District Attorney Blair moved to dismiss. The representative of the prosecution was forced to take this step because Secretary McKeag of the Police Commission was unable to positively identify a check for $2500 drawn upon the Citizens' National Bank as the one left on his desk June 10.

As the whole case rested upon the identification of the check, the prosecution came to a sudden halt. Blair appeared irritated at the unexpected outcome, but without much comment informed the court that he was unable to proceed unless the check could be offered in evidence.

The case attracted much attention at the time the grand jury made its investigation, which was before Alexander stepped out as Mayor and Police Commissioners Akey and McDill resigned.

According to the admitted facts Secretary McDill found an envelope on his desk the morning of June 10 addressed to him. He found a check inside made payable to him. He hastened to the then Mayor Alexander with the check and later a grand jury investigation was ordered by the District Attorney.

Thompson was placed under arrest. He declared at the time that he supposed that persons were obliged to pay for saloon licenses and that he was not aware he was violating any law.

It appeared from the interrogations of the District Attorney that Thompson went to Mrs. J. E. Fickeissen of the Main Realty Company and asked her to secure the necessary consent of property owners adjoining the wanted location between Eighth and Ninth on South Spring street.

After several conferences Mrs. Fickeissen agreed to transact the preliminary work for $4500. She stated yesterday that she never got a dollar from Thompson.

If the case had progressed to the defense, Earl Rogers, Frank Dominguez, H. L. Giesler and Charles Kelly were prepared to show that no violation of law was committed and that Thompson never tried to bribe anyone. But the action of the State in asking for the dismissal rendered the defense superfluous.

The case was in Judge Craig's court. Former Mayor Alexander and ex-Police Commissioners McDill and Akey remained in the corridor the greater part of the day, but their services as witnesses were not needed.

Only two or three unimportant witnesses were called before Secretary McKeag.

Mrs. J. E. Fickeissen,

A broker in the Severance building, who, it is alleged, told E. W. Thompson, defendant in Judge Craig's court on a charge of attempted bribery, how to purchase a saloon license.

Despondent Girl-Wife.

TRIES TO LEAP FROM ELEVENTH-STORY SILL.

HYSTERICALLY exclaiming "My God, I have nothing more to live for!" Mrs. Hattie Baker, recently from Portland, tried to jump from the window of Deputy District Attorney Joos's office on the eleventh floor of the Hall of Records yesterday afternoon.

Though trembling with excitement Joos, a stout and muscular man, managed to seize Mrs. Baker's dress and kept her from carrying out her evident intention of committing suicide.

Young women in the District Attorney's office soothed the excited girl wife, and made her promise not to try to take her life until she is sure that living has no joy left for her. She promised to return this morning.

Mrs. Baker, according to her own story, married when 18, and after leading an unhappy life with her husband, was deserted by him in Portland. She managed to pawn enough clothing to purchase a railroad ticket.

She appeared in the District Attorney's office to seek advice, and was referred to Joos. He told her that a complaint for failure to provide would not help her unless her husband is located.

Encompassing.

STEAMERS MAKE PORT BY NEW TRIANGULATION.

ONE more steamship company will make Los Angeles a regular port of call, giving direct service from and to this city with the Hawaiian Islands. Capt. William Matson, head of the Matson Navigation Company, which operates eight steamers from San Francisco and Seattle up and down the Coast and to Honolulu, yesterday gave assurance that the service be started within two or three months, possibly sooner if the sailing schedule can be so arranged.

"The fact that Los Angeles is being talked of continually, the wonderful development of the city itself in manufacturing and general commercial lines and the great passenger business in and out of this city are causes for my determination to establish a service here," said Capt. Matson, who was only in Los Angeles for a few hours.

"And it is not only the business of the present that we are looking to, but the business of the future and any man can readily realize that this port of Los Angeles, the ocean gateway to a wonderful territory, is one to be reckoned with. If we receive any encouragement our two steamers will not only be continued, but the number coming here will be increased."

And along the line of development, Capt. Matson referred to two new steamers which are soon to arrive from the eastern shipyards. One of them, the Matsonia, has already been launched and will leave Newport News for the trip around the Horn on November 1. This vessel has a displacement of 17,000 tons and accommodations for 350 first-class passengers in addition to a larger number of second and third cabin travelers. It is equipped in the latest possible manner and will be a splendid addition to the Coast shipping.

The Matson steamers all sail a triangular route, at the present time, leaving from Seattle to Honolulu, and from there to San Francisco and then up the Coast. The plan including Los Angeles, will mean a second triangle with San Francisco and Honolulu the other points.

Marry in New York.

NURSE LAWYER'S BRIDE; ROMANCE OF HOSPITAL.

AN ATTACHMENT that began in a little white room in the Sisters' Hospital in Los Angeles between Attorney Frederick C. Valentine, then seriously ill, and Miss Marie McMahan, his nurse, ended romantically yesterday when they were married at the Cathedral of St. John the Divine in New York. The ceremony was performed by Bishop Johnson and Dean William McCormack of St. Paul's Pro-Cathedral, os Angeles, who are in the East attending the Episcopal General Convention.

The delgation from the diocese of Los Angeles to the convention of the Episcopal Church, of which the groom was a member, attended the wedding Valentine is chancellor of the diocese, having succeeded the late Maj. Henry T. Lee, his law partner.

The bride is a native of Rochester. She has lived in Los Angeles for the last five years. Valentine came to this city six years ago from New York City. He and the young woman met at the Hollywood Hotel two years ago when she was in attendance upon a guest there.

When Valentine was taken to the Sisters' Hospital a year ago in a critical condition, he yielded to the suggestion of friends at the hotel to employ Miss McMahan as his special nurse.

"When I called on Valentine at the hospital I saw Miss McMahan there, a patient watcher at his bedside," an attorney associated with Valentine said yesterday. "After he had recovered I met him on the street one day with the young woman. From that time on he neglected his male friends for the young woman, who he appeared to believed saved his life."

Valentine as Chancellor of the Diocese of Los Angeles has been active and successful in church work. His bride is also interested in church matters. The telegram announcing the marriage states that Mr. and Mrs. Valentine will return to Los Angeles, after a short wedding trip in the East and live at the Hollywood Hotel. Recently Valentine has made his home at The Palms. When he went East to attend the church convention he did not advise his friends of his approaching marriage.

Some Administration.

RUBBER STAMP OUR GOVERNOR.

Holy Hiram Away; Wallace Is Sick Here.

President of Senate Won't Act Till Called.

And Attorney-General Says "All New to Me."

A rubber stamp is Governor of California.

Holy Hiram Johnson is in the East—trying to help boost a so-called Progressive campaign in Massachusetts.

Lieut.-Gov. Wallace is in a Pasadena hospital.

President of the Senate Boynton will not act as Governor unless he is called upon.

Secretary of State Jordan refuses to recognize rubber-stamp signatures of official documents.

Atty.-Gen. Webb, now in Los Angeles, accordingly talked last night at the Alexandria on the Governorless State, rubber stamps, succession to office, and notary publics.

The Attorney-General did the talking to the whole State in lieu of anybody else who might be on the job to tell the people whether or not they have a Governor.

And, while talking, the Attorney-General emphasized the point that if he is away from the capital it is because he is here on urgent State business.

He was busy last night—smoking over the emptied ice-cream plate that had contained the last course of a nine-course dinner. It had been a good dinner, and the Attorney-General felt humorous.

A page told a waiter, who told the captain, who told the steward, who told the secretary of the Los Angeles Bar Association, who told the Attorney-General, that a reporter would have a word with Webb.

Webb appeared, in a haze of cigar smoke. The reporter bet himself an orange phosphate that Webb would be in a hurry to return to the table. The reporter won.

"Johnson is in the East and Lieut.-Gov. Wallace is ill and Secretary of State Jordan refuses——" and so on, said the reporter. "Who is the Governor?"

WHO HE IS.

Without a moment's deep thought, without a glance at his vest-pocket Blackstone, in fact—just like that! came the reply:

"The president of the Senate."

Easy, simple, like rolling off a log, or getting an appointment. A broad grin appeared amid the smoke haze. The Attorney-General flicked the ash from his cigar, ran a thumb around the armpit of his vest and nodded, chivalrously, his curtsey to the Commonwealth, then turned toward the banquet hall. The reporter summoned his courage by gulping:

"But President Boynton refuses to act unless called on."

Atty.-Gen. Webb's jaw dropped. His right hand transferred the cigar to the left, and five fingers covered the gap the dropping jaw had made in his speech fount. Then he rubbed his head.

"Who calls on him?" ventured the reporter.

"I don't know. Didn't know he had to be called on. He doesn't. Automatically these things go on." Webb glanced nervously toward the banquet hall. "Anyway," a smile appeared with the happy thought, "Wallace is acting Governor."

"But he's not on the job; he's ill."

"So I've heard. Didn't know he was all in, though. Sorry. Now, Wallace——"

"Then the cam shaft and the differential and the carburetor and the —anyway, the State machinery's all clogged up. Official business is at a standstill. California's without a Governor unless the rubber stamp left behind by Johnson is Governor. And if the stamp's the Governor the Secretary of State is guilty of insubordination or something?"

"What rubber stamp?" The Attorney-General actually turned full toward the humble reporter. He was interested, at last; not in the Governorship, in the stamp.

"Why the rubber stamp of Johnson's signature. The thing the attaches of Johnson's office stamp the documents with when he's away. They have quite a lot of use for it."

"Didn't know they had one; didn't——"

"Is it legal?"

"Suppose so. I'll have a look at it when I go back."

"Are you returning at once to decide for them up in Sacramento whether they have a Governor."

"I'm not returning at once. I've got important business here. When that is finished I shall return. Meanwhile, I have no fear of the State machinery becoming clogged. I have had no official notification that my services are needed there, and I have not heard that the Secretary of State refuses to recognize this rubber stamp."

LET 'EM WAIT.

"What about the important documents that need immediate attention and which are held up awaiting your decision?"

Mr. Webb smiled, broader.

"The notary publics can wait."

"What notary publics? We're talking Governor."

"Well, about all the 'important' documents that need 'immediate' attention and these signatures are notary publics' credentials; they can wait a few days, I guess. You see, these fellows who want to be notaries are scattered from San Diego to San Francisco. That's about the extent of the urgency in this matter, I think."

The Attorney-General thought wrong. He took it all as a joke. He specified that he was feeling humorous. But he had not yet received the following none-the-less-imperative message from Secretary of State Jordan.

"It has been brought to my attention that Lieut.-Gov. Wallace, who, in the absence of Gov. Johnson from the State, is acting Governor of California, is confined in a Los Angeles Hospital, incapable of discharging the duties of the executive office.

"Documents from the executive office bearing a facsimile of his signature by rubber stamp, affixed by employees of the executive office, are being presented to me for attestation.

"A serious question arises, namely, am I justified and am I acting in a legal manner in attesting such documents signed in this manner in view

—Larger Assortment and Better Values Than We Have Ever Before Shown—Visit Our Fur Rooms

Silk Dress Fashions at $25 to $45

Dresses of the most modern types, made of the newer, the most fashionable silk materials will be on parade this week. And prices are so moderate you would not think of employing a dressmaker. Evening gowns, too, of silk or chiffon, for dress occasions. Charming creations at $25.00, $35.00 and $45.00.

Sizes for misses and women.

Cotton Comforters Entirely New Lot

Soft, fluffy, warm comforters filled with one-piece pure white cotton and covered with exceptionally nice quality silkoline, well tufted. A full range of colors. Size 72x88-inch. $2.25.

Damask Dinner Sets $7.50

We have more than one reason for saying this lot of dinner sets is better than the majority seen at the price. An examination of them will satisfy you on that point. The cloth is 2x2 yards and a dozen 24-inch napkins to match, a Friday special at $7.50.

Outing Gowns for Chilly Nights

There's real comfort these frosty nights in an outing flannel gown.

Stripes, figures and plain white; scalloped embroidered edges, embroidered fronts, military fronts, collars or collarless, low necks, high necks, Dutch necks; all well made, generously full and roomy, $1.00, $1.25, $1.50, $1.75 and $2.00.

For the sleeping porch we show a new style with pockets for the feet and a detachable hood—it's a real novelty.

GAS TALKS IN BIG FIGURES.

State Probers Seek Bottom of the Well.

Will Endeavor to Fix Rates for City Consumers.

Experts Declare Natural Gas Is All a Guess.

No public question since the discussion of the light and power project, a couple of years ago, has attracted so great an aggregation of corporate interests as assembled in the Council chamber at the City Hall yesterday, the first day of the sitting of the State Railroad Commission, in its hearing to determine what shall be the equitable rate for the sale of natural gas by the Southern California Gas Company.

The members of the Railroad Commission, before whom the evidence is being taken, are Max Thelan and Alex Gordon, the former conducting the examination. Among those present were William Matson, president of the Honolulu Oil Company, a large producer of natural gas; John Martin, original promoter of the Midway Gas Company; Cyrus Pierce, secretary of the same company; H. H. McClintock, superintendent of the Northern Development Company and superintendent in the field for the Southern California Gas Company; A. G. Kerckhoff, president of the last-named corporation; officers of the Pacific Light and Power Company, Southern California Edison Company, Los Angeles Gas and Electric Corporation, Southern Pacific Oil Company, Western Fuel and Gas Company, the Associated Oil Company, and many others.

The city was represented by City Attorney Stephenson and Deputy Robertson; the companies interested in the sale of the gas, as well as those interested in its purchase and distribution in this city, were represented by H. J. Stevens; the Railroad Commission was aided on the floor by A. B. Kelly, W. C. Frankhouser and F. E. Hoar, gas specialists. At different times during the day all the members of the City Council were present, at whose request the investigation was being made, also the members of the Public Utilities Commission.

A BAD BARGAIN.

The salient points in the testimony of the first witness, William Matson, were that the Honolulu company is selling gas to the Midway Gas Company for 5 cents per 1000 feet, and that he thinks the latter has made a bad bargain. When asked why, he said it was because he did not believe that there was sufficient gas to live up to the contract, which calls for a daily supply of 15,000,000 feet, 20,000,000 feet and 30,000,000 feet, during the first, second and third years, respectively.

John Martin, president of the Midway Gas Company, was the next witness. He testified that he had made contracts with the Honolulu company for the purchase of the gas, after which he organized the Midway company, floated $1,250,000 worth of bonds, and issued notes to the amount of $210,000, making a total capitalization of $1,560,000. In the sale of the bonds it was necessary to accompany each bond with stock in the company, as otherwise it would have been impossible to sell the bonds. As a bonus for his contracts for gas he was given stock to the value of $1,-560,000, which he proceeded to sell to his friends, who were willing to take the risk in making the investment, until he at present holds but 7½ per cent. of the stock of the company.

Mr. Martin assented to the statement previously made by George W. Barnes, manager of the Southern California Gas Company, that they had begun delivering gas to Los Angeles on April 28, 1913, having made a contract with the local company to sell the gas at 5 cents per 1000 feet. He testified that the $1,560,000 had been expended for rights of way, roads, buildings and bridges, and the 112 miles of pipe line from the Midway field to Glendale. The pipe alone cost $188,000.

MADE IT SAFE?

He stated that the contract with the Southern California Gas Company to supply gas at the rate of 5 cents per 1000 feet, is in such shape that if the supply falls below 15,000,000 feet daily the Midway company has the option of compelling the leasing company to take over the entire property and assume responsibility for the bonds and notes outstanding. In answer to a direct question he said that it will require 18,000,000 feet per day to retire the bonds in the ten years they have to run. They are now delivering to this city from 12,000,000 to 15,000,000 feet per day. He further testified that Messrs. Balch and Kerckhoff of the Southern California Gas Company never had any share in the Midway company, and that he, Martin, has no interest whatever, directly or indirectly, in the distributing company.

As to the present maintenance expenses of the Midway Gas Company, he said:

"We have no expenses worth mentioning. We have half a man in the secretary's office."

The laugh over this remark was emphasized when Cyrus Pierce was called and testified that he is the secretary. His avoirdupois will probably swing the beam at about 300 pounds.

Mr. Pierce is manager of the N. W. Halsey Company, bond dealers, which firm sold some of the Midway bonds, but they want no credit for it. Said Pierce:

SHAKY BONDS.

"We only sold to people who are accustomed to taking a business risk and not to the general public. We classed them as highly speculative bonds, and there are always men who wish to take a risk of making more than the usual gain by taking the risk of commensurate loss. We are not in the habit of handling bonds of that kind and promise never to do it again."

H. H. McClintock was an interesting and illuminating witness. He testified in part:

"The Northern Exploration Company is a drilling company and does the drilling for the Southern California Gas Company. We have drilled seven wells—two of which have been completed; two have indications of oil, but neither is completed, one having gone to the depth of 2560 feet; one other may become a gas well, but it is now full of water; one looks like a total loss at a depth of 2660 feet and has cost $27,668.69; one is suspended as doubtful. The first well was completed in April, 1913, and cost $40,-648.89, and its estimated production is 1,000,000 feet per day; the second was completed in July, 1913, and is estimated to produce 2,000,000 feet per day. I have here bills for these wells drilled for us by the Associated Oil Company. One is for $29,029.52 and the well produces about 1,000,000 feet per day; one is for $62,685.59, and the other for $51,948.77; neither of these wells have ever been drawn upon."

IT'S ALL A GUESS.

He testified that their initial pressure showed 14,000,000 feet and 20,-000,000 feet, respectively, which would in the pipes equal 18 per cent. of that amount. He explained in an interesting way that this pressure might last but thirty days, and that he has not the slightest idea of the life of a gas well. The gas, he said, is found at an average depth of about 2400 feet, in a shale that is 50 per cent. sea shells. He cited two wells of the Southern Pacific Company, one of which came in during 1910 with 45,000,000 feet daily, but fell off to less than a million during 1911, the other was brought in during January of the present year, with a daily flow of 20,000,000 feet, but went off entirely when an oil well came in later, and their total of eleven wells are all showing a steady decline.

"The gas is contained in a series of pockets or crevasses," he said. "Low down on the anticline the gas shale and the oil sand run together and the bringing in of an oil well takes off the gas pressure. To drill a gas well we carry a ten-inch casing down to water and then cement it, using many tons of cement to shut off to water. We then follow with another string of casing to the shale, and then a third into the gas strata. If a well flows gas and then runs out, it is cheaper to drill a new hole than to attempt to put the old one farther down in an effort to find oil—this rule is almost without exception. I don't know an instance in which the gas has run out and the old well has afterward produced oil."

The investigation will be resumed this morning at 10 o'clock, when the contracts of the Southern California Gas Company with the Midway Gas Company will be introduced and the officers of the former company will be called upon to testify as to thetr provisions and concerning operating expenses.

"Mr. Chairman!"

VOX POPULI GETS CHANCE TO TALK.

PUBLIC DISCUSSION OVER SALE OF MONOLITH PLANT.

Some Want County to Retain Its Great Cement Works, While Others Opine It Is a White Elephant. Aqueduct's Chief Engineer Believes in Keeping Property.

The Board of Supervisors invited the public to participate in an open debate yesterday on the question of purchasing the Monolith cement plant from the city. Inasmuch as the cost is $550,000, the members of the board thought it wise to allow full and free expressions of opinion.

Ingle Carpenter, representing a Pomona delegation, spoke against the proposed purchase. He argued that the plant will deteriprate in the course of the next few years, and that the money could be applied to good-road extension with more profit to the county at large.

It was also argued that the quality of the cement produced at the city plant is not as good as that manufactured at some other commercial plants.

Chief Engineer Mulholland of the water board denied this statement. He asserted that the cement from the Monolith plant gave excellent satisfaction in the construction of the aqueduct, and that several engineers of national reputation passed favorably upon the lasting qualities of the cement.

County Counsel Hill read a legal opinion which, in effect stated that the board has the authority to make such a purchase out of county funds.

It was argued by others that the county can derive a large annual revenue from the sale of the cement in addition to having all the material it will need for many years to come to surface the good-road system of the county, which is being gradually extended. The present highways also need resurfacing from time to time, according to the members of the County Highway Commission.

WOMEN INDIGNANT.

Protest Vigorously Santa Monica Council's Discarding of Sand-Hauling Petition.

The women of the third precinct of Santa Monica, who assert that their petition asking the abatement of the alleged nuisance attendant upon sand hauling in the beach city was thrown out by the Council without consideration because it did not include Councilman Brice among those addressed, vented their indignation yesterday in a sort of memorial which declares the action to be "without a parallel in America."

The difficulty originated when the petition was filed complaining of the sand-hauling on Bickwell avenue. It was set out, over forty-six signatures, that the passage of heavy teams made the street all but impassable for other vehicles and that the oil used on the surface was ruinous to house furnishings and to the appearance of the neighborhood. The children, stated the resolution, were deprived of their playground and subjected to a menace to health and morals through the dust and the alleged profanity of the teamsters. The hauling was declared to depreciate property by making the section undesirable for residence purposes.

This petition was addressed to the "Honorable City Council, representing the first, second, fourth, fifth, sixth and seventh precincts of the city of Santa Monica" and declared the third to be without a representative. The document of yesterday declares that Councilman Brice's name was purposely omitted because "he had repetedly refused to accede to the wishes of his constituents in other matters, and in the matter of sand hauling, declared openly in favor of it. The memorial further embraces serious charges against the conduct of the third precinct and condemns the alleged action of the Council in "refusing protection to decent, law-abiding respectable women by ordering their appeal striken from the minutes."

WOMAN ARRAIGNED.

Mrs. Laura Crabtree was arraigned before Justice Reeve yesterday on a statutory charge in connection with the alleged luring of girls to her house, No. 321 West Temple street. The woman is held at the Central Station on another charge.

TREAT ECZEMA AND PIMPLES WITH POSLAM

You have heard of the effectiveness of Poslam, the perfect skin remedy. Test it by selecting a small surface where the skin is broken out. Apply Poslam on this place at night and note the difference in the morning. Surprising results are seen, for Poslam's healing action in eczema, acne, psoriasis, barbers' itch, piles, etc. begins with first application, when all itching is stopped, and continues unremittingly until its work is done. It "takes hold" at once, and you can observe progress day by day. The eradication of pimples, rashes and minor troubles are but matters of briefest treatment with Poslam.

POSLAM SOAP improves and beautifies the skin and hair, prevents roughness, purifies the scalp. All druggists sell Poslam (price 50 cents,) and Poslam Soap (price 25 cents.) For free samples, write to the Emergency Laboratories, 32 West 25th Street, New York City.

"Get Right With God."

PAYS TO SAVE SINFUL SOULS.

FORT WAYNE EDITOR PRESENTS COINS TO PRISONERS.

Says He Finds Greatest Work in the World Is to Labor for Christ. Men Behind the Bars Glad to Get Souvenirs—Many an One Reforms His Life for God.

Pocket-pieces about the size of $20 gold coins were distributed among the prisoners at the City Jail yesterday by E. A. K. Hackett, proprietor of the Ft. Wayne Sentinel, who is passing the winter in this city, as he has done for a number of years. Hackett was accompanied to the police station by A. L. Miller, harpist and soloist, from the Y.M.C.A.

The souvenirs, which are stamped out of heavy sheet brass, bear in light relief a representation of Christ on the cross, and at the foot of the cross the lettering, "He Died for You." "Get Right With God," is another inscription and around the edge is the text, "Whosoever shall call upon the name of the Lord, shall be saved." On the reverse side is the quotation from John 3:16—"For God so loved the world, that he gave his only begotten Son that whosoever believeth in him should not perish, but have everlasting life."

Yesterday was the first day of the distribution and the prisoners received them gladly. Hackett, during his stay in Los Angeles is associate secretary of the religious department of the Y.M.C.A. and in that capacity visits the City Jail every Thursday and talks to the prisoners. Some time ago he established the practice of giving out pocket mirrors on the back of which was a picture of Christ preaching to the multitude, and encircling the picture is the text, "Come unto me, all ye that labor and are heavy laden, and I will give you rest." About 3000 have been distributed.

"The only thing worth while in this world," said Hackett yesterday, "is working for the Lord. We keep in touch with these men whom we visit every week and many of them, after their release from jail, come to see us at the Y.M.C.A, and we are able to help many of them on the right road. One case in particular occurs to me. A man who had held a high position in an eastern city got to drinking and was a down and out drunkard for twelve years. He came to me one day after I had talked to the prisoners and said he was tired of being on the chain gang. I was able to put him in touch with a man who took an interest in him and now for over a year, he has been perfectly straight and is doing well. Yes, this work pays."

Cosmos.

AZUSA HER HOME; NAME, AMY PAGE.

MRS. ROBERTS'S HUMBLE ORIGIN IN FOOTHILL TOWN.

Married Young Citrus Packer and Lived Happily Until She Began to See the World—Behind Bars She Tells of Childhood Days—"Men Deceitful, Women Lovely."

With spirit broken and nerves shattered by the rigor and monotony of prison routine, Mrs. Thomas Gordon Roberts, erstwhile hostess of lavish millionaires and self-styled heiress to fabulous wealth, yesterday for the first time threw off the mask by which she has deluded not only men of prominence but business concerns noted for their shrewdness, and revealed her true life history as the daughter of a poor California miner.

She posed as the millionaire daughter of Jesus Alameda, the "sugar king" of Mexico, and by her pretensions gathered wealthy admirers galore within the portals of her palatial home at No. 2521 West Sixth street, but she confessed, yesterday, for the first time, the circumstances surrounding her humble parentage and girlhood.

As she sat behind the grim, steel bars nervously twitching her handkerchief, with eyes red from weeping and face drawn and pallid from her jail experience, there was but little trace remaining of the assumed society bearing with which she first greeted the officers of the law, or of the cleverness and charm with which she won many admirers and gained almost unlimited credit among local business concerns.

Her story reads like a novel, showing how a poor girl, the daughter of a miner, unattractive and with but limited education, was able by feminine cleverness and imaginative tales of millions, to rise to the height of social position, and with no other asset than her personality, procure thousands of dollars worth of goods without security.

"I will admit," confessed Mrs. Roberts, "that I am not the daughter of Jesus Alameda, nor of any other man of wealth. My maiden name was Amy Page, and when father died my mother married W. H. Adams of Azusa, where I was born thirty-seven years ago. I was one of three children, and I have two sisters, Allie and Anna, who is now Mrs. Bailey Cook.

"I attended the Azusa school until I was 15, when I met 'Tommy' Roberts, who was 22 years. It was a case of love at first sight, but my parents objected to our marriage because Tommy's mother was a Mexican and his father American. Finally we decided to elope, and when we returned to Azusa Tommy secured a position in a lemon packing-house and we lived happily for a number of years. Then we moved to Mexico, and to Douglas, Ariz., where my husband still resides, and is engaged in mining.

"While I may have done wrong in making out checks when I had no money in the bank, my motive was good, and I was always frank in telling my creditors of my circumstances. My standing, however, was such that they never seemed to question my ability to pay, and I might have gotten thousands of dollars worth more goods on credit and by checks than I actually did.

"If I am acquitted I am going to leave Los Angeles for good. The women here are just lovely, but the men are dishonest and deceitful, always willing to enjoy your company so long as you have social prestige or a full pocketbook, but faithless when one is in trouble."

"A Tower of Strength"

A Favorite Bank —with Women

WOMEN are quick to appreciate exceptional service. That is why so many Women are depositors in this Bank of "courteous service."

Here they enjoy not only the polite attention of all employees, but also the personal attention of the Officers to their banking needs.

...Service in Philippines With Gen. Otis.

...Charles F. de May, scientific ... of fortune, who has fought ...ith in every tropical country ... the sun, whose record as a phy... and a surgeon is written with ... compliments in the official ... records of the United States ... disease differed radically in the two countries. The ultimate effect was the same, almost certain death, but in India the attack was more painful. "I found many cases in the Philippines," he said, "where no pain or very little was suffered. In India it was almost always attended by anguishing cramps.

"Another peculiar thing I noticed in the Philippines was that all persons engaged in work with tobacco were immune. That same thing was afterwards given official notice in Germany during a terrible cholera plague, when it was discovered that all employees of tobacco factories and all who handled the weed to any extent were immune. The tobacco kills the cholera germ."

Dr. De Mey declares that humidity is necessary to the development and virulency of all germs. "I have placed a drop of water on a spot in a room where a cholera patient had been," he stated, "and left it there for a few minutes. Then on examination I have found it full of germs. I repeated that and similar experiments time and again and found the same thing occurred. In fighting the cholera I first cleared out the pools of stagnant water and then destroyed every vestige of grass within fifty or seventy-five yards of the house.

Dr. Charles F. de May.

TEA SOLVES MYSTERY.

"It used to be a mystery why Chinese, and a dirtier lot than Chinese coolies never existed, were seldom attacked by cholera. The reason is simple—they drink tea, and that requires that they boil their water."

Dr. De Mey was formerly sanitary inspector of the Philippine Islands, also was formerly director of the Culion leper colony and at another time was director of the Sleeping Sickness Hospital at Congo, which he founded. He has traveled and studied in every tropic country in the world, and many other countries. He speaks practically all of the languages of the major countries excepting Russian (of which he has a "smattering.") Japanese and Chinese. In line with his botanical studies he has made a specialty of coffee and cotton, and can give detailed information on the needs, profits and qualities of those plants.

As is to be expected, in the course of his wanderings and roamings he has had many adventures of a harrowing nature and a personal encounter or two with savage foemen, but a man who stands six feet and weighs over 200 pounds may well make light of such "trifles," as he calls them.

THE PUBLIC DOMAIN.

Important Ruling Expected Under Homestead Law—Lack of Good Faith Alleged.

Whether an entryman can hold government land under the homestead law, and in defiance of the general policy of the General Land Office compelling such entryman to live on the land and improve it for his own uses instead of making the entry and then advertising it for sale, was threshed out yesterday in the local land office.

William J. Schmidt contested the right of Charles L. Bowden to 120 acres of land in what is known as the Escondido country in the Santa Monica Mountains. The land was originally entered by Bowden and afterward abandoned, but again taken up by R. F. Bowden, son of the original entryman. It is claimed that the original entry was for the benefit of the son, that it had been advertised for sale, and that the land was not of an agricultural character within the meaning of the land laws. A lack of good faith is also set out in the complaint.

WIFE SHOOTS HUSBAND.

Accidental Discharge of Gun While She Hands it to Him Causes Critical Injury.

Accidentally shot by a bullet from a small-caliber gun in the hands of his wife at their home in Clarkdale last night, E. R. Rowe, a carpenter, 57 years old, is in a critical condition at the Receiving Hospital. He was brought in on a Pacific Electric car after neighbors had carried him from his home to Ivy Station.

Rowe asked his wife to hand him his gun, having forgotten that it was loaded. As she stretched forth her hand she touched the trigger and the bullet entered her husband's abdomen.

FIGHT WITH INTRUDER.

Jack Hosick, a night watchman, saw a negro enter a house at No. 1043 Burlington avenue late last night, and suspecting that the intruder was a burglar, followed him. In the house the negro grappled with his pursuer and beat him on the face and head. Throwing Hosick from him the negro escaped from the house through a window. Hosick fired three shots at the fleeting burglar, but was unable to stop him. The matter was reported to the police.

STATE Laws and SECURITY By-Laws

Provide a protection for depositors with the oldest and largest savings bank in Southern California, which is perfect and absolute.

California's laws regulating banks, are among the strictest in the United States. In these laws are defined just what loans a bank may make, and just what form of securities in which it may invest. Operations of a speculative character are reduced to a minimum under the rigid supervision and regular examination by the state banking superintendent.

The SECURITY'S by-laws proceed in the same spirit as that of the state laws—*protection above all else, for the individual depositor!* No loans are made to the officers of the institution—accounts of other banks are not carried—only those rates of interest, consistent with conservative banking, paid!

The management of this "bank supreme in service and size"—practically unchanged for almost a quarter of a century—invests its depositors' moneys in securities of such unquestioned character as the following:

- First Mortgages on Real Estate to the extent of 40 per cent of a conservative appraisement.
- State, County, Municipal, Railroad and Real Estate Bonds of the highest character.
- Loans upon collateral in accordance with the provisions of the State Banking Act.

Over eighty-five thousand individual depositors bear testimony to the fact that the SECURITY provides all that is to be desired in safety and service for the savings depositor. It's the logical bank for you. Savings Accounts in savings banks are by law free and exempt from city, county or state taxes.

4% on Term Savings Accounts; interest credited twice a year. 4%

3% on Special Savings Accounts; interest computed every month on the minimum monthly balance, providing it does not fall below $300. 3%

2% on inactive Checking Accounts in Commercial Department. These accounts are payable on demand. 2%

Sweater Coats
Our assortment of new sweater coats is unusually attractive. Many new styles are shown this season, including late European novelties, imported by the "Ville." From among the newest ideas we mention: Two-toned reversible sweaters, mottled Angora sweaters, bordered Angora sweaters and Norfolk sweaters. Cooler mornings and evenings increase the demand for warm sweaters. Select now while assortments are large.

Special Lot of Brassieres Reduced to 75c
Made of good materials, trimmed with lace and embroidery. At this price you secure a substantial saving on each brassiere.

(Continued from First Page.)

of my knowledge of the circumstances?

"An immediate reply is requested, as I shall refuse to attest any document bearing such signatures and signed in such a manner until I receive your opinion."

And the question still remains: Who is Governor of California, or has the State a helmsman.

Anyway, Atty.-Gen. Webb said, and not humorously, "the State machinery won't be clogged up anyway."

Carl O. Y. Montelius of Stockholm, assistant chief engineer of the Swedish State Railways, is at the Alexandria. He is in America to study railroad systems and power projects and will inspect several of the large power projects in Southern California.

And No Money.

MANY IN WILD DASH AFTER THEIR WAGES.

WITH the apparent disappearance of its president, and the alleged vanishing of hundreds of dollars of the concern's money, the Worth Ladies' Tailoring Company, with offices and shops in the Homer Laughlin and Mason buildings, found itself yesterday facing not only three attachments, but a strike by its employees and a near-riot by its patrons as well.

As a result of President Loftus's absence, and the lack of funds the concern early yesterday morning faced attachments for back rent, cutters' wages and material, and may assign this morning for the benefit of its creditors, to Ernest E. Rogers, attorney for Mr. Laughlin.

When the president's absence became known yesterday morning, there was a sudden rush of employees, both men and women, to whom back wages were due, from their work for the general office of the company, and for two hours pandemonium reigned. In their rush to get their salaries forty women and men fought, threatening even personal violence to the single official who remained in charge. There was no money and they didn't go back to work. The general disorder was heightened by a number of women patrons who had suits in the company's storerooms, and for a time it was impossible to pass either the stairways or hall. The District Attorney's office was communicated with and detectives succeeded in partially quelling the disorder. When it was announced that matters were in the hands of Rogers, another rush was made for the lawyer's office, and it was fully half an hour before the angry crowd could be forced into the street.

The concern, which is the successor of the Bair company, has, it appears, been doing a very extensive business and has prospered until recently. At the present time it has over $7500 worth of unfinished work in its rooms, representing women's apparel of many kinds. The connection of Loftus as president of the concern dates back about a year.

The defendants in the proceedings brought by Attorney Rogers for his clients include G. C. Bair, W. I. Kinleyside, R. W. Michael, Madge Walker, E. W. Sylvester, W. C. Loftus and the Worth company. At the meeting to be held this morning it is expected representatives of the various creditors will arrange to continue to conduct the business until the financial affairs are readjusted.

THE CENTENARY OF LEIPSIC.

Europe has just been celebrating the one-hundredth anniversary of the battle of Leipsic. The spirit of the great little corporal, however, can find solace in the thought that his victories were too many and too varied to receive an individual commemoration. The importance attached to the battle of Leipsic is as fine a compliment as could be paid to Napoleon, the king of fighters and the fighter of kings, the man who faced a world in arms, "the last single captive to millions in war."

MIXED INTENTIONS.

Far from feeling annoyed at the action of our government in admitting Mrs. Pankhurst to our lecture platforms, Premier Asquith, we should imagine, will be praying that a special Providence will keep her there permanently. Or at least till his time in office has expired. The intentions of this strange lady toward the British Premier can hardly be considered kindly. But because the road to hell is paved with good intentions it does not follow that the road to heaven is macadamized with the opposite variety. At any rate Mrs. Pankhurst's intentions have not carried her very far on the heavenly way.

A MEDICO ON SLIT SKIRTS.

A medical army officer is to the front with the statement that women wear too many clothes. Else his remark would be taken for sarcasm, he made an addition thereto, and went far into the realm of hygiene to prove that feminine raiment was injurious to the complexion and deleterious to the digestive organisms.

"Wear split skirts and diaphanous gowns in the winter time," he urged. And since he is Assistant Surgeon-General Rucker, laymen would best not oppose his medical views lest they disclose a storehouse of ignorance. Anthony Comstock alone is competent as a valiant knight of chastity to wage war on things of which he knows little.

There is more in Surgeon-General Rucker's advice. It applies to cold weather climes. To keep from catching cold don't get too warm seems to be the substance of his admonition. In this far western land, where the sunbeams dance gay roundelays from early morn until tucked in their cradle just beyond the horizon, the same sort of "health hints" that are valuable on the storm-swept New England coasts are useless.

"Of course," adds the surgeon, "overcoats and warm outer wraps should also be worn." Wherefore the medicinal effect of a slit skirt or a transparent gown if it is going to be hid by a shroud of beaver fur or mink hide? Are not gaping skirts and peek-a-boo gowns worn to be seen, or rather seen through? First-hand information on that delicate point we have not, but report has brought such tidings to us. Perhaps Surgeon-General Rucker knows more about it than we do—in fact, since he speaks as one having authority, we are sure that such is the case. Therefore his advice shall not be gainsaid; not as long as the slit skirts and wholly visible gowns are worn exclusively in cold climes.

CLASSES IN COMMON SENSE.

An eastern educator has suggested that classes in common sense be included in our school curriculum. This no doubt is a proper aim for all study, but to Pilate's famous question, "What is truth?" we may add the pertinent query, "What is common sense?"

We know that the absence of this desirable quality causes most of the failure and trouble in human lives and that it should be drilled into the young and plastic mind. It cannot be taught, however, like Latin verbs and quadratic equations.

Common sense has been defined as uncommon thinking, and it takes a whole lot of hard experience to teach the average mortal to think. When uncommon thinking becomes a common practice, common sense will cease to be uncommon thinking. Since all school work is designed to train the thinking machine, all school work ought to tend toward developing common sense. Yet sometimes the boy brought up in the street in after life displays more common sense than the scholar with a college diploma. Philosophers are partly to blame for this, because they are apt to look down upon common things. Said Thoreau, "Why level down always to our lowest perceptions and praise that as common sense? The commonest sense is the sense of men asleep which they express by snoring." It is also the sanity of men awake which they express by hard work.

Of course an unusual talent, specially trained, will enable the possessor to level up to his higher perceptions. Only a favored few are blest with these special talents. Any normal mind can learn to practice common sense and by doing so can help this old world along. Schools are not fulfilling their prime objects unless they achieve this much for the untutored intellect.

The trouble is often with the attitude of the scholars themselves, who expect to become distinguished before they have proved themselves normal. To learn self-control is the first step toward obtaining a fair supply of common sense, and this any school discipline ought to be able to develop. If it doesn't, no special classes in common sense will supply the deficiency.

The expected citrus crop, valued at $30,000,000, spells prosperity for Southern California.

AS TO VOTING UNSALABLE BONDS.

With the bond market in the East heavily saturated with unsold issues of municipal bonds—some bearing as high an interest rate as 5 per cent.—with our U. S. government bonds, the strongest security in the world, selling, with but few buyers, as low as 94 cents on the dollar, what possible chance is there of selling city of Los Angeles bonds at 100 cents on the dollar, plus interest—the lowest price at which they can be legally sold?

Before trying to sell another city of Los Angeles bond issue of $5,250,000, or $6,500,000, or $9,000,000, or whatever sum may be proven to the citizens is all that would really be needed for the proposed construction of an utterly unnecessary duplicate power distribution system, would it not be best to sell (if we can) the unsold $3,500,000 harbor bonds and the unsold Franklin Canyon $1,500,000 bonds, which were voted last April as necessities—and glaring necessities they are—and also to ascertain for a certainty whether or not the $1,250,000, or $2,000,000, or $2,500,000 cash (and perhaps more) needed to complete the plant to give the city the ownership of even a kilowatt of generated power, can be raised by the voting, issuance and sale at par of bonds to cover, bearing 4½ per cent. or even 5 per cent. interest?

And if it should be ascertained for a surety that such power-generating plant completion bonds cannot be sold at par, if they can be sold at all bearing less than 5 per cent. interest, then what possible chance would there ever be of selling at par the on-hand harbor bonds and Franklin Canyon bonds—a total of $4,000,000, bearing only 4½ per cent. interest?

Is it not advisable, indeed is it not necessary to defer voting, issuing and offering for sale any more of our city bonds for any purpose whatever, until the on-hand $4,000,000 worth of "necessity" bonds are sold for cash at par and accrued interest?

What real use can the city make of its flood of Owens River water unless the Franklin Canyon $1,500,000 bonds now on hand are sold and the water brought to the city's gates?

What full use can Los Angeles make of its splendid harbor if the harbor bonds now on hand ($2,500,000) are not sold and the cash used for the completion purposes for which those bonds were voted?

Are not both these requirements of vital necessity to our city's further progress, and should they not be exclusively preferential in all our efforts to raise money by selling bonds. Admitting that, and as business men we understand it, why further strain the credit of our city in the bond markets by voting bonds for a duplicate power distribution system, which system the buying bond houses know as well as we do is utterly uncalled for, in view of the several fair offers now open to the city from the three power companies for the use by the city of the power distribution systems now in use by those companies from which satisfactory service, at prices regulated by the city authorities, is now being afforded to our citizens?

Is it not possible, and surely it is possible, for the city to find some way of raising the $1,250,000, or $2,000,000, or even $2,250,000 needed to complete the power generation plant without going to the expense (some $40,000) at this most unpropitious time of voting unsalable bonds to cover?

For illustration, what business man of sense ever thinks of putting more of his notes on the market when those already out cannot be sold? What is true of the business man in seeking credit is equally true of the municipality. Credit is a ticklish thing and once heavily strained, as the credit of Los Angeles will be strained if it attempts to flood the bond market with bonds unnecessarily issued, it remains strained, to the incalculable injury of the man or municipality who strains it.

What a municipality like ours might do with bonds in easy-money times is one thing; but what it can do with them in these days of uncertain financial legislation is decidedly another thing. That we cannot now possibly sell Los Angeles bonds at par for any purpose other than one of vital necessity (admitted by the buyer) is an absolute fact. We cannot get away from that, whether we vote for bond issues of $1,000,000, or $5,000,000, or any other sum. Where can you find a banker today, East or West, or North or South, on this side of the Atlantic or the other, who is loaning money on "permanent investment" account and bonds of municipalities whose debt limit is nearly reached (as is ours) when those bonds are issued for unnecessary purposes, such as the proposed duplicate power distribution system would be?

Coming down to cases, and the present case in particular, the duty today before our city authorities, prior to ordering another expensive bond election, is clear.

First—To sell the $2,500,000 harbor bonds for cash at par and stop trying to peddle some of them out to creditors of the city whose claims ought to be paid in cash.

Second—To sell at par the $1,500,000 Franklin Canyon bonds so as to bring the Owens River water to the city's gates.

Third—To reliably ascertain for taxpayers just how much money is really needed to complete the power generation plant (completion of which was promised by the engineer then and now in charge) for the $3,500,000 power plant bonds originally voted and sold; also to find out and make known to us how it comes about, whose fault it is, what scandal or scandals are behind the present request for $1,250,000 (or $2,000,000, or $2,250,000, as is officially whispered) more money to complete the already-supposed-to-be-completed power plant; also to explain why, when last April we were asked to vote $6,500,000 for "power distribution" alone, the sum of $750,000 for the power plant was concealed in that $6,500,000, leaving really $5,750,000 for "power distribution;" also if $5,750,000 was the right amount then for "power distribution," why only $5,250,000, or $500,000 less, is asked for that purpose now; also to reliably find out from engineers other than those who made these confusing estimates, whether a complete power distribution system for this city would cost $5,250,000, or $6,500,000, or $9,000,000, or $13,000,000 (each sum having been intimated) or what it would really cost; also, and from outside experienced experts, what net power revenue the city could actually count on in competition with the present three well-equipped and well-established and well-managed power companies towards paying what would be the heavy interest on cost requirement of such duplicate plant. It cannot be assumed for one moment that the power companies will "go out of business" for the benefit of a city-owned power distribution system. Continuing, they would compete at equal rates, holding a large proportion of their business by superior service made possible by their steam plant reserves.

MRS. PANKHURST CHILLED.

Incidentally, or coincidentally, the same day that the report was ticked westward telling that Jack Frost had distributed his white calling cards along the northern Atlantic seaboard came also the news that Mrs. Pankhurst was suffering materially, physically and financially from the frigidity of her reception.

She expected huzzas, banzais, hurrahs and bravos. She got an enormous number of vacant seats and much heckling from the lonesome spectators who came to see the latest curiosity from John Bull's island much as they would follow the barker's gestures and enter a side-show tent to see the wild man of Borneo. Mrs. Pankhurst doesn't seem to realize that in American eyes she is neither a martyr nor a stateswoman—but a criminal.

Morbidity, which is curiosity without refinement, has caused some few persons afflicted by the ailment to view her with irrational eyes. But American gentlewomen and gentlemen have neither curiosity nor admiration for the criminal who seeks to destroy the art treasures of England and the property of people who are opposed to the militancy of the suffragettes. In fact, the rank and file of American citizens are prone to believe that the English statesmen are doing the wise and just thing in shielding the ballot from clamorous women whose every act and utterance presents uncontrovertible arguments to show that they lack the judgment essential to wisely use the prerogative of the ballot.

Mrs. Pankhurst does not seem to know that the American public is more in sympathy with the modest, refined and educated women of England, who, while also working for the enfranchisement of their sex, have repudiated her and her followers. This is essentially a country of law and order, and while the indiscretions of our immigration authorities may cause our citizens to tolerate foreign criminals, even their encouragement cannot make our citizens welcome such criminals.

GOVERNMENT BY DYNAMITE.

One hundred years ago in England membership in a trade union was a felony. At last advices Mr. Gompers had not ceased his efforts to procure the passage by Congress of an act licensing members of trade unions to commit felonies by forbidding the issuing of injunctions against them.

The tendency of legislation of late years has been to recognize and protect interests and rights of labor. The right to organize, the right by collective bargaining to secure fair wages, eight-hour laws, employers' liability laws, minimum-wage laws and other beneficial statutes have been enacted in the interests of labor.

Union-labor leaders, not satisfied with these concessions, claimed the right to dynamite and destroy the property of employers and set at naught all the laws of the state and society.

The Indianapolis trial disclosed a list of more than a hundred buildings and bridges blown up "for the good of the Ironworkers' Union" and others planned—such as the destruction of the Panama Canal locks and the wrecking of a sleeping car with dynamite to kill a young woman stenographer because she knew the guilty secrets of the union.

"What," says the Pacific Coast Mechanic, "was the purpose of these men or the Ironworkers' Union? To set up such a reign of terror that no employer would dare hire a non-union man, and no non-union man would dare apply for a job. The Ironworkers' Union was to be made supreme. Its absolute monopoly of employment upon structural iron work was to be established and maintained. Human beings were blown into eternity and hundreds of thousands of dollars' worth of property destroyed to restrain non-union trade."

In despite of the facts brought out at the Indianapolis trial Gompers—himself under conviction and at liberty on bail—demands, in the name of the American Federation of Labor, "that Congress shall amend the anti-trust act to exempt labor unions from prosecution for the oppressive measures by which they seek to restrain trade. He demands that our courts of equity shall be forbidden to issue injunctions restraining the unions when they threaten acts of violence and destruction."

The complacent attitude of union labor toward the blood-guiltiness of the dynamiting members of the Ironworkers' Union is a graver and more disturbing symptom, says the Pacific Coast Mechanic, than the crimes themselves. In the argument of Mr. Gompers for the anti-injunction bills, before the Senate committee, there was not a word of condemnation of the crimes of the convicted dynamiters; he deprecated, indeed, government by dynamite, but insisted that, should it come, it would be the direct result of government by injunction. He was bitter in his denunciation not of the criminals now in Leavenworth prison, but of society, upon which they had made war.

The Times is sure that the mass of the membership of union labor leagues in this nation is not in sympathy with the crimes of the dynamiters. The workers are robbed by the Harrimans and Darrows, misled by the Tveitmoes and McCarthys, and both misled and robbed by Gompers. But they are not so lost in depravity and barbarism as to "seek to establish union supremacy upon the graves of men who were the support of women and children now left destitute, upon the ruins of costly structures they have destroyed, or upon the bankruptcy of business houses they have assailed with their boycotts."

UNCLE WALT.

The Poet Philosopher.

The poorhouse, naked, grim and bare,
stands in a valley low; and most of us are headed there as fast as we can go. The paupers sit behind the gate, a solemn thing to see, and there all patiently they wait, and wait for you and me. We come, we come, O sad-eyed wrecks, we're coming with a will! We're all in debt up to our necks, and going deeper still! We're buying things we can't afford, and mock the old-time way of salting down a little hoard against the rainy day! No more afoot the poor man roams; in gorgeous car he scoots; we've mortgages upon our homes, our furniture, our boots. We've banished all the ancient cares, we paint the country red, we live like drunken millionaires, and never look ahead. The paupers, on the poorhouse lawn, are waiting in a group; they know we'll all be there anon, to share their cabbage soup; they see us in our costly garb, and say: "Their course is brief; we see the harbingers that harb of bankruptcy and grief." Be patient, paupers, for a span, ye friendless men and dames! We're coming, blithely as we can, to join you in your games!

WALT MASON.

[Copyright, 1918, by George Matthew Adams.]

POINTED PARAGRAPHS.

[Chicago News:] The most expensive coloring is nose paint.

Getting a husband is an art, but keeping him is a science.

He who is afraid to toe the mark is apt to remain at the foot.

The man who is looking for trouble can always find it at home.

Some men try to take advantage of other people's opportunities.

Some men are dumb because their wives never give them a chance.

No man who is a poor provider should expect his wife to be a good cook.

Do you remember how your plans went up in smoke when you started out to set the world on fire?

Most girls would rather pound a piano in the parlor than pound a beefsteak in the kitchen.

The woman who sings to her husband evenings in order to keep him at home—well, she's the limit.

It's easy for a bride to imagine her husband is a saint—until she gets acquainted with some of his fool friends.

Supply and Demand.

[Louisville Courier-Journal:] "One letter," murmured the disappointed man. "I advertised for a cook."

"Four hundred letters," exclaimed the chap who had two porters with him. "I advertised for an actress."

THE MAGPIE.

A Fairy Tale.

Where the slanting sunbeams lingered
On a warm and fragrant hillside,
Sat a boy and girl together,
Happy in their young abandon,
Playing through the summer sunshine;
Till her blue eyes veiled their brightness,
Till her head, a little weary,
Pillowed in its golden tresses,
Sank to rest upon his shoulder.
Long he held her, scarcely breathing,
Lest the movement should disturb her;
All the patience of a mother,
All the rapture of a lover,
Mingled in his knight's devotion.
As the sun still slanted westward,
Something stirred. The boy turned quickly;
Laid his pretty sleeping burden
Gently down among the grasses.
Then from out a tattered thorn tree
Flew a parti-colored magpie,
Black and white against the sunset.
Down the purple glowing hillside
Followed he the bird ill-omened,
Till it settled in a thicket,
Darkly cleft between the mountains.
Still as one half glad, half frightened,
Prest he through the thorns and brambles,
Edging past the heavier timber,
To the center of the thicket,
Where a pool of sluggish water
Stayed at last his curious footsteps.
Near that dark pool grew a willow,
Sprawling o'er its stagnant surface;
And one low bent limb held swinging
In the crutch an elfish creature,
Wild and wicked was the challenge
Of her velvet eyes; her black hair
Fell in clouds o'er her white body.
One bare foot just splashed the water
With a pendulum's slow motion.
Leaning through the reeds, the boy just
Touched the swinging foot; the witch girl
Smiled, bent down, reached out and drew
him
To the crooked limb beside her.
Then across the purple hillside
Rang a cry of desolation,
Like the wailing heard in jewry
At the slaughter of the first-born.
And as that low note of anguish
Reached the boy, he turned in horror
From the passionate embraces
Of the elf, and through the branches
Saw revealed the clean, sweet hillside,
Saw his golden-haired companion
Kneeling in the tender twilight,
With her hands up-stretched to heaven.
Saw—too late; for as he roughly
Flung aside the arms that held him,
Down he slipped into the water,
Slipped and sank. A few round bubbles
Gurgled from the muddy basin.
Night; and on that glassy surface
Shone the moon. As in a mirror,
From the willow tree a magpie
Watched its black and white reflection.

HARRY BOWLING.

HOW CALIFORNIA WOMEN USE THE SUFFRAGE.

Figures showing how California women are using the franchise have just been made public at the national suffrage headquarters in New York. They were gathered from fifty-eight County Clerks by the College Equal Suffrage League of Northern California, which is devoting itself to civic centers and classes for women voters.

The figures show that in seven counties between 80 and 90 per cent. of the women eligible to vote, registered. In eleven counties the percentage was between 70 and 80, in six counties between 60 and 70, in two counties between 40 and 50, and in the other counties heard from the percentage was from 20 to 40. Five counties show a larger percentage of women registered than of men registered. In two counties more than 90 per cent. of the women who registered voted. In one country the voting percentage was 80; in seven counties it was 70; in eight, 60; in thirteen, 50, and in the others from which figures were obtained it was from 20 per cent. up, says the Sun of New York.

The largest woman's vote in the cities of California was cast in precincts where prosperous business and professional people live; the smallest in the fashionable districts on the one hand and the redlight districts on the other.

In Butte county, a prosperous mining and agricultural community, more women than men are registered.

A San Francisco paper that has not favored woman suffrage is quoted as saying that the registration of women is increasing faster than that of men. It is said at the New York headquarters that between one-third and one-half of the total voting registration of California is that of women.

ICEBERGS.

[Neudecker in Nashville Tennessean:] An iceberg is a mass of frozen resistance that is sure to wreck the wholesomeness of some staunch vessel, should said ship try to buck its line or charge its backfield. It must be handled with eyes alone, and woe be unto him who tries to steer its course in different channels from those which it has picked out to navigate.

Icebergs are not built to order, nor are they ordered to be built. But they have a loathsome habit of sticking themselves in where they are not wanted. Their appearance usually results in a disastrous event, and the maritime world has learned to cheerfully excuse them when they butt into its seacoast towns and upset the firehall, the lighthouse and other public buildings. Icebergs are devoid of apologetic manners altogether, and have no tendency to atone for their wrong-doings. The only race on earth who benefit by these mammoth intruders are the associated ice companies and the undertakers.

There are two kinds of icebergs. One kind is described as being a gigantic, colossal and impressively altitudinous mass of frozen Neptune booze. The other is to be found in cups intended for iced tea in the average boarding-house. The latter is much more distasteful to the land dweller, who has no fears of the kind that roam unharnessed over the deep.

If a few of our belated landladies were to take a trip to Cape Town on a frigid block of ice, they would have more respect for their boarders' feelings when they returned, and no longer seek to supplant the drink by its ally.

Moral: Being broke is only an excuse for a night off.

QUAKER MEDITATIONS.

[Philadelphia Record:] Dame Rumor is the mother of Misfortune.

Some people are almost as proud of their ancestors as others are of their children.

The one man in the world who is never ashamed of his job is the self-made man.

Never tell a woman that all the world's a stage. She might want you to be her angel.

Some people are so anxious to get something for nothing that they would even take cheap notoriety.

When you don't need any help it is wonderful how many people are eager to come to your assistance.

The man who is always eager to call attention to his own honesty must act as his own press agent.

Note of Warning.

POLITICS BUTTING INTO CURRENCY LEGISLATION.

Banker of Bankers' Association Commission Grills Proposed Bill as Too Loosely Prepared and Insufficient for Public Safety—Advises Against Federal Purchase of State and Municipal Bonds.

PROPOSED currency legislation was looked with an expert eyes last night when John Perry Member of the Currency Commission of the American Bankers' Association appeared before the Los Angeles Bankers' Association in the banquet room of the Alexandria Hotel.

"The number of Federal reserve banks should be fixed at twelve," he said. "To this organization, and to give to each greater strength and greater efficiency, the number should be reduced. The smaller the number the more efficient the system would be.

"Correspondingly, it is less necessary to exercise compulsion over the Federal reserve board. Each reserve bank cannot be given a member should not be more than five or four.

"In order to avoid credit disturbances in putting the proposed Federal reserve banking system under operation required payments of capital and deposits be extended over a longer period than is specified in the bill.

"Federal reserve banks should be allowed to evolve slowly with full opportunity for careful study of every movement, that each step be wise and that it give a more progressive movement than a spasmodic—whether five per cent, as provided in the bill, or six per cent, as urged—should not be directly or indirectly greater.

"Purely political in specification of the four other than ex-officio members of the board, not more than two shall be of one political party.

"The proposition is better that the Secretary of the Treasury be the only ex-officio member and that the President of the United States appoint six members, the term of one expiring every two years. In this way no President of four years would have occasion to appoint a majority of the board. This would insure government and not politics.

"Bankers feel that it would be not only inequitable, but make for higher efficiency of the administration if they are permitted to elect some members of the board. Members elected by the banks would not be representatives of the banks but they would have become government officers. However, they would carry to the discharge of their duties their skill and experience.

"Federal reserve banks should not be authorized to buy State, county, district or municipal bonds. The only sound investments for them are short time commercial loans representing commodities going into consumption.

"These are of speedy maturity and repayment. Such loans will constantly replenish the reserve. A long time security based on taxing power, however safe for investment, has no place in the assets of the Federal reserve banks.

"Open-market operations provided for are with the purpose of preventing a combination of banks to hold up rates. Fear of such a combination has no justification in my experience. Competition between banks is keen and may be relied on to keep rates at their lowest.

"The purpose of a central bank or Federal reserve bank system, is to provide brakes for checking business from overexpansion. It would be far more to the point to provide a means to enable Federal reserve banks to influence and advance the lending rates of individual banks.

"Apportionment of government deposits among Federal reserve banks with power to shift from one to the other offers the possibility of arbitrary disturbance of credit in any district. This would be avoided if there were but a single reserve bank.

"The method provided for the redemption of proposed bank notes is cumbersome and inefficient.

"It is proposed to compel the dissolution of all national banks within twelve months as a penalty for not joining the system. This carries grave hazard of disturbance if it is enacted and not enough banks join."

OFFICIALLY APPROVED.

Venice Boosters Say New-fangled Dance Is All Right so Long as It Is All Right.

VENICE, Oct. 23.—Public and private exhibitions in the tango and the new style of dancing was today given official sanction of the city of Venice. Proprietors of the taxpayers in cafes, halls and private homes will remain unmolested so long as none violate the laws of the municipality governing the matter.

This action was taken last week at an investigation of the matter carried on by City Trustees Chief of Police Lingo regarding complaints of managers of cafes, dance halls and apartment-houses against their guests to dance in the tango fashion, sometimes until early morning hours. Now Chief Lingo and Trustee Ross have issued a manifesto that these dances are all right.

"I can see no difference between the tango and the waltz," said Chief Lingo, "as long as the proprieties are observed. It is my opinion that these dances supplant the old in a manner and even the most modest will be indulging. The dancers will not be allowed to rag in a place where tea is sold."

Cafes and "coffee parlors" may stay up in the apartment-houses between Venice and Ocean Park. These places are intended for "lunching" to their guests. Here the near-belles of beach society may meet between cups of tea, or may retire to another room with partners and rag to their heart's content, to the music of a piano. And this, too, will be by the city of Venice.

CRIME BRIEFS.

Chief Paul Shoup, Traffic Manager Pierce and other officials of the Electric met City Trustees Ross, McCarver, Lorenz and Engineer Crawford and Recorder Rennie this afternoon, and after a thorough investigation of conditions in and around the Short Line agreed to help the city open and improve Mildred avenue from Trolleyway to Center street, and Sorena avenue from Elena to Second street. The first improvement will give another outlet from St. Mark's boulevard to Trolleyway, and the second will relieve the congestion on Speedway somewhat.

OPIUM SEIZED.

SAN DIEGO, Oct. 23.—(By A. P. Day Wire.) Ramon Ruiz, a Mexican, and fifteen tins of opium, were seized at La Mesa, late yesterday, by Deputy Customs Collector D. S. Packard who trailed Ruiz from Campo, fifty miles southeast of San Diego. Ruiz was lodged in the County Jail this morning. The opium was concealed in a bale of hay. Ruiz has been charged with smuggling.

Fashion Says: "Soft Shirts with Dress Suits"

Full dress shirts have broken away from the starched stateliness of former days, and the severely plain linen bosoms of spread eagle proportions. Pleats and tucks have supplanted Quaker-like plainness; so have cords and pique effects, and we have soft fronts rather than stiff bosoms. For those who want stiff bosoms we have new fancy Pique effects.

—See our "Shirt of a Thousand Pleats" for an example; a beautiful full dress shirt, priced only $3. Piques at $2.50, Silk pleats $7.50.

—And see our full dress vests, at $3.50 to $7.50, in all styles, white, gray or black striped.

Our Full-Dress Suits Are by Stein-Bloch

—Signed inside the collar as an artist signs a picture, and for just as good a reason.

Dress suits at $50. Others at $40.

Tuxedos, $47.50. Others at $37.50.

Overcoats

This is the season to buy them—before the stock has been picked over much.

A great big beautiful assortment, at $15 up to $50. Some imported; others native.

Patent-leather button boots, cloth top and plain toe, for evening wear, at $7.50. Pumps, $3.50 to $5.00.

In "Herald" Suits.

ORDER TO SHOW CAUSE DIRECTED TO EARL.

THE first round in the suit of the Evening Herald Publishing Company against E. T. Earl and the Express and Tribune, charged with circulating fake photographs intended to cast reflection on the Herald, for which $152,500 damages is asked, and in a second action with inducing advertising men in the employ of the Herald to enter the employ of Earl that he might obtain private information from them, will be fought in Judge York's court at 10 o'clock tomorrow morning. Attorneys Denis and Lawler appeared before Presiding Judge McCormick in chambers yesterday afternoon and obtained an order to show cause why Earl should not be restrained from circulating the fake photographs and coaxing the Herald's advertising men to his sunrise and twilight organs.

It was stated yesterday by the Herald attorneys that the two suits will be combined and heard as one issue, the object being the same, namely, honest newspaper methods. Earl is sued individually and also as the owner of the Express and Tribune. J. Clem Arnold, general manager of both sheets, is made a defendant in the damage suit, and in the second suit, where an injunction is asked, George W. Schooley, under contract with the Herald, and the advertising men under him, are made party defendants with Earl, the Express and the Tribune.

Not Stickout.

HIGHWAYMEN MEAN BUSINESS.

OCEAN-TO-OCEAN PROMOTERS TO TALK IT OVER.

Third Annual Meeting to Be Held Today at Chamber of Commerce. Accounting of Development to Be Made to Directors—Luncheon and Auto Trips Planned.

The Ocean-to-Ocean Highway Association will open its third annual meeting at 10 o'clock today in the directors' room of the Chamber of Commerce. Representatives from the cities of four States, traversed by the highway, will be on hand to attend and give an account of the development that has been going on during the past year. President George W. Wilder will be in charge.

Col. D. B. K. Sellers is here from Albuquerque; Fred W. Jackson, president of the First National Bank of San Diego and one of the good roads enthusiasts of the southern portion of the State, has arrived; L. V. Root, at the head of the Colton to Needles good road movement, is expected this morning and William G. Scott, president of the Lyne County Good Roads Association, is already on hand. They are all scheduled to speak and among the local men who will do some of the talking are Fred L. Baker, president of the Southern California Automobile Club, and John S. Mitchell, first president of the Ocean-to-Ocean Highway.

After the morning session, a luncheon will be tendered the delegates at one of the clubs and the meeting will be resumed at 1:30. At 2:30 local automobile men will take the visitors on a short tour of the good roads about Los Angeles. At the present time not a sufficient number of automobiles have been promised to care for the visitors and President Wilder has made a request for those who have time and are interested with good roads movement to donate their cars for only a two or three-hour run, with stops at the beaches to be visited.

Tomorrow morning will conclude the programme by the election of new officers and other official business.

A Mystery Cleared Up.

[Pittsburgh Chronicle-Telegraph:] She walked in and banged a hunk of yellow substance on the counter. "This," she announced sarcastically, "is the soap that does the washin' itself. It's the soap that makes washin' a pleasure; it's the soap that——"

"That ain't soap, ma'am," interrupted the grocer, as he took the substance in hand and examined it. "Your little girl was here yesterday for half a pound of cheese and half a pound of soap. That's the cheese."

"The cheese!" exclaimed the woman. "Then that accounts for the other thing."

"What other thing?"

"Why, I lay awake the whole night wondering what made the Welsh rabbit we had taste so queer."

To the woman who is worrying along with a store-purchased adjustable form that she cannot make represent her figure except in measurement of bust, a "NATURE FORM" will be a pleasing revelation—"NATURE FORMS" are exact reproductions of the person's own figure for whom they are made, not necessary to continually try on yourself as no doubt you are doing now.

NATURE FORM CO., 317 South Hill Street.

In the Act.

"FIXING" ONE BLACKMAILER.

Trap Set for an Impostor Snaps Him Up.

Slick Crook Poses as a "Times" Employee.

Purports to "Handle" Three Morning Papers.

Thomas L. Cahill, a blackmailer and impostor, 25 years old, well groomed and prepossessing in appearance, who says his home is in San Francisco, was arrested last night and is in the City Jail on a charge of extortion.

Caught in the act, with marked bills in his pocket, the young man quickly lost all the bravado and self-assurance which marked his acts since coming to this city. The arrest was dramatic. Wary and cautious as he had been, providing as he thought against every possible contingency, he walked into a cleverly-set trap and was snared before his suspicions were aroused.

Cahill—he refuses to say whether or not that is his real name—planned well, but his plans miscarried. Detected and captured at the very moment he was about to realize on his efforts, he pleaded for his release and assured the detectives that it was the first time he had strayed from the path of rectitude.

The young crook was taken into custody in a rooming-house at No. 401½ South San Pedro street, where detectives had been stationed in anticipation of his visit. He accepted $10 from Mrs. H. Russell, the proprietress of the rooming-house as the first payment of $100 which he had demanded. Turning from the room immediately after getting the money, he was pounced upon by the waiting officers. He could not deny his guilt.

POSES AS "FIXER."

Representing himself to be J. J. Richardson, a special representative of The Times, and the "official fixer" for the three morning newspapers, the young man went to Mrs. Russell on Wednesday and demanded money under a threat of exposure. The newspapers, so he said, were in possession of facts which would, if made public, result in the house being raided and Mrs. Russell arrested. One hundred dollars was the price demanded for suppression of the "story." Unless this amount was forthcoming, so he said, the facts would be published in the newspapers, at the end of the present week.

Mrs. Russell, who conducts a place about the respectability of which there can be no question, was nevertheless frightened. She told the scoundrel she did not have the money at the time, but suggested that he come back the following day, Wednesday night she called The Times and stated the facts. Cahill had represented himself as being J. J. Richardson. Leo Altman, under whose supervision J. A. Richardson works for The Times, went to see the woman and gave her marked money to hand to the pseudo Richardson yesterday.

WITH THE GOODS.

Detectives Browning and Bowe were detailed on the case and together with Altman were hidden in adjoining rooms, when the young man arrived. He had arranged to ring the door bell twice as a signal to Mrs. Russell. Up to that point his plans worked well and he was admitted. In the room with Mrs. Russell, he was informed that she could pay him only $10 then, and the additional $90 the following morning. To this he agreed and accepted two $5 bills, previously marked. Prior to this transaction, however, he had carefully searched the room, and admonished Mrs. Russell not to have anyone about this morning, when he was to show up again. Then he was taken.

The police do not believe the prisoner's story that this is his first offense. He showed too much familiarity, they say, with details of the extortion game. The same thing has been worked in San Francisco and other cities.

Cahill met J. A. Richardson of The Times in a hotel several days ago and the latter handed him one of his cards. Cahill immediately had a poor imitation printed, changing the middle initial from "A" to "J."

EAGLE ROCK.

EAGLE ROCK, Oct. 2.—A largely attended and enthusiastic meeting of the business men of Eagle Rock was held in the State Bank to consider several matters of importance. It was unanimously decided to organize a Chamber of Commerce and Fred E. Biles, cashier of the State Bank, was chosen temporary chairman and W. L. Miller of the Sentinel as secretary. A committee on permanent organization was appointed to report on Thursday evening, October 30. A large number signed the membership roll and it is planned to get seventy-five names. A committee of three—Col. J. W. Eddy, C. I. Ritchey and W. L. Miller—were appointed to extend an invitation to President John Willis Baer to address the chamber at a banquet to be given soon. This is a preliminary to the citizens assisting in the dedicatory services of the new Occidental College buildings in this city in December. Godfrey Edwards, Col. J. W. Eddy and F. S. Hannaford were appointed a committee to arrange for this city's participation in the celebration of the Arroyo Seco bridge which is scheduled to take place on Thanksgiving Day.

Reds Want Schoolhouse.

GARDEN GROVE, Oct. 23.—The local Socialists are having "hard sledding" in their attempt to get the use of the public school building for their regular meetings. Last night they went in a goodly number to hold their meeting, full of joy because they had compelled the Trustees to admit them under the new law. But alas, they found the door locked, and the janitor had disappeared. They held a protest meeting on the front porch and it is said that the atmosphere grew warm under the flow of eloquence. But a committee was appointed to procure proper legal advice and it is understood that they will push the matter into the courts if necessary. They claim that under the new law establishing a civic center in every schoolhouse they have a full right to a free use of the building.

They're busy in a good cause.

At the left is Rev. Baker P. Lee selling tickets for the ten-million-dollar band concert, and with him, left to right, the other contestants for the loving cup—Charles Henderson, Henry Krohn and Capt. Murray.

Cup's the Prize.

HEAVY GUNS OPEN IN SHRINE BAND CONTEST

DR. BROUGHER of the Temple Baptist Church will preach on the Shriners' publicity movement next Sunday.

"The California Shriners are doing a much bigger thing than people have stopped to think out," he said last night. "They are doing and reflecting a mighty progressive idea. There is a lesson to observe in their endeavors.

"Here are wealthy, powerful men of comfort and influence, who, many of them, have retired from the activities of life, and are giving time, energy and money to causes and submerging their own working only as Californians for California and her future."

The four committees, Dr. Brougher, Murray, Rev. Baker P. Lee, Henry Krohn and Charles Henderson, actively engaged in efforts to secure the loving cup presented to the band that sells the largest number of tickets for the Shriners' four concerts for the $10,000,000 band, and noted musical stars, which will be given in the Auditorium Friday and Saturday next week.

Mrs. Baker P. Lee, who has been ten a California song writer, will be introduced to California at one of the concerts by Miss E. Alma, dramatic soprano, who has signed a contract with the Grand Opera of Madrid for the coming season, is assisting her husband materially in the contest.

Yesterday, Rev. Mr. Lee was outclassed in the number of tickets sold because Henderson turned in he did and sold 400 tickets at Jonathan Club dinner. Yesterday the contest was formally declared closed.

Capt. Murray, who was appointed Wednesday evening, is under the management of W. H. Barnes and P. Jeffries, who are the managers that are mystifying the other candidates' managers.

BACKSLIDES TO BOOZE.

Charles W. Mason, [illegible] arrested Wednesday on a charge of having a quantity of [illegible] in his possession, who asserted he was a minister of the gospel, was found guilty yesterday in Judge Wilbur's court, and was sentenced to serve 100 days at the Detention Farm.

Single-handed.

CAPTURES "BAD MAN," THEN HE IS MOBBED.

S. A. GROSSI, Dalmatian journalist and exponent of the Sokol, a Slav educational society, was instrumental last night in the capture of Ilija Soldo, "the bad man of Dog Town," who is suspected of murder in connection with the recent shooting of Charles Rezzo. Walking into a saloon where Rezzo was boasting of his prowess, Grossi deliberately picked a quarrel with the bully and after luring him in this way to the street, arrested him and took him to a police box.

With the arrival of the patrol wagon and the knowledge that a countryman had betrayed and brought about the arrest of one of their number, the angry Slavs crowded about the wagon muttering and vowing vengeance against Grossi. The police were forced to drive the excited men back and thought it best that Grossi be taken to Central Police Station for his own protection.

Several of the Slavs followed the patrol wagon to the station and stood about outside waiting for Grossi. Fearing to return again to the settlement, Grossi stayed two hours at the station and was then spirited out and will leave for San Jose today. He recently came here from San Francisco, where he has been organizing branch societies. It was by chance that he overheard a few nights ago a conversation between Soldo and another man which led him to believe that the former was the man wanted by the police.

Getting the necessary information from Detectives Browning and Bowe, who had been assigned to the case, Grossi proceeded to get his man. Rezzo was killed in a riot the 5th inst., during a fusillade wherein four other men were injured. Soldo is held on suspicion.

At the Expositions.

KANSAS COMMISSIONERS HERE TO PICK SITES.

THE four members of the Kansas Exposition Commission, each decorated with an emblematic sunflower, who are in California to select sites for State exhibits at the 1915 expositions in San Francisco and San Diego, arrived yesterday afternoon. The delegation is composed of Walter Innes, a dry goods merchant of Wichita and a former resident of Los Angeles; Attorney Henry E. Dean of Kansas City, Albert T. Reid, a newspaper publisher of Topeka, and W. F. Benson, a banker of El Dorado.

The visitors were received at the La Grande station by a committee from the Chamber of Commerce, a committee from the Kansas State Society and by Mr. and Mrs. Daniel Innes, parents of Commissioner Innes.

After a trip over the city in a motor car, the commissioners were guests of honor at a dinner at the Lankershim, given by Mr. and Mrs. Innes and their son, William A. Innes, and Sherman Pease, chairman of the Kansas Society Reception Committee.

The commissioners will go to San Diego this morning for a stay of two days and then proceed to San Francisco. The Kansas Legislature has made an appropriation for a comprehensive display at both expositions.

Reid is president of the Farmer Publishing Company of Topeka and of the Kansas Weekly Post Company. Dean has a unique self-made type of newspaper career. A studied law at night school, and when he was admitted to the bar his prominence quickly led to his appointment as special commissioner of insurance of Kan., which has a commission form of government, and has held other important political offices.

Innes, who is a graduate of the High School, went to Kansas many years ago to engage in business. His father came to this city a few years ago to spend the remainder of his days. Innes has resided here twenty-five years.

"We have plenty of resources in Kansas for any number of exhibits," Dean said yesterday. "The commissioners decided to avail themselves of the opportunities offered by both of the expositions in California and will be represented at each. It is the purpose to make the Kansas exhibits equals of any of the State exhibits at the expositions."

Migel-Quality Silks

KISMET TARTAN

Fashion's most favored silk fabric this season. Unique in weave—rough in appearance, light in weight, charming in color.

There's a Migel-Quality Silk for every occasion. Accept no less.

INDESTRUCTIBLE VOILE—Looks like cobweb—wears like broadcloth. The strongest sheer silk ever made. We dare guarantee it to outwear the lining.

TANGO CREPE—for the new frocks "la Dance." A new clinging silk fabric of Chinese construction.

PUSSY WILLOW CHIFFON CREPE—Broche and plain to match—a fabric of peach-skin finish in all the new nature colors.

EGYPTIAN CREPE—Has that Eastern richness and splendor so much sought in silks.

MIGEL-QUALITY SILKS THE NEW SILKS FIRST

M. C. MIGEL & COMPANY New York City

Kansas Exposition Commission.

Which arrived yesterday. The sons of the Sunflower State are in California to select sites at the expositions in San Francisco and San Diego. Reading from left to right, the commissioners are Albert T. Reid, newspaper publisher from Topeka; W. F. Benson, banker of El Dorado; Attorney Henry Dean of Kansas City and Walter Innes, a dry goods merchant of Wichita and formerly a resident of Los Angeles.

Portola.

FELLOWS II IS BEACHED.

Local Motorboat Hits Log and Nearly Sinks.

British Columbia Team Wins Soccer Title.

Vardon and Ray Easily Win Golf Matches.

[BY A. P. NIGHT WIRE TO THE TIMES.]

SAN FRANCISCO, Oct. 23.—[By A. P. Night Wire.] Motor racing craft of all sizes and descriptions participated in the Portola races on San Francisco Bay today. The only accident was the sinking of the motor boat Fellows II, owned by Joseph Fellows of Los Angeles. The little vessel collided with a floating log and had a gaping hole torn in its side. It was beached to prevent sinking.

P. J. Herold's speedy Scamp, carrying the pennant of the Sacramento Boat Club, won first honors in the restricted division of the power boat championship, and the Fellows II finished second. The course was over a distance of ten miles.

Other results:

Free-for-all—Won by Sutter Basin, owned by Nunes Brothers, Sacramento Boat Club; second, Fellows II. Three heats.

Cruiser race—Rob Roy of Oakland, won; the Lillian of San Francisco, second.

E. Stauf, owner of the Moana, protested awarding the handicap cruiser race to the Rob Roy because of the handicap. His protest was taken under advisement.

Englishmen Win.

SAN FRANCISCO, Oct. 23.—[By A. P. Night Wire.] Harry Vardon and Edward Ray, the English professionals, playing in the Portola golf tournament, easily defeated their opponents in two 18-hole matches over the San Francisco Golf and Country Club course today.

Playing in the morning, Ray and Vardon defeated the best ball of Frank Garby, Charles Maud and Fred Reilly, the latter the club professional, 4 up, 3 to play. The best ball of the Englishmen was 64, par of the course being 69. Vardon's individual score was 68.

In the afternoon Vardon and Ray beat the best ball of Garby, Robin Hayne and Charpin Tubbs, the latter formerly captain of the Yale team, 7 up, 5 to play. Ray and Vardon's best ball was 61. Ray's individual score was 66 and Vardon's, 70.

Joe Fellows Third.

SAN FRANCISCO, Oct. 23.—[By A. P. Night Wire.] The speed boat Sutter Basin, of the Sacramento Boat Club, finished first today, and the Scamp, of the same club, second, in the free-for-all Portola race here today. The Fellows II of Los Angeles was third. The winner's time for the ten-mile course was 23m. 35s.

Soccer Match.

SAN FRANCISCO, Oct. 23.—[By A. P. Night Wire.] The British Columbia soccer football team, which came here to play at the Portola Festival, defeated an all-California team at Golden Gate Park Stadium this afternoon by 3 to 1. The California team was made up of players from the Thistle, Barbarian, Vampire, Pastime and San Francisco clubs.

The Boxing.

SAN FRANCISCO BUREAU OF THE TIMES, Oct. 23.—[Exclusive Dispatch.] The Portola boxing championship bouts tonight resulted as follows:

John Morreito, Olympic Club, beat Sam Epstein, United Railroads Club, three-round decision, 125 pounds.

Willie Jensen, Olympic Club, beat Frank Finnen, Olympic Club, four-round decision, 125 pounds.

Fred Illing, Olympic Club, beat Ray Marschina, Olympic Club, three-round decision, 135 pounds.

Jack Truscott, Olympic Club, beat George Meyer, Oceanic Club, three-round decision, 145 pounds.

Phil Noonan, Olympic Club, beat W. Borjornea, Olympic Club, stopped by referee in third round, 135 pounds.

H. Ostrand, United Railroads Club, beat W. O'Connor, Olympic Club, sponge in second round, 155 pounds.

Frank Malena, Olympic Club, beat Walter Williams, Multnomah Amateur Athletic Club, Portland, three-round decision, 130 pounds.

Ray Branch, Los Angeles Athletic Club, beat Chris Macrea of Olympic Club, three-round decision, 175 pounds.

The last go of the evening's entertainment of amateur boxing held in Dreamland rink here tonight by the Portola Athletic Committee was won by Ray Branch of the Los Angeles Athletic Club over Chris Macrea of the Olympic Club by a three-round decision. The bout was a fast one for 175 pounders, featured by the wrestling tactics which bothered the southerner, who failed to get started until the final round and then all but sent the Olympian to the floor. Macrea finished the bout with a badly closed eye, which Branch started in the first round.

KID CARTER BOXES EAST.

Kid Carter, the Mexican welterweight, is due to leave Los Angeles, en route to New Orleans to join his manager, Joe Levy, and stable mate, Joe Rivers, who boxes Frankie Russell there Tuesday night. Carter expects to box some top-notch boy in his class in the Crescent City, as Manager Levy sent him the transportation to come on.

PHILLIES BUY ONE.

PHILADELPHIA, Oct. 23.—[By A. P. Night Wire.] The Philadelphia National League club today purchased Pitcher Elmer Jacobs from the Burlington (Iowa) club of the Central Association League.

A pair of superb two-year-olds.

"Virginia Barnette" (above,) the magnificent filly owned by E. T. Barnette, with W. G. Durfee, up; (below,) "Bon Courage," the youthful trotter, owned by W. A. Clark, Jr., with Ted Hayes, up. They will clash in the Canfield-Clark race of the November meet at Exposition Park.

Two-Year-Old.

VIRGINIA BARNETTE STEPS A VERY FAST HALF-MILE.

YESTERDAY when the beautiful 2-year-old filly Virginia Barnette, owned by E. T. Barnette, stepped a half-mile in 1.03¼ at Exposition Park and was not extended, its owner determined finally to start the horse next year in the 2-year-old division of the Kentucky Futurity, the one great American classic.

The time caught yesterday for this wonderful horse is equal to the present world's record for 2-year-olds held by Pete Volo, and as this latter horse will undoubtedly be entered in the 2-year-old division of next year's Kentucky Futurity there is the keenest interest manifested among the horsemen now at Exposition Park in Virginia Barnette.

A close rival to this wonderful horse and one that is expected to try its metal to the limit when they clash in the fall meet of the Los Angeles Harness Horse Association next month, is Bon Courage, the 2-year-old owned by W. A. Clark, Jr. This animal has been clocked at close to 1.04 and it is thought that it can do even better It is entered in the Canfield-Clark stake race to be given November 11 to 15 inclusive and will meet Virginia Barnette at that time.

RUNNERS ARRIVE.

The arrival yesterday of fifteen running horses from Canada at Exposition Park aroused renewed interest in the running events, of which two each day are to be staged during the fall meet next month. Among these running horses were Marcand, Little Jake and Shorty Northcut, owned by Peter Adams of El Paso, and Gatey Palen, owned by Christopher Martin of Vancouver. James Durkin had three runners and William Gargen four runners in the string that arrived yesterday.

These animals will all be kept at Exposition Park until after the meet of next month, and will then proceed to El Paso. In the string perhaps the most noted are Gatey Palen, which won sixteen straight firsts in races in Canada this summer and has an excellent record for performances from ⅝ to 1¼ miles. Then there is Marcand, which boasts of one win over Walter H. Dupee's High Street. Honors between High Street and Marcand are even, as each has won and lost a race to the other. They will meet again at Exposition Park next month, when the little matter of supremacy will be decided.

The prospects for the running events at the fall meet are bright, as there are now twenty-two well-known running horses stabled at Exposition Park and all will enter the various races.

The inside track at Exposition Park is being placed in condition for the use of the runners during the time when the main track is in daily use by the long list of famous trotters and pacers preparing for the November meeting.

Fat Dingo.

LANGFORD AND LESTER SQUABBLE OVER REFEREE.

[BY DIRECT WIRE TO THE TIMES.]

BAKERSFIELD, Oct. 23.—[Exclusive Dispatch.] The closing days of training of both Jack Lester and Sam Langford for their twenty-round battle at Taft next Monday afternoon show them both very confident of victory.

Betting is heavy both at Bakersfield and Taft, with odds of ten to seven on Langford. Even money is bet that Lester cannot last the twenty rounds, and some are willing to bet even money he will not last fifteen rounds.

Langford now weighs 197 pounds, and seems to have great trouble in reducing in his waist line. He is complaining of the severe heat at Taft and longs for the eastern climate in which to train. He will do his hardest work tomorrow, tapering off on Saturday and resting absolutely on Sunday.

In his corner will be Bob Armstrong, Joe Davis and Joe Woodman. Yesterday the big smoke boxed four rounds with Kid Kenneth and Joe Fero.

Lester, 23 years of age, and in prime physical condition, weighs 195 pounds, and feels as frisky as a polar bear. His seconds will be Chick Brown, George Wilson and Hudson.

There is a squabble on right about

(Continued on Third Page.)

POLICE TO SHOOT TOMORROW.

Marksmen of the police forces are called to the Bishop-street range tomorrow by bulletin of Sergt. W. E. Smith, team coach, where they are to be put through trials of revolver work, including holding, firing on time limits, and target records.

It is understood that all officers are invited to try for places on the teams of five men each to represent the department in the tri-service revolver matches of November 30, it being the expectation that three teams of bluecoats will be lined up on that day.

Jailer Shand has had a gang of ten men at work for three days, putting the targets and pits in good condition for the practice required, up to fifty yards, and practice days are to follow according to the showing made in preliminary shooting.

Final eliminations are to include firing at the Schuetzen Park seventy-five-yard range, in order to cover the full expert military course prescribed for the match.

STANDING OF CLUBS.

Oakland, 8; Los Angeles, 3.
San Francisco, 8; Venice, 3.
Sacramento, 14; Portland, 3.

WELSH WILL CAMP ON WILLIE'S TRAIL.

CHICAGO BUREAU OF THE TIMES, Oct 23.—[Exclusive Dispatch.] Freddie Welsh, accompanied by his manager, Harry Pollock, stopped off in Chicago today long enough to unfold his plans for trapping Champion Willie Ritchie into a match for the title. Welsh is going to camp on Ritchie's trail until he gets some sort of a reply to his challenge. When Ritchie meets Leach Cross in New York next week the Englishman will be at the ringside to issue a defi intended for the winner. If Ritchie fails to accept then Welsh will trail him to his next bout, keeping this up until Willie answers him.

To do this Welsh has turned down several offers to fight, so he says, and he does not intend to enter the ring again until the public hears a lot of things he has to say to the champion.

Regarding his proposed bout at Kenosha with Eddie Murphy, Welsh stated that there was nothing doing along this line. He says Murphy is not a good drawing card, but that he would rather meet Charley White or Ad Wolgast.

BILLY HART WOULD FIND WHITE HOPE.

With the idea of eliminating the amateur heavyweights of the south in order to discover a real white hope, Billy Hart of the Western Athletic Club will begin a series of weekly tournaments tomorrow night with Charlie Carroll and Henri Careese as the main event. These two boxers are fighting for a chance at a highly-touted local heavyweight, who will appear the following Saturday night. The Carroll-Careese bout will be the main event of a card of nine, the first of which will be sent away at the club gymnasium, No. 834½ South Spring street, at 8 o'clock.

The other bouts will be sent away in the following order: Frank Lake vs. Roy Morris, 158 pounds; Charlie Amstead vs. Lee Crooks, 128 pounds; Jim Bryant vs. Jim Brink, 140 pounds; Heine Boge vs. Frank Guese, 118 pounds; Louis Maynes vs. Joe Turcotte, 118 pounds, and Noye Steinmans vs. Al Sefton, 128 pounds. Al Venn will referee the bouts.

Baseball Wan.

INVASION BY OUTLAW LEAGUE

Many Big Leaguers Said to Be Jumping.

Roger Bresnahan Is Among Those Suspected.

Tommy Leach May Follow Stovall's Example.

[BY DIRECT WIRE TO THE TIMES.]

PITTSBURGH, Oct. 23.—[Exclusive Dispatch.] The Federal League, according to reports from headquarters here, is about ready to cut in on the major circuits and remove a lot of the stars.

Rumor has it that Tommy Leach, now under reserve by the Chicago Cubs and Pirate player for several years, will boss the Pittsburgh team in the new circuit.

Leach would like to live in Pittsburgh. His home is here and his interests center around the Smoky City. It is stated from an official source that Deacon Phillippi will not be connected with the Pittsburgh club next season.

Three others concerned are associated with the National League, namely, Wilbert Robinson, formerly Baltimore and St. Louis National League catcher, and at present coach of the New York Giants, Roger Bresnahan, catcher for the Chicago Cubs, and Ed Konetchy of the Cardinals.

The American League player who may sever his relations with the organized ranks is George Stovall, dethroned manager of the St. Louis Browns, who was succeeded by Branch Rickey. The Federal League is said to have several other strings to pull before it begins its second campaign.

The league will be composed of eight clubs next year, the new cities to receive franchises being Baltimore and Buffalo. There will be six new pilots guiding clubs. The only leaders of the 1913 season to remain are Bill Phillips, who won the Federal League pennant, and Cy Young, who finished second with his Cleveland aggregation.

It is saidthat Bresnahan is to be stationed in St. Louis. Robinson is slated to head the Baltimore team, and George Stovall has already opened negotiations with Kansas City.

VENICE TO MEET ARMY AND NAVY.

The Army and Navy Academy football team is to meet the Venice High School team tomorrow afternoon on the seaside gridiron. This will be the first time this season that Coach Waddell's little men from the academy get a chance with a team anywhere near their own weight. At that, the Venice lads have it on the soldiers by about seven pounds to the man, but this is considered nothing after the games with Santa Ana and Long Beach, when the team was outweighed at least some twenty pounds to the individual.

The Army and Navy team is, without a doubt, the lightest football team in the south this season, but nevertheless the lads have been playing some wonderful football, especially when they held the heavy Santa Ana team to a 14-to-0 score, holding them scoreless through the first three-quarters of the game.

ROBINSON EQUALS KEMPNER'S SCORE.

A rushing finish is due Monday night in the Brunswick amateur balkline tournament, in the shape of a play-off between E. M. Kempner and Paul Robinson, who are tied for first place by reason of Robinson's victory over Dr. H. E. Richards last night. Richards is also due to play off a tie with Gebauer for third and fourth prizes.

Kempner has made a grand average of 7.43 for the tournament, and while Robinson has averaged less, he has to his credit two out of three tournament games played with Kempner on even terms. The two were tied for first place in Nelm's last tournament. Robinson having won their personal game, but Kempner won the play-off. In the present tournament, Robinson also scored their game by a majority of points, though rated to receive fifty points handicap.

Last night Robinson made 300 points to Richards's 94, in thirty-five innings. His high run was twenty-one, his average five and five-sevenths.

Kempner and Robinson have each won six games and lost one. Gebauer and Richards have scored four wins and three losses each, and having very even records otherwise, should give a close match in their extra game for the lower prizes.

MILLS BEATS CRAFT AT HOTEL ABBEY.

O. J. Mills defeated R. L. Craft at Hotel Abbey last night, scoring 100 balls at pocket billiards to sixty-three put down by Craft. An exhibition of fancy shots followed the game.

R. H. Gardner is slated as Mill's opponent at a special hotel matinee this afternoon, to which ladies and escorts are invited. This evening Mills is to meet another strong opponent at the same place.

CLABBY LANDS MATCH.

SAN FRANCISCO, Oct. 23.—[By A. P. Night Wire.] Promoter J. W. Coffroth today practically completed arrangements for the appearance here on Thanksgiving Day of Jimmy Clabby and Frank Logan in a twenty-round bout. A hitch in proceedings between the managers of the two middleweights has been straightened up satisfactorily and the men will meet at 158 pounds three hours before the fight.

CAPELLE BEATS FRICK.

Nick Capelle won from Frick his game in Morley's amateur three-cushion billiard tournament, his score being thirty-five to twenty-two. The game went seventy-three innings, Capelle making high run of three.

Tonight Condon and Price are to meet at 8 o'clock.

TRIUMPH FOR TAILENDERS.

Oaks Finally Manage to Defeat Angels.

Great Work in the Field by Cook and Ness.

Rube Gardner Lands Telling Blow in Pinch.

BY HARRY A. WILLIAMS.

Oakland won its first victory of the series yesterday, an 8 to 3 affair.

While the act created considerable excitement, it is the consensus of opinion in sporting circles that it will have no vital bearing on the Coast League race.

Bill Malarkey, who is not a "bloomer" in the generally accepted sense of that word, but who seems to bloom at all seasons of the year for all of that, hooked up with Charley Cheek, another magnificent specimen of the pitcher antique.

Of the two, Bill proved to be the hardier tail worker. Bill was hit but ten times, whereas Cheek was pooked in fifteen different spots.

There was a lot of fine fielding, and some of the other kind, while four double plays served to awaken the interest not only of the lady in the grandstand, but of the man in the left field bleachers also.

Petey Cook scintillated at short at all times, his one-handed stab of Howard's high line drive in the fifth being an especial humdinger.

Jack Ness did a little humdinging on his own account in the sixth, when he speared Krueger's line drive with nothing but his left hand and touched the startled Mr. Goodwin out on the line for a double play.

Maggert scored early in the day, or the first inning, to be explicit. His double and Howard's single did the business. Oakland muted this one in the second. Clemens singled and worked his way around to third, being held at that point on Cook's infield hit to Sawyer. He scored on a double steal with Guest, after the latter had fooled Cook, Arbogast heaving the ball into deep center. Just why Charley should have done this is something of a mystery, for, so far as known, no one was attempting to steal center field.

BILL HITS ONE.

Bill Malarkey hit the ball to the left field fence in the third, and almost ran himself to death. In the course of time he drew up at third base. Coy's attempted sacrifice fizzled into a pop fly. Hiting stngid Malarkey in. Passes were given to Kayler and Clemens. Ness then singled, scoring "Gasoline Gus" and Kayler.

Maggert singled in the third with two out, scoring when the Howard almost tore a leg off Guest with a hot one that careened therefrom into right field and over the bewhiskered head of Kaylor for three bases. Goodwin retired peacefully on a grounder to Ness.

Sawyer's double and a single by Arbogast in the seventh stood for one run and marked the finish of Los Angeles as a scoring factor.

THE SLAUGHTER.

The Oaks got frisky again in the ninth and prolonged the agony considerably by scoring four runs. Curses!

Kaylor opened the round with a fly that Art Krueger tucked in his vest pocket. Clemens and Ness then beat out slow drives to E. Ernie Johnson, the assistant manufacturer. Cook screwed his back around in front of a slow one, and got away with it. This filled the bases, and convinced Devlin that the field was ripe unto the harvest. Acting on that theory he told Rube Gardner to go in and pickle one in lieu of Guest. Rube responded with a single that scored Clemens and Ness. Alexander drove to Sawyer, who made a bad heave to get Cook at the plate. Petey scoring and Gardner going to third. Malarkey manufactured a long fly to Meusel. Emil made a wide throw to the plate, and Gardner would have found the ball waiting for him had not Arbogast neglected to catch it. Coy was gratificated on a grounder to Johnson, and they lived happily ever afterward.

The score:

OAKLAND.

SUMMARY.

Three-base hits—Malarkey, Howard.
Two-base hits—Maggert, Sawyer, Guest.
Sacrifice hit—Meusel.
Base on balls—Off Cheek, 4.
Struck out—By Malarkey, 5.
Double plays—Cook to Guest to Ness; Gardner to Howard; Ness unassisted; Cook to Ness.
Hit by pitched ball—Cook.
Time of game—2:00.
Umpires—Finney and Hyde.

HARVARD CADETS TO MEET COMPTON.

The Harvard cadets meet the Compton ruggers, in a scheduled game of the Interurban League on the Harvard grounds Saturday. Both teams have defeated Monrovia by similar scores and look to be evenly matched for the contest. The military lads have been hitting their stride of late, but will suffer from injuries in Saturday's game. Schuster, playing front rank, is out with a bad knee, while Nourse, the star three-quarter man, has an injured spine. Wing-forward Metcalf will also be missing, and Ide, substitute three-quarter, has a sprained ankle. In spite of these handicaps, the team has not lost courage, and expects to fight out a victory over the Compton boys.

PRELIMINARIES.

The prelim card complete for the Chavez-Campi match night is Battling Chico vs. Danny Lyons, ten rounds, 116 pounds, at 7 p.m.; Sailor Hill vs. Charles Shands, middleweights, six rounds; Dick Doolin vs. Willie Woodfork, colored middleweights, four rounds.

"Mogul" Shipke,

The Oxy Tiger locomotive, who has been raising havoc in the line at right tackle. This is his first fling at the game, but he is proving a find.

Gridiron Gossip.

FIRST BIG GAME ONLY ONE SHORT WEEK AWAY.

Quakers Gone Football Mad as the Battle With Oxy Tigers Draws Near—Presbyterians Coming Back and Team Is Proving Strong and Heavy—Picking Winner More Doubtful Than Ever Before.

BY OWEN R. BIRD.

IF WHITTIER does not win the intercollegiate football title of Southern California this fall, it looks as though the institution would pine and pass away and as though the city itself would have to go out of business for at least a week. The gridiron fever now running rampant in the foothill city, is something terrible to behold. They eat, sleep, live think, pray and inwardly digest football at the college, morning, noon and night, while they say that the city fathers discuss football during their solemn conclaves. Oh! I'll tell you it is a terrible thing when these Quakers get within smelling distance of the flag and let it be understood here and now that they are decidedly inside of the olfactory circle at the present time, with the first big battle of the season looming up just one week away, when Wilson's men are going to attempt to put a four-handed bow knot in the Oxy Tiger tail.

* * *

Some Sadness.

While the team has come along nicely all season and seems to be in prime condition, the varsity squad has run into the injury squall and some of the best men are now laid on the shelf for repairs and are not to be seen in action for several days to come. Tomorrow afternoon the Throop Mechanics play their first hard game of the season on Hadley Field against the Quakers. However, the Quakers are to be minus several of the pillars on account of injuries and on account of the fact that the coach wishes to see how some of his second-team men go when under fire.

There was a rather severe scrimmage staged last night on the Quaker field, but none of the cripples were allowed to get beyond the sidelines. Full-back "Bull" Finch, the mighty human battering ram that has brought woe to so many rush lines, is hors de combat with a wrenched muscle in his right shoulder. Besides hindering his play this injury also interferes with his handling of the forward pass.

"Speed" Brownell is having trouble with his hands and wrists and has been ordered out of scrimmage for three days. Newlin and Jordan have bad legs, while Findlay still has the same old Charlie-horse working overtime. Newlin appears on the road to a rapid recovery and may be used in the game against Throop. The Poets will probably start with Newlin at full, Commack at half, and E. Chambers at Findlay's tackle. Capt. Hob Chambers is all to the mustard and will be seen at his tackle berth as usual. "Kid" Mason, the new find at quarter-back, is going great guns at the present time and when his "fawty fosh" rings over the field, all sit up and prepare for quick happenings.

* * *

Backfield Best.

Before dropping the subject of the Poets, a few words for the dope sheet. The Whittier machine has one of the best backfields ever seen in the South, but it does not balance with the line, which is hardly strong enough to play up to the standard of the men behind it. This makes the team strong on the attack, weak in the first defense and strong again in the secondary defense. Which means that a line plunging squad has the best chance of winning against them. The Quaker ability with the forward pass has long been a matter of tradition in the South and unless Finch loses his grip on the throwing end of the play, the team should be just as strong here as ever before.

* * *

Pipal's Pupils.

For the past two weeks we have been hearing long tales of woe from the lair of the Tiger, but every time the squad lines up against a team in these practice games, it comes romping home with a lop-sided score. Now, why all this? When you come to figure it all out, they have a fine collection of wild young bear cats out there and the crafty one, Coach Pipal, has been teaching them football.

Just for instance, take the squad that will probably be sent in against the Poets one week from tomorrow in the first big game of the season. There is Kirkpatrick, left end, 160; Lewis, right end, 155; Shipke, right tackle, 196; Squires, left tackle, 179; Doig, right guard, 173; Starner, left guard, 175; Wieman, center, 194; Lem, quarter-back, 145; Foster, left half, 164; Lang or Brandsetner, full-backs, both 168; McClung, right half, 160; Coffeen, sub-half, 160, and McIntosh, sub-back, 144.

This outfit, taking the first line-up, gives a total average of 144 for the team, while the line averages 178 from end to end and the backs go 155¼ all through. Just think it over—it will help clear up the situation.

* * *

Babies Battle.

The Hollywood High School Rugby team and the Los Angeles High squad mixed in a terrible practice affair last night at Exposition Park. The game was played in three thirds, instead of two halves. In the first two thirds Hollywood ran over the Blue and White, scoring a try and kicking the goal. In the final spasm, Brooks and several of the first L.A. High men were shoved into the line-up by Coach Featherstone and rammed the ball over for a try and Broom kicked a dinger of a goal, putting the score 5-all. The game ended with Hollywood going for the L.A. goal line and no telling what would have happened if they had let it go any longer.

* * *

Higgins Takes a Look.

The Trojans are to rest today before the second match game with the L.A.A.C. team tomorrow. Coach Higgins left for the North last night to have a look at the New Zealanders and the California varsity in action, but left word that all of the second team men, who had shown any varsity caliber at all, were to be given a chance Saturday.

Therefore, James, Lund, Livernash, Davis, Sprotte, Ortley, Mason, Grant and Beach may be seen in action tomorrow. The L.A.A.C. squad will have the same line-up in the game as played last Saturday.

NEW FOOTBALL COACH.

Bernard Masterson, former St. Vincent star, has been appointed coach of the football team at Los Angeles College, and things are moving along at the Catholic school. The team is very light, averaging about 130 pounds, but very fast. Brack Clemens, a former Santa Clara rugger, and Oliver Delaney, in the back field, promise much. Just how good the team is will be proven Saturday when they go up against the strong Inglewood High team.

A Big Day.

STROUD WINS HIS BIG BONUS.

Beavers Make Him a Present of the Game.

Only Make Three Runs from Fourteen Hits.

Bush Heaver Allows Five Runs as Starter.

[BY DIRECT WIRE TO THE TIMES.]

SACRAMENTO, Oct. 23.—[Exclusive Dispatch.] The bald statement of a 14-3 Sacramento victory over Portland this afternoon gave sure indication that the end of the season is upon us.

Today's game meant a $500 pitching bonus to "Sailor" Ralph Stroud for it was his twenty-fifth victory on the mound for Sacramento this year. With the Seals beating Venice it also meant that Sacramento would climb up within half a game of second place with good prospects of crowding the Tigers down a notch in the remaining three days of the race.

HAFEY SLIPS.

But Portland had cinched the pennant, and none of these things mattered. At first Bill Rodgers had been inclined to send Harry Krause to the mound to oppose Stroud, Krause having an unbroken record of nine straight victories, and Stroud needing one more game to win his bonus. But Bill changed his mind and sent Hafey, a San Francisco bush pitcher, to the slab. This made Stroud's task easier, and it was made still easier, when Hafey got off to a bad start and the Beavers refused to take the game seriously.

Sailor Stroud had never won a game from Portland, but even this did not matter. The Beavers are ball players, and every ball player knows the value of money during the winter time. Hence, far be it from the Beavers standing between Stroud and a nice little winter nest egg.

Stroud appreciated the attitude of his opponents, and did not exert himself to keep down the hits. Fourteen safe bingles fattened up the Portland batting averages, but with men on bases, Stroud reduced his visible supply of liberality, and with fast fielding behind him, held the Beavers to three runs for their fourteen hits.

MUCH SLUGGING.

There was a total of thirty hits in the game, one of them being a home run by Moran inside the lot; two being triples, and three being doubles. But out of a total of seventeen runs, there were only nine of the earned variety.

Bill Kenworthy was out of the game and will be for the rest of the season. When he suffered an injured finger a few days ago on a thrown ball from Klawitter, Kenny thought little of it. Yesterday morning it developed that blood poisoning had set in, and Kenny is now in the doctor's care. But Dolly Stark has been working well around second and seems to have regained his batting eye, so the Wolves will not suffer much in their three days' fight for second place.

A SLAUGHTER.

Oh, yes, the game; aye, there's the rub, to describe such a game as that of today without resorting to poetry. Two walks, an infield hit, Davis' wide heave to first, Young's steal of home while Koves held the ball at first, Moran's home run to the left center field fence, Hallihan's triple over Lober's head, and Stark's single chased Hafey to the bench in the first inning, with five Sacramento runs registered.

Hagerman took up the Portland mound work and in the second inning, Shinn's double, two walks, infield singles by Lewis and Stark, a passed ball and Berry's bad heave to third, netted four more Sacramento runs. Van Buren's single, steal of second, and Moran's single hung up one more in the seventh. Singles by Young, Van Buren, Hallihan, Stark and Stroud, with a walk and stolen base thrown in, finished the Sacramento scoring with four runs in the eighth.

The score:

HARRY CHANDLER,
Assistant General Manager, The Times.

Subscribed and sworn to before me this 8th day of October, 1913.

T. L. CHAPIN,
Notary Public in and for the County of Los Angeles, State of California.

A. J. Bonsall, being duly sworn, deposes that he is and has for twelve years immediately past been Circulation Clerk of the Los Angeles Times; that the above published statement of circulation for the month of September, 1913, is correct, and shows the circulation of The Times for each day of the month named.

A. J. DENNIS.

Subscribed and sworn to before me this 8th day of October, 1913.

T. L. CHAPIN,
Notary Public in and for the County of Los Angeles, State of California.

The Times is the only newspaper in Los Angeles that does not insist upon a practice of permitting agents, newsboys and dealers to return unsold copies of its issues. Neither does it misbrand or predate its editions, or inflate its circulation by printing more copies than are actually necessary to supply its patrons.

The Times' entire circulation is practically cash, and it is more genuine and superior in every respect to that of any other newspaper.

Vassar

Swiss Ribbed Union Suits for Gentlemen

DON'T be surprised when you find that Vassar Swiss ribbed union suits cost more than the ordinary kind.

It's worth more to have underwear that fits than the kind that bags, and stretches out of shape; it's worth more to have soft, flat seams next you than harsh, bulky uncomfortable seams; it's worth something to have sleeve and ankle cuffs knit on instead of sewed on.

Vassar Swiss ribbed union suits are elastic; they keep shape. And they offer a combination of features you'll be glad to pay the price for.

Ask your haberdasher about Vassar; he knows.

Vassar Swiss Underwear Co.
Chicago.

FRIDAY MORNING.

Oh, No! Mr.

ANGELS SHOU
WHIT

Chicago Club Plans to Tra
Years and Will Have Ma
Berry Says Washington Is
Will Have Back of Him.

BY HARRY

THE working agreement between Los Angeles and Washington by which the Angels are to get the pick of Clark Griffith's surplus players, as it is reported, may be supplemented by a similar arrangement with the Chicago White Sox.

President Berry admits that Washington is not the only club with which he intends to establish relations of this character.

The White Sox are said to have practically completed arrangements for a train in California for the next three years with their early headquarters at Paso Robles.

Comiskey usually carts about fifty players out to the Coast, or double the number that he cares to take back with him. It costs money to ship live stock back and forth across the country, and it would be real news in Comiskey's pocket if he could arrange to unload his surplus on the local market each spring.

That arrangement will be made with some Coast League club which will enable him to do this is regarded as certain. Heretofore the White Sox have sent some of their players to the San Francisco club. Last spring Comiskey and Ewing had trouble of a personal nature, and the relations between the two clubs is not as cordial as formerly. In fact, Ewing had to do some tall begging to induce Comiskey to leave Douglass and Johnston with him last spring. But now the relations between San Francisco and the Chicago Cubs seem to be much closer than those of the White Sox. Murphy slipped Hank to Ewing without giving the Seals Coasters a chance to bid for the big fellow.

Berry can make such a deal with Comiskey he will be better fortified than most of his rivals in this re-

* * *

Overlooked Cravath and Gandil.

"He's a good judge of a ball player" is an expression frequently heard in baseball circles where fans are prone to gather and chew the rag.

I'm beginning to believe that there is very no such critter."

The whole bloomin' thing seems to be a jumble. One manager will tell you that such and such a player don't have enough natural ability to carry hats, and the next thing you know he is committing arson on some first club.

When a Wise man like Comiskey can stub his toe on two players like Gandil and Cravath it is enough to cause one to lose faith in the vaunted judgment of managers and magnates.

Comiskey formerly had those players, but he couldn't see either of them with a spy glass. And yet, if there is a man in the business qualified to pass judgment on a ball player it is the "Old Roman." Not only was he one of the brainiest players in the business himself, but practically all his life he has been associated with smart baseball men.

* * *

Don't See Them the Same.

The difference of opinion found among magnates and managers regarding the ability of players is doubtless due to the conditions under which they see him.

One man will see a player at his best, and declare him a bum. The next day a scout will happen along, see the same man at his best and pronounce him a world-beater.

It is probable that Comiskey did not see either Cravath or Gandil going at their best pace, while both of them were developed greatly since he turned them adrift.

* * *

Ban Berry's Experience.

"If there is a man in the country who can recognize a good ball player at first sight, or on second or third sight, for that matter, I would be surprised to make his acquaintance," chuckled Henry Berry yesterday.

"When in the East I was with Comiskey, McAleer, Somers, Griffith, Mack and other wise baseball men a great deal of the time, and we held a number of warm fanning bees. Almost every well-known player in the business was discussed and dissected. And yet, outside of Cobb, Collins and a few others whose ability cannot possibly be questioned, there was hardly a player whom all would agree was entitled to much. The trouble was that few of them had seen the men under similar conditions."

* * *

Couldn't See Devlin.

The early experience of Arthur Devlin furnishes similar evidence along the same line.

Frank Dillon was with Brooklyn when Devlin went from Newark to the New York Giants.

Scouts who had seen Devlin in the Eastern League failed to appreciate his ability and predicted a brief career for

Baseball.

ANGELS SHOULD GET WHITE SOX SURPLUS.

Chicago Club Plans to Train in California for Several Years and Will Have Many Players to Leave on Coast. Murry Says Washington Is Not Only Club Which He Will Have Back of Him.

BY HARRY A. WILLIAMS.

working agreement between Angeles and Washington by which the Angels are to get the Clark Griffith's surplus players is reported, may be supplemented by a similar arrangement with the Chicago White Sox.

Murry Berry admits that Washington got the only club with which he wants to establish relations of that character.

The White Sox are said to have practically completed arrangements whereby they will train in California for the next two years with their early headquarters at Paso Robles.

Another usually carts about fifty players out to the Coast, or double that number that he cares to take with him. It costs money to ship them back and forth across the country, and it would be real money in Comiskey's pocket if he could arrange to unload his surplus on the local market each spring.

Such an arrangement will be made with the Coast League club which Comiskey wants him to do this is reported certain. Heretofore the Chicago owner has sent some of their players to the San Francisco club, but the deal between Comiskey and Ewing had been of a personal nature, and the trade between the two clubs is not as cordial as formerly. In fact, Ewing had to do some tall begging before Comiskey to leave Douglass in charge of affairs with him last spring. Just how the relations between San Francisco and the Chicago Cubs may be is much closer than those between the White Sox. Murphy slipped over to Ewing without giving the latter much of a chance to bid for the fellow.

Comiskey can make such a deal with Murphy, as he will be better fortified than most of his rivals in this respect.

* * *

Both Crawath and Gandil.

Comiskey is a good judge of a ball player, and his expression frequently heard in the offices where fans are prone to congregate and chew the rag, leads one to believe that there is much to such critter."

The whole blessed thing seems to center in Murphy. One manager will tell you that a man and such a player have just enough natural ability to get by, and the next thing you know he is committing arson on some other club.

Give a Wise man like Comiskey a chance to see two players like Gandil and Crawath it is enough to restore one's faith in the vaunted judgment of managers and magnates. Comiskey formerly had these players, but he couldn't see either of them with a spy glass. And yet, if there is a man in the business qualified to pass judgment on a ball player it is the "Old Roman." Not only was he one of the brainiest players who ever donned baseball regalia himself, but practically all his life he has been associated with the smart baseball men.

* * *

Not All Seem the Same.

The difference of opinion found among magnates and managers regarding the ability of players is due to the conditions under which they see him.

A man will see a player at his best and declare him a bum. The next day a scout will happen along, see the same man at his best and declare him a world-beater.

It is probable that Comiskey did not like either Crawath or Gandil going about their business, while both of them have developed greatly since he turned them adrift.

* * *

Murry's Experience.

If there is a man in the country who can recognize a good ball player at first sight, or on second or third thought, for that matter, I would be glad to make his acquaintance," declared Murry Berry yesterday.

"When in the East I was with Mack, Somers, Griffith, Dreyfuss and other wise baseball men a good deal of the time, and we held many conferences of warm fanning bees. Every well-known player in the game was discussed and dissected, from the heights of Cobb, Collins and Speaker, whose ability cannot be questioned, there was a player whom all would agree was a joke. The trouble was that few of them had seen the men under conditions."

* * *

Of Devlin.

The early experience of Arthur Devlin in the game is of similar evidence to that which was with Brooklyn when he went from Newark to the New York Giants. Those who had seen Devlin in the Coast league failed to appreciate that he had played a brief career for him in the majors," said Dillon yesterday. "Imagine my surprise after hearing these reports when in my first game against Devlin I found him a star of the first magnitude."

* * *

Jud Smith Great Thrower.

"Speaking of third baekers," continued Dillon, "do you knew who I think was the best throwing third baseman that ever pulled on a glove?"

We frankly confessed that, not being a mind reader, we didn't.

The party whose arm Frank so firmly admired was none other than our old friend Jud Smith.

"Possibly I was putting it a bit too strong when I said that Jud was the best of the bunch, but I do doubt whether he ever had a superior as a sure shot to first. There may have been players with stronger whips, but no third sacker ever exceeded him in accuracy. He wouldn't miss first base more than a foot in ten throws.

"He seldom had to hurry his throws. His judgment of pace and distance was so perfect that he would get his throws across just ahead of the runner. I guess no one really knows how hard he could throw, for he never had to extend himself.

"And I never saw a better man when it came to knocking down hard drives and recovering in time to get his man. He had the faculty of knocking the ball down in front of him where he could retrieve it without moving out of his tracks."

* * *

Jimmy Byrnes Quits Angels.

Jimmy Byrnes turned his uniform over to the club property man yesterday, shook hands all around, and beat it back to his pipe flats in Northern Washington.

Thus ended Jimmy's third and probably final whirl in Coast League company. Jimmy will not be with the Angels next season. It was an accident that he happened to be with them this year. He came in a time of need, and performed his part well.

Jimmy made a base hit his last time at bat in the Coast League, and in that way passed out of Class AA company in a blaze of glory.

Byrnes is considering an offer to coach the St. Ignatius College baseball team this winter.

* * *

Umpire Phyle's First Fight.

Any boxing club yearning for a good referee should get in touch with Umpire Billy Phyle.

Phyle is an old-time boxer and has served as the third man in the ring on a number of occasions.

Phyle's first fight was in a preliminary to the Needham-Ryan battle in St. Paul several years ago.

His opponent was Mike Steffens, a locomotive fireman, who outweighed him by about twenty pounds. Billy floored him in six rounds. His share of the receipts was $5.

He took the coin home and handed it to his mother, as any dutiful son would do.

Billy's dad, who was opposed to prize fighting, was somewhat enraged when he learned that his son had walloped a fellow-being on the beak, and went downtown, determined to clean up Fred Lowes, a saloon-keeper who had promoted the card.

Lowes was there with the "bull" a million ways from the cash register.

"Great boxer, that boy of youre; oughta seen him flatten that fellow Steffens," he gushed before old man Phyle had a chance to land.

It so happened that Steffens was one person for whom Daddy Phyle had not the slightest use. Learning that he was the party whom his heir-apparent had licked, he not only refrained from hitting Lowes, but forgave Billy and permitted him to fight to his heart's content.

THOBURN IS OUT OF GAME.

PALO ALTO, Oct. 23.—Capt. James H. Thoburn of the Stanford varsity Rugby team, it was definitely decided today, will not play in the big game against the University of California because of an injury to his knee that has been troublesome for some time. W. E. Darsie probably will act as field captain.

OFFERS FOR EDDIE CAMPI.

Promoters of St. Joseph, Mo., want Eddie Campi to box Frankie Conley before their Business Men's Athletic Club. Tim McGrath, manager of Campi, was asked to quote his terms for the Conley match. Milwaukee promoters also are after Campi for Champion Coulon over the ten-round course towards New Year's Day. They figure that the bantam champion would be ready to box by that time and that they might be able to persuade him to take on Campi.

Poor Old Tigers.

ELMER KOESTNER VERY WOBBLY AND SEALS WIN.

[BY DIRECT WIRE TO THE TIMES.]

SAN FRANCISCO, Oct. 23.—[Exclusive Dispatch.] With "Skeeter" Fanning on the firing line, the Seals had little trouble today in repeating the same kind of defeat medicine to the Tigers as on the day before.

Elmer Koestner essayed the mound task for Venice, and shone principally the wrong way about. He walked five and at a critical moment hurled the pellet a little too low and a little too far out, and the heave goes down in the records as a wild pitch.

Venice started off right foot first. In the opening round, after the first of the trio of midget outfielders, Meloan, had whiffed, Kane doubled to left and Bayless followed it up with a hot one to the same territory, scoring Johnny.

The Seals did nothing in the first, but in the second try they got to swinging their war clubs with effect. "Clean-up" man Schaller lifted a safe one to right, Jerry Downs followed with a cracking two-bagger to left, scoring his team-mate. Roy Corhan drove Downs home with a nice triple to right. After Cartwright had gone out Roy ambled home on an infield out. That was three runs and the beginning of the end.

In the third the Southruns made a couple of tallies, and their last of the game. Koestner was there with a safe spread, and when Schaller was slow in the return from the outer precincts the pitcher kept running until he reached third. Meloan's two-bagger to right gave Koestner plenty of time to cross the plate. Bayless got a life when Corhan dropped Bayless's fly. Brashear forced Bayless at second, and on Corhan's wild throw to first Meloan scored.

The Seals broke the tie score in the fourth. Schaller doubled to right, Downs singled, Corhan walked and, with the bases full, Cartwright forced Schaller at the plate. Downs came home on a wild pitch.

In the eighth the Seals, for good measure, added two to their four runs. The score:

SUMMARY.

Three-base hit—Corhan.
Two-base hits—Kane, Downs, Meloan, Schaller.
Sacrifice hits—Meloan, Kane.
Bases on balls—Off Koestner, 5; off Fanning, 1.
Struck out—By Fanning, 6; by Koestner, 6.
Double plays—McArdle, unassisted; Corhan to Downs to McArdle; Meloan to Brashear; Brashear to O'Rourke.
Left on bases—San Francisco, 4; Venice, 5.
Earned runs—San Francisco, 3; Venice, 1.
Wild pitch—Koestner.
Time of game—1h. 42m.
Umpires—Guthrie and Held.

Once More.

GIANTS TRIM THE WHITE SOX.

ARTHUR FROMME HOLDS THE ENEMY SAFE.

Jim Scott Officiates for the Sox and Is Pounded All Over the Lot. Larry Doyle Gets Three Two-Baggers and Sam Crawford a Home Run.

[BY DIRECT WIRE TO THE TIMES.]

SIOUX CITY (Iowa) Oct. 23.—[Exclusive Dispatch.] More than 4000 fans turned out this afternoon to watch the world-touring Giants trim their traveling companions, the White Sox, 6 to 3. Ideal baseball weather greeted the tourists. Art Fromme did pitching duty for McGraw's men, and although touched for ten hits, he managed to keep them fairly well scattered. Jim Scott was sent to the mound by Manager Callahan. He was hit hard, the Giants poling out twelve swats. Three of these were doubles by Larry Doyle. Fred Merkle also contributed a pair of two-base hits, also did Doc White for the Sox. Sam Crawford counted one of the White Sox runs with a homer.

CHAMPIONS ENTER BILLIARD TOURNEY

Four experts entered definitely for the pocket billard tournament open to Coast players, on the first day after Manager Alfred Mackenzie's announcement of the event. Twice as many are reported as probable competitors for the $200 cash prizes.

There is a possibility that the affair may grow to a contest for a trophy representing the Pacific Coast championship, as Mackenzie is now considering the establishment of an undisputable title, according to recognized conditions, creating records and titles.

O. J. Mills, Coast fancy shot champion; George N. Banks, champion of Southern California; Jack Ingram, the "Kansas Cyclone;" and H. J. O'Brien, winner of many events, including fourth prize in last year's Majestic tournament, yesterday enrolled their names for the event.

Aside from these, Thurman Jack, champion of the San Joaquin Valley; T. J. Allen, late champion of Portland; Roscoe Ely of Monrovia; William Maguire, former champion of the Coast; L. K. Greer, former holder, and H. F. Engle, present holder of the amateur championship of Southern California, and an Oklahoma expert, are mentioned as eligible and probable contenders for tourney honors.

Games are to be for 100 balls, on a regulation table, with every contestant playing every day. This will give a schedule of at east four games daily, commencing at noon.

It is probable that a roomkeepers tournament will follow this competition, as plans for one are now under discussion.

Fight Squabble.

(Continued from First Page.)

the third man of the ring, and since the question seems hopeless of settlement by arbitration, it will be decided tomorrow by the flip of a coin. Langford wants to have Jim Griffin of San Francisco, while Lester's choice is George Blake of Los Angeles.

A special train will be run from Bakersfield to Taft at 11 o'clock Monday morning from the Santa Fe Depot. The promoters report that orders for the seats are coming in fast and that, while the largest crowd that has ever witnessed a boxing contest in this part of the State will be present, none need fear not being able to get a seat in the stadium. This is large enough to hold any crowd that may attend, being capable of seating between 6000 and 7000.

FIGHTER IS INSANE.

PORTLAND, Oct. 23.—[By A. P. Night Wire.] Patsy Cardiff, who once fought a draw with John L. Sullivan, another with Charley Mitchell, and was afterward defeated by Peter Jackson, was committed to the Oregon Asylum for the Insane today after an examination before a lunacy commission. He has lived in Portland for the last eighteen years, and was for the last several years in the house-moving business. His insanity is said by the physicians to be due to alcoholism.

BALL PLAYERS IN BIG REVOLT.

Murphy's Men Refusing to Sign Contracts.

Fraternity Will Take Action Very Soon.

Many Magnates Would Treat With Players.

[BY DIRECT WIRE TO THE TIMES.]

CHICAGO BUREAU OF THE TIMES, Oct. 23.—[Exclusive Dispatch.] Gen. Sherman once slipped over a memorable remark about war. That big league club owners are to learn the truth of the statement before many more moons slip across the heavens, became evident today when it was learned that President Charles Webb Murphy of the Cubs had already felt the stern and threatening hand of the Ballplayers' Protective Fraternity. It is a well-known fact and has been for some time that the organization of which David Fultz, ex-ball player, is the head, has been preparing to make certain demands upon "organized baseball." The betterment of conditions under which players are held in "bondage," has been the big aim of the fraternity.

Cub players whose contracts expired with this season, have refused to listen to pleas from Murphy that they sign. The mere fact that six Cubs refuse to sign contracts at this early date is no reflection on Murphy. He is only one of many club owners who will find themselves up against the same proposition.

That there is method in the players' madness is easily seen. They don't want to be tied up with contracts before they see what action the big leagues intend to take when the demands of the fraternity are presented. The formal presentation is to take place at the annual meetings of the leagues. The players of all clubs bound themselves to this agreement by their signatures.

If the magnates refuse flatly to consider a revision, then there is liable to be a blow-off. Just how far the fight is carried is up to the players themselves, 85 per cent. of whom have already signed the agreement embodying proposed changes. It is whispered about that several club owners have already signified a willingness to meet the fraternity half way.

BOWLING NOTES.

The Commercial League tournament opened Tuesday night at the Majestic alleys, where the Athletics defeated the Woodill-Hulse champions of last year by 2794 pins to 2455, Meador of the Athletics making high game of 247 and high average of 201. Weston of the same team made two games of 225, and one of 223, with average of 195.

Examiners defeated Barker Bros. by 2432 pins to 2247, Laughlin taking high game record with 232, and high average of 184.

In the second evening's play Harris and Frank defeated Broadway Department Store, taking 2285 pins against 2284. Tobey of the winners made high game of 198, and high average of 172.

Mullen and Bluett's scored against Jevnes, 2343 pins to 2177. President Bishop of Jevnes made high average for the evening, with 177.

BERKELEY BRIEFS.

[Special Correspondence of The Times.]

UNIVERSITY OF CALIFORNIA, Oct. 23.—That hoodoo jinks, "injuries," seems to have begun operations on the varsity squad. Tom Dills, the Pomona wing, is still hobbling around unable to do anything but wait until his knee gets back into shape. Jack Smith, the freshman front-ranker, who succeeded in battering up his shoulder last Saturday, is improving, but cannot be expected to appear for practice for some time.

This vacant wing position is causing the coaches a lot of worry. Several men have had a chance at it, but none of them showed any remarkable aptitude for this flying berth. Dills is the man upon whom Californin has counted, and unless he is able to get into shape there is a possibility of left wing being a weak spot in the Blue and Gold scoring machine. Plenty of aspirants are out for it, but they are either too inexperienced or unreliable.

But four more practice games remain to be played before the big game with Stanford. Saturday comes the All Black contest for the first varsity, and a battle for the second squad against the University of Nevada. Next week, on Wednesday, St. Mary's will be met and on the following Saturday the All Blacks, in the final practice game of the season. It is these four games that will decide the personnel of the intercollegiate fifteen and they will be watched with more than ordinary interest by Californians.

Amos Elliott, '11, captain in that year of the varsity, is to bring a squad of footballers of his own back to do battle with the players of his alma mater. He is coach of the Sagebrushers from Nevada who are to play Saturday.

Carlos Bransby, professor of Spanish in the university for many years, is scarcely able to attend his classes. He has been in the infirmary several times this semester, but has been unwilling to give up long enough to regain his strength. Prof. Bransby is widely known through the South, both personally and by his numerous textbooks on the Castilian language. He was at one time an instructor in the Los Angeles Y.M.C.A.

The University Cadets, 1450 strong, spent yesterday afternoon maneuvering against an imaginary hostile army advancing from the direction of Benicia. The exercises took place at Thousand Oaks, about three miles from the campus. Maj. Nance, university commandant, was assisted by mounted officers from the Presidio. Theoretically the Reds were routed and the sore-footed cadets are happy in the knowledge that they do not even need to pursue.

What the players' fraternity want in contracts:

First—When a player receives ten days' notice of unconditional release he shall be free to sign with any team immediately, the contract to run from the expiration of the ten-day period.

Second—National Association players shall receive ten day's notice before they can be released unconditionally.

Third—When a player is transferred he shall be transferred subject to all of the terms of his contract.

Fourth—When a player is transferred he shall be furnished with a writing, which shall be binding on all the parties concerned, showing what teams have a claim on him and what the claim is.

Fifth—When a player receives his unconditional release or when waivers are asked upon him, he shall be notified in writing to that effect.

Sixth—At the time contracts are sent out every player shall receive a copy to be kept by him for his own use.

Seventh—All written agreements, whether embodied in formal contract or not, shall be binding upon both the club and player.

Eighth—Every team shall furnish each player two complete uniforms exclusive of shoes.

Ninth—Every team shall pay the actual traveling expenses of its players from their homes to the training camps or so much thereof as does not exceed the expense from the league city to the training camp.

Tenth—If a regular contract is not tendered a probationary player before the expiration of the forty-five-day probationary period, he shall be a free agent.

Eleventh—If a player has been in the major leagues for any portion of the playing season of ten different years, and if at any time after the beginning of the tenth year no team in such leagues desires his services, he shall receive his unconditional release, subject, however, to reservation by the club which signs him.

Twelfth—If a player has been in the major and the class AA leagues for any portion of the playing season of twelve different years, and if at any time after the beginning of the twelfth year no team in such leagues desires his services, he shall receive his unconditional release, subject, however, to reservation by the team which signs him.

Thirteenth—When a team asks for waivers on a player it shall not be permitted to withdraw requests.

Fourteenth—When a player is fined or suspended he shall be given notice in writing, stating the amount and the reason therefor.

Fifteenth—No player shall be discriminated against or his position in organized baseball in any way affected because of his connection with the fraternity.

Sixteenth—Every park shall be equipped with a blank wall painted dark green, placed back of center field, in line with the pitcher's plate and home base, of sufficient size to afford a background for pitched balls.

Seventeenth—Before a player shall be released outright to a team of lower classification waivers shall be secured first from all teams in his classification, and then from all teams, if any, between that classification and the one to which he goes, according to their priority and grade.

Eighteenth—Before a drafted or purchased player shall be released under an optional agreement prior to the expiration of the season following his draft or purchase, waivers shall be secured from all teams, if any, between that classification and the one to which he goes, according to their priority and grade.

Nineteenth—Before a drafted or purchased player, after the expiration of the season following his draft or purchase, or any other player, at any time, shall be released under an optional agreement, waivers shall be secured from all teams in his classification at $1500, if he be a major league player, and $750 if he be an AA classification player. This paragraph, however, is subject to requisitions eleven and twelve.

Twentieth—Waivers having been secured, as set forth in either of the two foregoing paragraphs, eighteen and nineteen, a player may be released under an optional agreement at any price which shall be the same for all classifications, by tendering him to the lower classifications, according to their priority in grade; provided, however, that in all cases where waivers are to be secured from the AA classifications they need be secured from only the International League and the American Association.

One of the big eastern universities is reported to be about to adopt moving pictures in the development of its team.

Gladiators of the Modern Ring Are the Same Race Types as the Soldiers of the Armies of Forgotten Days—Why Willie Ritchie Is Like the Swiss Mercenaries.

BY HARRY CARR.

THE arrival of Benny Chaves to battle with Eddie Campi at Vernon brings another Mexican gladiator into the arena against a Frenchman.

To my mind the most interesting element of sporting life are these conflicts between race characteristics.

I like to imagine that the shades of the great warriors of the past are sitting in the glorious halls of Valhalla around their wassail bowls rooting for these little fighter boys in whose veins run their blood.

One can imagine how the ghosts of the old Norsemen watch with jealous eyes the achievements of Bat Nelson and Johnny Kid Williams. And how the departed spirits of those fighting demons of Caesar's legion beam down upon the sturdy courage of Johnny Dundee. The "Old Guard" who followed Napoleon smile, no doubt, to see the blinding speed and whirlwind tactics of the Little Corporal repeated in the boxing of Eddie Campi.

Cortes and Balboa and the old heroes in Spanish armor no doubt feel a sadness to see in Joe Rivers and Aurelio Herrera, the same elements of brilliant failure that they themselves possessed. And I dare say the Black Napoleon, Toussaint l'Ouverture, feels some degree of satisfaction in seeing Sam Langford topple over the white men.

* * *

It is astonishing to observe how the race characteristics of the fighters of long ago crop out in the little boxers of today.

The two matches between Johnny Dundee and Johnny Kilbane were, over again, Caesar's conquest of the Gauls. The Irish boy brought the brilliancy and genius of the Gallic soldier, the Italian the stolid, unimaginative courage and deadly purpose of the Roman legionary.

Being limited to two short combats, the Gaul won; but had they fought every day for a week, as Caesar fought, Dundee would have worn down the Celt and beaten him by sheer strength and endurance.

The two most brilliant boxers in the game today are Irish boys—Packy McFarland and Kilbane. But, like the Gallic warriors of old, their hearts are not really in the game.

In spite of the genius of their fists, neither Kilbane nor McFarland like the business of fighting. They dread to have their faces marked.

The favorite fighting arm of the Gauls was light cavalry. That's just the way Johnny Kilbane and Packy like to fight. The swift attack—and out again. They dread the prolonged agony of slow concentrated thumping. That's why Caesar wiped up the scenery with the Gauls; that's why Kilbane would lose in the long run to an Italian.

The Gauls cleaned up everything in sight until they came to the Italians, who could endure like truck horses, and who made a cold-blooded business proposition of battle—and loot. So, with the present-day Irish. They are being driven from the ring by commercialism. A fight with signed articles of agreement; business managers and long period of preparation with training machinery is no kind of fight for an Irishman.

Some day, Packy McFarland will fight a really terrific battle, but it will be in a street car in defense of an insulted girl.

* * *

The Italian boxers show the qualities that made Caesar conqueror of the world. They enjoy fighting. They fight exactly as well losing or winning.

They have tremendous physical strength, enormous staying qualities. Most wonderful asset of all, they have no nerves. They never quit.

Jim Flynn, Frankie Conley, Johnny Dundee and the other Italian fighters seem to have in common the ability to endure pain unlimited. I don't know whether or not the soldiers of Caesar could be slammed around without being hurt much, but I dare say they weren't very tender, considering what they went through.

These boys also resemble the soldiers of the great Caesar in this: that they are never overawed by the reputations of their antagonists. All foes looked alike to the legions of Caesar (although the old boy several times had to do some tall talking to his men) and all boxers look alike to Conley and Flynn and Dundee.

* * *

Let us next take up the Germans. The last two boxers to hold the lightweight championship of the world have been Germans—Ad Wolgast and Willie Ritchie.

Ritchie's father, old Mr. Steffen, looks like a Swiss, and Willie also looks like a Swiss. Certainly he is to all intents and purposes the old Swiss mercenary soldier born again. In the days of old the Swiss mercenaries fought the battles of all Europe for coin. That's Willie. The only question that interests Willie is the size of the house. Glory and fame fascinate him not. Once paid, he will earn his money, like the Swiss guard, by patient, honest slaughter.

Ad Wolgast is the perfect type of the German warrior of the Black Forest. He is of heroic courage, overbearing, belligerent and hopelessly matter-of-fact. The boy who fought and knocked out Tommy McFarland with a broken arm, fainting from pain at the end of every round, is a worthy successor of Ariovistus.

* * *

I am willing to stand on the statement that little Bat Nelson is one of the bravest men the world has seen. I do not believe any deed of heroism of the glorious past would have appalled him. In his veins runs the blood of the old Norsemen. Like them, he fights, reckoning neither danger, odds, pain, disaster nor hope of reward; he fights ravenously because he is a glutton for combat. I dare say Eric the Red, after he got to be old, went hobbling around daring everybody to fight and getting regularly licked, like the Battler.

* * *

Sometimes we hear people marveling that so many Hebrew boys have turned boxer. But they forget that the soldiers of David held all the heavyweight championships in their day. No doubt they were brave and crafty after the manner of Abe Attell and Leach Cross. These two boys are by far the smartest the ring has known. But don't imagine they are not brave. If you doubt their courage they will fling away science, stand toe to toe and slug with anyone. A peculiarity of the Jewish boxers is their indifference to the odds against them. Other boxers will haggle over an ounce difference in weight, but Cross or Attell are willing to let the other fellow weigh a ton. And we seem to remember that David did not demand ringside weight of the giant Goliath. Abe and Leach are in this, true sons of David.

* * *

So you could go on comparing the fastidiousness of the British troops with the "style" and dapperness of the English boxers of today.

You could show how the Spanish boxers of today are like the Spanish conquerors of old who fought wonderfully until the ultimate reward seemed in sight, when they allowed themselves to be switched off. The Spanish conquerors and the Spanish boxers were both prone to blow in the home stretch. Joe Rivers might be able to explain why it was that the heroes of Spanish conquest all died disappointed failures.

Columbia University has invited 200 schools to enter runners in its annual cross-country run on November 15. Cornell will hold its first interscholastic cross-country run at Ithaca the same day. University of Pennsylvania holds a series of runs, concluding with a scholastic championship each Thanksgiving Day.

I am a masterpiece.

It took years of care and patience to produce my clever blend.

The first step was the selection of pure, wholesome tobacco, the best that grows.

Next was the combining of these leaves by experts to produce a cigarette of aromatic mildness.

Through many years the uniform quality of my Turkish blend has been pleasing smokers everywhere.

I am FATIMA, the cigarette of the nation.

MOVEMENTS IN SOCIETY.

Mrs. Earle F. Snowden,
formerly Miss Constance Cunningham, who was married last evening in the West Adams Methodist Episcopal Church.

...NEY-GEN, AND MRS. ADNA R. ...HAFFEE of Magnolia avenue ...ertained last evening at a dinner ...given in compliment to Mrs. Adna ...haffee, Jr., and her mother, Mrs. ...Dodson of Ft. Riley. The table ...decorations with a centerpiece of ...ellow roses and cards bore the names of Mr. and Mrs. James Harvey Adams, Mr. and Mrs. Henry Carlton Lee, Mr. and Mrs. Richard Schweepe, Miss Molly Adelia Brown, Miss Lucy Clark, Morgan Adams, Ernest Benjamin and John Riddell.

Cunningham-Snowden Wedding.

Several hundred friends responded to invitations issued for the wedding last evening of Miss Constance Cunningham, daughter of Mrs. Harriet P. Brooke, and Earle F. Snowden, son of Councilman John W. Snowden, and the service, solemnized in the West Adams Methodist Episcopal Church, was impressive. Dr. B. F. Coultas of Whittier united the young people under a bower of chrysanthemums and ferns.

The bride entered on the arm of her brother, Richard Cunningham. Her gown was fashioned of white crepe de chine relieved with filmy lace. Bride roses and valley lilies composed the bouquet. Miss Mildred Snowden in pink crepe de chine and lace assisted as maid of honor. Her attire was completed with a shower and wreath of Cecil Brunners. Little Harriet Chisholm, niece of the bride, carried the ring in a bronze basket filled with rose petals. Lawrence White was best man, and the ushers were J. Lanfield, Ray Creighton and Linton Smith. Following the ceremony a reception was held in the church parlors. A month's outing in San Francisco will be enjoyed.

In Azusa.

Mr. and Mrs. W. S. Hook, Jr., with Mr. and Mrs. W. H. Holliday are enjoying a day or so at the W. S. Hook ranch at Azusa.

To Entertain.

Mrs. William T. Bishop, Jr., of West Adams street will entertain November 1/ with a dinner party complimentary to Miss Elizabeth Bishop, who will be a bride of the same month.

From Peoria.

Mrs. E. E. Elliott of Peoria, Ill., is the guest in this city of her sisters, Mrs. Floyd Baker and Mrs. M. A. Knable.

Home Again.

Miss Mary Maxwell of this city, who has been passing six weeks with her aunt, Mrs. Elston, at the Stratford Inn at Del Mar, has returned home.

At Ocean Park.

Mrs. James Chalmers of Ocean Park, entertained with one of the large affairs of the current week, at the King Edward Hotel Wednesday evening, to which 100 guests were included. The rooms given over to the evening were embellished with palms, ferns, ox-eyed daisies. Assisting Mrs. Chalmers were her daughter, Mrs. L. L. Vogel, Mrs. Stanford Parker of this city; Mrs. Charles Davis, Mrs. Carrie Benson and Mrs. Frank Griffith of Ocean Park. Bridge and whist occupied the forepart of the evening, when elaborate refreshments were served, after which dancing was enjoyed until midnight.

Whist prizes were won by Mrs. W. Phillips and Harry Scofield and bridge by Mmes. John P. Denis, W. H. L. Symington, Mr. and Mrs. C. B. Keasbey, and Messrs. George Maxon and Frank C. Sharp.

White Shrine Social Club.

A cafeteria style luncheon was the innovation planned by Mrs. A. K. Potter at her home, No. 222 North Coronado street, honoring members of the White Shrine Social Club. The tables were enlivened by crimson geraniums and assisting the hostess was Mrs. Ella Fleck and Mrs. Nettie E. Bartlett. Covers were laid for Mrs. Freda Gibson, Mrs. Louise M. Bruce, Mrs. Katherine Rupard, Mrs. Alice M. Knotts, Mrs. A. Lloyd, Mrs. F. Wiggins, Mrs. Lulu B. Taylor, Mrs. Elsa Van Court, Mrs. Barbara Miller, Mrs. Sue Reynolds, Mrs. Nellie Dusoe, Mrs. Elizabeth Brown, Mrs. Ethel Robbins, Mrs. Alice Dixon, Mrs. E. Schoenman, Mrs. A. Rawson, Miss Emma Scheer, Mr. and Mrs. Henry Parlee, Mr. and Mrs. E. C. Jordon, Dr. and Mrs. W. S. Gibson and Walter F. Adams.

Bride-elect Honored.

Miss Elizabeth Parker, whose engagement to William Alvin Sumner was recently announced, was the honoree at a miscellaneous shower given by her cousin, Mrs. Harry Herbert Baskerville and her aunt, Mrs. S. E. Dalton of No. 1156 West Fifty-fifth street. A pretty arrangement of cosmos and English ivy, with its beautiful autumn tints, formed effective decorations. Covers for a dainty collation were held for Mrs. C. E. Sumner, Mrs. Frederic P. Dalton, Mrs. F. M. Parker, Mrs. James S. Hall, Mrs. Perry M. Parker, Mrs. Emile V. Parker, Harold St. Clair Garber and Mrs. Perry B. Parker.

Mrs. Stose Entertains.

Complimentary to Mrs. James C. Rives of Downey, Mrs. Willis C. Stose of No. 2658 Romeo street, will entertain with a large reception in November.

To San Francisco.

Mr. and Mrs. George D. Roberts of Hotel Alvarado, with a party of friends will motor to San Francisco, stopping en route at Santa Barbara and Del Monte. They plan to enjoy Portola week in the Bay City.

REAL SONG IN "QUAKER."

Musical Director James Is Responsible for It.

Has Peggy O'Neill Married Tim Frawley?

Eltinge Loses His Slipper Like Cinderella.

BY GARDNER BRADFORD.

There is so much that is new and interesting in "The Quaker Girl" as Oliver Morosco is going to produce it at the Burbank next Sunday that it just seems natural to want to drop into rehearsal now and then and watch Harry James and Morgan Wallace whip the piece into shape.

And just because I did that very thing yesterday I ran onto a surprise. There was an octette of really splendid singing boys, doing some real harmony, which I knew, from having heard the show many times before, was not part of the original Quaker Girl's lilting music.

So I advanced on the enemy, made the chorus girls wait, one foot in air, until I got an explanation. Harry James, who is musical director, blushed, stammered and stalled, and finally admitted that he wrote it himself.

Well, it's good, and I miss my guess if it isn't one of the hits of the show. Harry Girard, whom we all know, will lead it, and then the male octette takes a hand. It is called "That's What I Tell Them All."

Speaking of this chorus, it ought to be immense, and reminds me once again of that famous song in William Lorraine's "Peggy From Paris" which goes, "They Call Us the Chorus, But We Are the Principals."

Selma Paley, Lillian Tucker and Reece Gardner, to say nothing of the new members of the cast, will have to step lively to keep pace. You see, a chorus in practice clothes is at a disadvantage, and when they look good in that garb, what must they be with their war paint on.

Does anyone know if Peggy O'Neill and old Tim Frawley have slipped one over on us and got married? Honest, I'd like to know, for the report has come to me both around town and on the wire. I print it as a rumor just so if it is true someone else won't have beaten me to the story.

Personally I hope it isn't, for while it might be possible that kid O'Neill might be very happy in wedlock with old man Frawley, her future would most likely go up the spout as far as things theatrical are concerned.

You see Peggy O'Neill is the little girl whose success in "Peg o' My Heart" has even exceeded that of Laurette Taylor, and she has come to be regarded as the only young girl on the stage who will possibly put Mrs. Fiske, Viola Allen and the other stars of a decade ago in the shade.

Somehow the public wants its leading women and its matinee idols to be single, or at least, if they are married, not let anyone know about it. Somehow it takes the romance out of the play to remember between acts that hubby or wifey at home is fixing up a box of onion hash to bring down between acts, so that the Thespian better half will not receive the stocking-footed Julian, will get a pair of seats for the show. Now if Manager Wyatt doesn't make this good I'll buy them myself.

Raoul Laparra,
Composer, just arrived here.

The Auditorium.

The Tivoli Opera Company, now playing at the Auditorium, will put on Millocker's masterpiece, "The Beggar Student," next week. This popular organization continues to delight with its comic opera, and it is a delight to those musically to know they will remain a fourth week.

Foreign Composer.

RAOUL LAPARA; FIRST VISIT.

Talented Musician Here to Write California Opera.

Modern Composer Favorite Pupil of Massenet.

Wallenstein's First Recital at Gamut Club.

BY HECTOR ARLOT.

Los Angeles acquired yesterday a notable musician in the person of Raoul Lapara, the composer, who just arrived from Paris.

The favorite pupil and friend of the great Massenet has come here for the purpose of writing, on the ground, a grand opera with California as the center theme.

It is his intention to remain in Los Angeles indefinitely, as he desires to become acquainted with, and carefully study the life and customs of our El Dorado, which have for years fascinated him from afar.

In 1908 he was able, after a protracted stay in Spain, to give his three-act musical lyric drama, "La Habanera," which was the success of that season at the Opera Comique in Paris and has since been played in most capitals of Europe. It attracted great attention in Boston, where it was played last season.

In this opera, based on the Habanera dance, like in his "La Jota," the second of his trilogies of the drama associated with dance and music, Raoul Laparra has been recognised as an innovator in musical composition, and as a poet of merit, for he has not only written the music of his operas but the libretti as well.

He was the pupil of Diemer at the Conservatoire, and obtained the first prize of that institution as pianist composer; in 1903 he secured the "prix de Rome" for composition, the highest recognition of merit in that field.

Since then he has followed the footsteps of his master, Massenet, and has spent much time in travel among the people of Southern Europe. The latest result of his observations of ethnic music is "Aventure Pittoresque," a

(Continued on Eleventh Page.)

Two footlight sensations.

Above is Saharet, who will headline the Orpheum bill next week. If one is to believe advance reports Los Angeles will not see her as heavily clothed as she is in the picture. Below is Julian Eltinge, as himself and as "The Fascinating Widow." He plays a Return engagement at the Mason next week.

read kisses from the hero or heroine as the case may be.

That was the trouble with Bill Desmond when he came back from Australia and went to the Morosco. Too much was said about Bill's sick wife, and right away the girls wouldn't look at him any more. So if little Peggy O'Neill has gone and got married on the eve of great success, I'm sorry, and there are certain other parties who won't be pleased either.

This Saharet, who comes to the Orpheum Monday in sensational dances, claims to do her Salome with nothing on at all. Well, if they bar September Morn from the shop windows, I see where we have an unscheduled kimono dance at the Orpheum. The big idea is to go and see her Monday, because it is a cinch that our long-haired government, and believe me it has grown longer even than it used to be, will certainly want to see the lady themselves, before they prevent the rest of the public from taking a peek.

Who is the Cinderella who stole Julian Eltinge's slippers? It happened at Riverside, according to reports, though when they tell me the heels were studded with rhinestones worth $400 I get skeptical.

Anyway, the girl who has a pair of rhinestone-studded slippers that will

Pasadena.

APPROVES IDEA, NOT METHOD.

Chief Forester Graves Points Way to Pasadenans.

Board of Education Tells of Its Intentions.

Outlines Purposes of the Proposed Bond Issue.

PASADENA, Oct. 24.—That he fully approves of the effort being made by the Pasadena Board of Trade to have part of the Angelus forest reserve made a national park, but that he is of the belief that the same object might be accomplished more quickly by establishing, instead, a State game preserve, is the opinion that was voiced yesterday by United States Chief Forester H. S. Graves at the luncheon given in his honor at the Hotel Maryland. Regarding the project, he said in part:

"It has been suggested that the Angelus forest be made a national park. Such a form of withdrawal would have as its first problem, fire protection, as now. The advantages of the park would be a somewhat closer control on the people entering the area. The difficulties are that it is hard to secure legislation establishing a park; there would probably not be any larger expenditure of Federal money; the protective administration would lose in not being coordinated as closely as now with the experienced and seasoned organization of the forest service; the area would doubtless be smaller than the present Angelus forest, and the balance would not be of a character to be feasible to retain as a national forest, hence the withdrawal of public protection from that part not included in the park. Personally, I should not object in any way to seeing a park here, but I have some considerable question whether it would accomplish just what you require, as quickly or perhaps as effectively, considering the interests of the whole region, as the securing of larger authority to meet the special needs of certain areas in the forest."

In another part of his address Graves said:

"As I see it, we must look to a development of these brush forests like the Angelus, of a very extensive character. We must have many miles more of trails and fire lines. I regard the work so far done as only the beginning. It means a large amount of money, but this must be measured by the value of the interests insured by the expenditures. In addition, there must be at certain points a larger control of the movements of the hunter and the tourist camper. Personally I should like to see the whole Angelus forest a game preserve, and I have no doubt that you can get this from the State Legislature, if the public here favors it.

"What is absolutely necessary in protecting these forests is the active support of the public. Here on the Angelus you have given this in the heartiest way, both moral support and substantial aid in financial contributions. We have not had an equal cooperation in some other places. For example, a few years ago a large area was added to the Cleveland forest at the request of the citizens of San Diego. Today there is a vigorous agitation to have the government burn off the city watershed. The San Diego Chamber of Commerce has petitioned to have this done on the grounds that it will benefit the city water. As a matter of fact it would in the long run result in a great injury to that watershed.

"In the work on the areas which chiefly concern you here, at and near Pasadena, I felt that plans should be made this winter for a greater immediate security than now exists. The problem touched first is the matter of money. We are now spending about $55,000 on the Angelus forest, aside from some $15,000 contributed locally. This money is distributed with great economy and every cent is needed just where it is expended. Mr. Charlton has a splendid organization, and I am proud of the work he and his loyal rangers are doing. As a practical question I doubt whether we can look for substantially larger Federal appropriations. In fact, I believe that it is reasonable to suggest that in spite of the very generous support we are receiving, even larger local help might be given where local interests demand and justify it. I have suggested that in the watershed supplying Pasadena the city might be willing to aid by supplying the means for a larger number of patrolmen. If we need more authority in controlling tourist campers, I will gladly co-operate in asking our committee in Congress to grant it. What is needed is not merely to make these critical areas pretty safe, but absolutely secure. I believe it will be worth to you every cent you are willing to contribute."

The luncheon was one of the largest attended that the Board of Trade has ever given. Another speaker was T. M. Elliott, international secretary of the Young Men's Christian Association, who spoke on conditions in China.

Chief Forester Graves came to Pasadena early in the morning and, with C. D. Daggett, T. P. Lukens and Maj. F. R. Burnham, passed the forenoon inspecting such parts of the Pasadena watershed as could be reached by automobile. He left immediately after the luncheon for Riverside.

LIST OF IMPROVEMENTS.

A statement which was issued yesterday by W. S. Grassie, a member of the Board of Education, gives the following list of improvements that are to be made in the city school system with the proposed $156,000 bond issue to be voted on next month, if the bonds are approved:

"William Cullen Bryant school (Linda Vista)—Additional grounds; excavation of basement for additional school room; retaining wall.

"Columbia school—Sanitation and new toilet building.

"James A. Garfield school—Additional grounds and industrial building; drainage for basement of main building.

"Ulysses S. Grant school—Additional ground, sanitation and changing of air intake; drainage from foundation; new floors in basement.

"Thomas Jefferson school—Drainage from foundation; outside entrances to toilets.

"Abraham Lincoln school—Fire escapes.

"Henry W. Longfellow school—Retaining wall; manual training and domestic science rooms in basement.

"James Russell Lowell school (Altadena)—New one-story building of nine rooms, each room having an outside exit, building also to have room for branch of county library and to be equipped with manual training and domestic science rooms.

"James Madison school—Building for manual training and domestic science, with an assembly hall; lumber to be furnished for pergola, which will be erected by manual training students.

"John Muir school—Overhauling repairs to and ventilating of toilets; overhauling of heating plant and cafeteria; installing of outside drinking fountains.

"Theodore Roosevelt school—Additional grounds; bracing of kitchen roof; alteration of toilets; installing of manual training and domestic science rooms in basement.

"George Washington school—Additional lots; separated outside toilet buildings; inside and outside alterations.

"John G. Whittier school (Lamanda Park)—New building on property now owned on East Colorado street, Lamanda Park, to take care of all grades, including kindergartens, equipped for manual training and domestic science, rooms for branch of county library and with an ample assembly-room.

Raymond-avenue and Ritzman-street property—New one-story building on above property to meet requirements of that district."

Hotel Vista del Arroyo, Pasadena. —[Advertisement.

WILL INVADE LOS ANGELES.

Porterville Boosters Laying Plans Deliberately to Capture Southern City—Fruit Shippers' Agreement.

PORTERVILLE, Oct. 23.—Porterville Boosters are making plans for a special train which is to be run to Los Angeles in the near future, and which will carry to the southern city upward of 150 of the business and professional men, orange growers and dairymen of this city and district, who will be charged with the task of spreading the Porterville district gospel among the thousands of land seekers now in the southern city.

It is planned to have each member of the excursion wear a distinctive costume, and all will be provided with suitable banners and a supply of Porterville literature. It is probable that a parade through a portion of the business district, headed by the Porterville band, will be a feature of the Los Angeles visit.

Assurances have been received from the Southern Pacific Railroad that everything possible will be done by the company in assisting in the plans.

ONE EXCEPTION.

With a solitary exception every orange grower of the rich Worth district and every grower of the Plano district signed resolutions recently prepared by the Porterville Citrus Protective League which practically pledge them not to pick and ship early Navels out of this district prior to November 15. This report was made at a meeting of the league yesterday at the Chamber of Commerce when committees appointed to take charge of the circulation of the resolutions presented the signatures.

It was also reported that as far as Porterville, Zante and Success districts have been canvassed, the sentiment is practically a unit.

These resolutions are to be presented to the various packing-house companies, officials of which will be urged to keep their houses closed until after the date named.

RIVERSIDE MAYORALTY.

RIVERSIDE, Oct. 23.—[Exclusive Dispatch.] That the city is to have one of the most interesting contests for the office of Mayor that has so far held the municipality in its grip, is assured by the well-confirmed report in circulation tonight that Mayor Peters has consented to become a candidate for re-election. Two candidates are already in the field—Councilman Bradford Morse and former Councilman Oscar Ford. All uncertainty as to whether the Mayor would be a candidate seems to have been set at rest by the activity of his friends who, at a conference this afternoon, urged that he enter the contets if for no other reason than to see the waterworks improvement carried through to completion.

San Bernardino.

SPANISH DON PASSES AWAY.

San Bernardino Pioneer Dies in Old Mexico.

Highway Commission Considers Roads.

Auto Drivers Want Storm Waters Under Control.

SAN BERNARDINO, Oct. 23.—Manuel Baca, formerly one of the most prominent of the Spanish people in this valley, died yesterday at Cananea, Mex., according to word received this afternoon by relatives here.

Two months ago he visited this city and was operated upon at the County Hospital for an old malady. At the time it was thought that he never would recover from the effects, and his death yesterday was a result of the operation. He was 65 years old and all of his immediate family were with him.

The Baca family of the early times was the most prominent Spanish family in the valley, and many of the present residents are descendants of the deceased. For twenty years Baca was treasurer of the local Knights of Pythias Lodge. He was engaged in the wholesale butchering business prior to his departure from here ten years ago for Mexico for his health.

INVESTIGATE TYPES.

With a view to closing up their report as early as possible, members of the County Highway Commission have this week been in Los Angeles and Orange counties investigating kinds and costs of various types of roads. The type of road to be recommended is one of the hard nuts the commission has to crack. The bad showing made by macadam in many places has caused them to hesitate about that type of highway. The concrete road, similar in type to the type being used by the State, is being considered, though it is probable that a heavier base will be proposed than used on the State roads.

An effort is being made to complete the report by November 1, with a view to having the bond elections called in this and Riverside counties on the same date.

STORM WATER EVIL.

Auto drivers and teamsters using the mountain roads are making a strong effort to get Supervisor Butler to put in permanent culverts for carling for the storm water during the winter season, instead of permitting the cutting of deep turnout ditches as has been the custom for years.

Rigs not infrequently get stalled in these ditches and they are also hard on vehicles. By placing corrugated iron permanent culverts the water could be cared for and the road kept in good shape at the same time. The winter travel is heavy on the mountain roads, a condition that is in contrast to the condition formerly prevailing when there was very little travel. Autos and the keeping open of the mountain resorts during the winter have created a heavy winter traffic.

ATTEND APPLE SHOW.

A large party of local boosters this afternoon filled about twenty-five automobiles for a trip to the Yucaipa apple show which opened this morning and which will continue over tomorrow. The trip was made under the auspices of the National Orange Show and the autos were decorated with pennants and flags. A baseball team from this city went up to meet the Yucaipa team. This evening the Associated Chambers of Commerce of the county met at Yucaipa, being the guests of the apple show association for a banquet. Delegates were present from all parts of the county. The Yucaipa show is the first real apple show ever held in Southern California.

Contractor J. H. Hilend, who is to build the Mill creek road to Bear Valley for the county in company with County Surveyor Bright left today for the canyon to look over the work and arrange for the establishment of the first camp. A large force of workmen will be put on the job at once with a view to getting the work as well under way as possible before the heavy winter snows and storms come on. The necessary equipment will be moved to the canyon the fore part of the coming week.

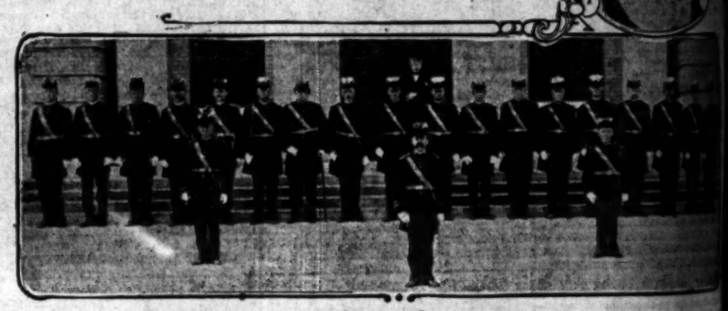
J. R. Dickson, charged with bigamy, was arraigned today in the Superior Court and he expressed his intention of pleading guilty and taking his punishment. Dickson was arrested in the North on the charge of a San Bernardino girl that he had married her while having a wife living in [illegible], Conn.

Peter McDonald, a horse [illegible] badly beaten up and under a physician's care, and T. Salas is in the County Jail, as a result of a brutal assault made last night on the former by the latter, following a dispute over pasture bills. Salas was under the influence of liquor at the time. McDonald is believed to have a fractured skull as a result of the attack.

The first case tried under the present term jury plan resulted in the conviction of Camillo Alvarado and Jesus Duran, who were charged with highway robbery, a fellow countryman having been their victim.

GLENDALE BRIEFS.

A pretty affair was the dinner party given by Mrs. C. H. Rowe at her country home in North Glendale. The occasion was given to celebrate the birthday anniversaries of Mrs. C. Rowe, Miss Iva Hunter and Master Robert Starkey. Autumn blossoms were utilized to brighten the long table and the various [illegible]. Those enjoying the affair were Mr. and Mrs. W. T. Starkey, Mr. and Mrs. Earl Starkey, Miss Grace [illegible], Mr. and Mrs. C. E. Rowe, [illegible] and William Rowe, Miss Iva [illegible], Joe Hunter, Mr. and Mrs. C. Starkey and son, Robert.



Pomona day.

The metropolis of that fertile valley was the scene yesterday of a celebration in which all of the surrounding [illegible] participated. Above may be seen a portrait of W. R. Carper, chairman of the Executive Committee and [illegible] Canton, I.O.O.F., which participated in the parade.

Fetching.

PASADENA FLOWER SHOW OPENS AUSPICIOUSLY.

PASADENA, Oct. 24.—The opening day of the fall flower show yesterday was the occasion of the most brilliant social gathering there has yet been this year. Society took an active interest in the exhibition and patronesses and judges were chosen from among the best-known society women of Pasadena and Los Angeles, while a bevy of society women served tea in the tent on the Hotel Maryland tennis courts, where the show is staged. This is the first time tea has ever been served at a local flower show, although it has been the custom to serve tea simultaneously at the hotel.

The teatable yesterday was set in the midst of immense bouquets of chrysanthemums none of which was less than six inches across, and there were both the music of an orchestra and the singing of more than a score of canary birds.

Tea was poured by Mrs. Hampton Story and Mrs. Sherman Hoyt. They were assisted by Mrs. W. W. Spinks and her niece, Miss Leonora Ross of Vancouver, B. C., who is visiting here; Mrs. Adalbert Fenyes, Mrs. David Van Slyck, Mrs. B. B. Bush, Mrs. F. W. Kellogg of Altadena and Mrs. Fitz Herbert West of Oak Knoll.

City Commissioner Metcalf opened the show at 2 o'clock yesterday afternoon, with a short address. The show is by far the most popular that has ever been given in the city and the tent was thronged all yesterday afternoon and last night. The judges were Mrs. Edward L. Doheney of Los Angeles, Mrs. E. M. Neustadt of Altadena and Mrs. Henry Clay French of this city. They viewed the blossoms before the doors were opened and made the awards. The list of prize winners is a long one. Chrysanthemums are more plentiful in Pasadena this fall than they have ever been before and the carnations and roses run a close second and third.

The show will be continued this afternoon and tonight and tomorrow afternoon and night. There will be music each afternoon and evening.

Tea and flowers.

Miss Leonora Ross of Vancouver, B. C., who with several other society women of Pasadena served tea amid the chryanthemums in the flower show tent this afternoon.

Joyous Occasion.

POMONA THRONGED WITH MANY MERRY MAKERS.

POMONA, Oct. 23.—The city was crowded with hundreds of visitors from all parts of the valley today, who came here to participate in the celebration of Pomona Valley Day, upon the programme for which General Chairman W. R. Carper and committees from the local business men have worked for weeks. With banners flying, bands playing and people cheering, the day started with the parade of pupils from the Pomona schools down Second street. Leading was the Seventh Regiment band, followed by Pomona Canton No. 3, I.O.O.F.—prize-winners in the recent Odd Fellow drill contest at Riverside—in dress uniform and under command of Capt. Grant McCain; Mayor Vandegrift and the members of the City Council, Superintendent of Schools Murphy, and the Board of Education, then the pupils of the different schools led by the school principals and teachers.

The High School girls made an attractive group and some of the football heroes in tattered regalia furnished plenty of "pep" with their yells and yodles. Pupils from some of the lower grade schools were specially dressed as small Indians, Yankee Doodle boys and fairy girls in white. The many hundreds of pupils ranging in size from the tiny kindergartners up through the primary and grammar grades to the High School, presented an inspiring procession. Never before has such a parade been seen here and it demonstrated well the importance of the public school in which this community takes so much local pride.

A feature of the parade was a large float representing Pomona Valley upon which rode young women from all of the valley towns with Pomona in the center. This float bore the slogan "In Union There Is Strength."

The business streets were decorated in tri-color bunting and American flags and the decorations of some of the business houses were elaborate.

Twenty-five large flags were used in decorating the First National Bank quarters. An exhibit of old-time pictures of residents and scenes of Pomona in early days, shown in the windows of the American National Bank attracted much notice.

There was a picture of Ignacio Palomares, the distinguished old don to whom was originally granted 18,000 acres of land, including the present site of Pomona, for services rendered in the rebellion of Mexico against Spain in 1821; a photograph also of his wife, Mrs. Concepcion Palomares, and a picture of Ricardo Vejar, grandfather of F. Z. Vejar of this city, who owned 14,000 acres near here with a homestead at Walnut. Another picture was of Bernardo Yorba, cousin of Ignacio Palomares, who was granted the Santa Ana Valley from Santa Ana to Corona, for valuable services also rendered in the Mexican rebellion against Spain in 1821.

The early street and building scenes of Pomona city, from 1884 up to ten years ago, with pictures of the first Board of City Trustees, were of much interest. Photographs of Cyrus Mills, organizer of the Pomona Land and Water Company and the first man to bore wells and pipe water to Pomona, and of Louis Phillips, one of the pioneers and largest land owners of the valley and father of George S. Phillips of East Holt avenue, were likewise shown.

There was something doing every minute of the day in the way of entertainment, foot races, automobile, relay and bicycle races, and a California "nightengale" race, which caused much merriment, the burros having been obtained from one of the canyon camps north of here.

A tug-of-war and a baby show each had its rooters, and the wrestling, boxing and athletic exhibitions given during the day by members of the Los Angeles Athletic Club on a raised platform on South Thomas street, attracted large crowds. In the afternoon there were potato, sack, peanut, barrel and three-legged races on the business streets. Three bands and two companies of jubilee singers furnished music on the streets all day to the enjoyment of the crowds. Restrooms were provided for the women and children in different buildings on Second and Main streets, and the roof garden of the Pomona Investment building was visited by scores to obtain the beautiful view of Pomona Valley therefrom.

This afternoon many school children arrived from Lordsburg, La Verne, Ontario, Upland, San Dimas and Chino, the schools having been closed, and these augmented the crowds of people already present from these places. Everyone had a good time and the spirit of goodfellowship and the "boost for Pomona Valley" idea prevailed.

All of the local stores offered special bargains in many lines of merchandise and commodities, and were liberally patronized by the visitors, who came here in automobiles, every kind of horse conveyance, and on the steam and electric cars, reduced fares having been made by the railroads.

The festivities ended with the big parade of "horribles" on Second street this evening, and this feature was one of the surprises of the celebration. It was in charge of Maj. W. W. Midgley, and prizes were offered for the three most horrible entries. Many local institutions and individuals were "joshed" and represented in caricature in a good-natured way. The members of the committees having the successful management of Pomona Valley Day in charge were Wade R. Carper, general chairman; A. E. Tate, W. W. Midgley, A. S. Kraker, Jack Nugent, Ira Stabler, A. T. Green, Paul Marsh, A. T. Richardson, E. E. King, F. E. Whitehouse, K. Fritz, H. E. Schwichtenberg, C. P. Bayer, C. C. McKey, F. R. Willy, F. W. Balfour, H. Hanson, Harry Hillen and J. A. Brubaker.

DERELICT PARENTS GUILTY.

Man and Wife Arrested as Result of Permit Leaving Baby on Doorstep Given Poverty Assigned as Cause.

BAKERSFIELD, Oct. [illegible]. [illegible] their arrest at Taft by Deputy Sheriff Tracy Baker, Mr. and Mrs. [illegible] West confessed yesterday to [illegible] ing their infant child in [illegible] December 27, 1912. The child was left by its mother on the [illegible] Dr. Homer Rogers and placed [illegible] in the Children's Shelter. [illegible] Jonathan's right to [illegible] has been adopted by a childless [illegible]. The parents claim that [illegible] erty compelled the abandonment of the infant. For nine months [illegible] Sheriff has been on the trail of the Wests and has trailed them [illegible] Selma, Hanford and other [illegible] ways just behind the officers, [illegible] were aware of the pursuit. [illegible] Wests finally went to [illegible] West was employed by a [illegible] a black jack game. Mrs. [illegible] recognized in Bakersfield [illegible] were traced to Taft by means [illegible] The couple frankly admitted their guilt and were bound over to the Superior Court for trial and [illegible] and bonds placed at $1000.

WILL INCORPORATE.

That the Bakersfield Realty Board will become an incorporated body was decided at a meeting held [illegible] The purpose for which the board will incorporate is to facilitate [illegible] under way and enterprises that will come up in the future and [illegible] tee consisting of L. A. Brown, [illegible] Ballagh and G. [illegible] pointed to attend to [illegible] plan. The corporation is [illegible] purposes of making money, but it will have power to hold property and transact various lines of business. One idea of the board is to [illegible] the bogus concerns and [illegible] fealty in the county and to [illegible] that incorporation will greatly facilitate the handling of such matters. The board also received the report of the delegates to the State [illegible] convention at Monterey and a vote of thanks was tendered them for the good work in securing the convention for Bakersfield next year.

DAMAGE SUIT FILED.

A suit for $50,000 damages against the Southern Pacific Railroad Company, Railroad et. al., was begun in Judge Mahon's court yesterday. The action was instituted by C. T. Stanley, administrator of the estate of Dora Boyle, a teamster, who was killed on November 5, 1911, when his horse became frightened at steam issuing from an engine standing on the Southern Pacific tracks in [illegible]. The team ran away, the wagon struck a telephone pole, Boyle was thrown out, trampled on by the horses and then run over by the wagon. The case is conducted for the plaintiff by Attorneys [illegible] and C. N. Whitaker and for the defendant by Attorneys E. Borton and Rollin Lloyd.

ANOTHER BOND ELECTION.

SAN DIEGO, Oct. 23.—[By Day Wire.] A second bond election as the result of the failure of the people to cast the necessary vote for one proposition in the first election Tuesday, may be held in this city soon. In the election Tuesday the people voted for improvements to the water system which will be made unless the proposition is defeated by carrying $646,000 bonds. It is [illegible]

San Francisco

SUTRO BATHS

FOR SALE AT

AUCTION

TO CLOSE THE ESTATE

By order of the Executrix of the estate of Adolph Sutro, we will sell to the highest bidder, subject to the approval of the Superior Court, at our salesroom, 318 Kearny Street, San Francisco, at 12 o'clock noon,

Thursday November 20th 1913

SUTRO BATHS and about nine acres of ground, including the three acres covered by the buildings.

Sutro Baths are paying a profit even under the restrictions imposed by the Court on the estate management.

Given unhampered control and additional features, as concerts, convention days, theatricals, refreshments, water carnivals, dancing, aquarium, vaudeville, automobile parties, moving pictures, artificial ice skating, etc., and the investment will yield much larger profits.

Sutro Baths is the largest salt water natatorium in the world. The buildings are constructed of concrete, steel, wood and glass; three immense arched domes; power plant sufficient to run a railroad to the ferry, or to furnish light, heat and power to all the region around the baths, or for a large hotel with salt water tub baths; but now used only to heat the water and the buildings, run the laundry, etc., etc.

Detailed information and illustrated booklet on request.

SAN FRANCISCO, CALIFORNIA

Mr. Gordan Says—

—take these five men, for instance:
—Jones is an attorney
Brown's a physician
Thompson's a manufacturer
White's a manager
Smith's a salesman
—all of them and hundreds of their professional and business acquaintances wear Gordan-made clothes.
—They recognize the security given by the "Gordan" label on their inside coat pocket.
—They know that Gordan personally cuts, fits and supervises every detail of every suit.
—This fall the new soft-surfaced, hard-finished worsteds seem to have first call with them.
—Priced at $50, novel, though quiet, grays and browns are strong favorites.
—Also there's an endless variety in other weaves and patterns priced at $40, $45, $55 and $60.
—You'll find me as you step out of the elevator at the Third Floor.

First Arrival.

NOME STEAMER REACHES PORT.

Captain Reports but Little Destitution There.

Three of Stefanssen's Boats Have Sailed Into Ice.

Noted Arctic Trader Expects to Save His Vessel.

[BY A. P. NIGHT WIRE TO THE TIMES.]

SEATTLE, Oct. 23.—The steamship Victoria, the first passenger boat from Nome since the great storm, arrived today with fifteen passengers. All paid their fare and practically all would have come out even if there had been no storm.

Capt. John O'Brien of the Victoria says there is little destitution in Nome. Only one person was drowned in the storm, a miner named Morrison. Five lives were lost on the schooner Nora, wrecked fifteen miles from Nome.

Among the Victoria's passengers were Capt. John Backland, the noted arctic trader, and two of his men, who, after the beaching of the schooner Transit, near Cape Smythe, Alaska, August 25, made their way to Kotzebue (found in a whaleboat, by canoe. Capt. Backland expects to have the Transit next summer.

Capt. Backland reported that in August three of Stefanssen's exploring ships, the whalers Karluk and Mayflower, and the steam schooner Jeanie Gelkie, struck a lead in the ice west of Point Barrow and steamed away to the northeast. They have not been heard from since.

The vessels are said to be not strong enough to withstand ice such as they may meet, but if not carried too far from land the crew will be able to reach shore over the ice, if the boats are crushed.

Capt. Backland took with him when he left for Kotzebue $10,000 worth of furs, but left his bear skins, ivory and whalebone. When the Transit was beached 120 Eskimos helped to unload the cargo.

During the winter a cofferdam will be built about the bow of the Transit, the ice being chopped away. The leak will be stopped, the water will be pumped out, and next spring when the ice melts, the Transit will float, it is hoped.

ELIMINATE WASTE.

State Tax Association Is Organized at San Francisco to Promote Departmental Economy.

[BY A. P. NIGHT WIRE TO THE TIMES.]

SAN FRANCISCO, Oct. 23.—The California State Tax Association, an organization described by its founders as non-political and having as its first object the promotion of economy in the various departments of the State government, was launched at a meeting here yesterday. An advisory council of more than 100 members, representing every large city in the State, was appointed.

John A. Drum, president of a banking company of this city, who called the call for the meeting, was made temporary chairman. He explained that the object of the association was to eliminate waste in the collection and expenditure of taxes. Professor Carl C. Plehn of Berkeley, told of the work of the National Tax Association along similar lines.

By promotion of county associations throughout the State will be drawn up by the organization. It will collect, compile and publish data relative to State and local taxation and the expenditure of the revenue derived for the information of the public and to aid legislative and administrative action."

UNITES PARTIES.

Democrats, Republicans and Progressives to Present Gift to Miss Jessie Wilson.

[BY A. P. NIGHT WIRE TO THE TIMES.]

WASHINGTON, Oct. 23.—Democrats, Republicans and Progressives in the House are going to present a wedding gift next month to Miss Jessie Wilson, the President's daughter.

Republican Leader Mann gathered a hundred or more members today and proposed that Miss Jessie be remembered with a fitting gift. The proposition met with instant favor and Speaker Clark was designated to appoint a committee to carry out the plan.

HONORED BY EASTERN STAR.

Arnold Goodfriend of San Francisco Is Chosen Associate Grand Patron at Santa Cruz.

[BY DIRECT WIRE TO THE TIMES.]

SANTA CRUZ, Oct. 23.—[Exclusive Dispatch.] Arnold Goodfriend of San Francisco, was elected Associate Grand Patron, Order Eastern Star, at this morning's session of the Grand Chapter of California. This result was announced after a second ballot on 591 votes had been taken. Of the votes cast, Goodfriend received 502, Warwick Hammar of Vallejo, 496.

Mrs. Kate J. Willatts, who was Grand Secretary for the thirty-second Grand Matron. At her request, however, the prefix "Venerable" was dropped. Past Grand Matrons Emma Veach and Paulina Dohrmann of the Correspondence Committee reported that there was a general sentiment for the establishment of Eastern Stars in States where they do not already exist.

Past Grand Matron Rosa Burns reported on the proceedings of the last session of the general Grand Chapter. This afternoon several hundred representatives enjoyed an excursion to Mount Tamalpais, a beautiful grove of big trees. Tonight the order was exemplified by the Past grand officers, under the supervision of Grand Matron Martha G. Ballagh.

At a meeting of Past Grand Matrons and Past Grand Patrons Association the following officers were elected: President, Mrs. Chlo A. Craig; Vice-President, George L. Darling; Secretary, Mrs. Clara A. Gibberson.

The sessions will close tomorrow, the next place of meeting will be chosen and the new officers in-

DERELICT PARENTS CAUGHT.

Man and Wife Arrested at Taft Admit Leaving Baby on Doorstep.

Poverty Assigned as Cause.

BAKERSFIELD, Oct. 23.—[By Associated Press Wire.] The arrest at Taft by Deputy Sheriff Tracy Baker, Mr. and Mrs. Henry West confessed yesterday to abandoning their infant child in Bakersfield December 27, 1912. The child was left by its mother on the doorstep of Dr. Homer Rogers and placed by him in the Children's Shelter. It has since been adopted by a childless couple. The parents claim that extreme poverty compelled the abandonment of the infant. For nine months the Sheriff has been on the trail of the Wests and has trailed them to Fresno, Selma, Hanford and other towns, always just behind the couple, who were aware of the pursuit. The Wests finally went to Taft, where West was employed by a dairyman named Jack Gaines. Mrs. West was recognized in Bakersfield and her arrest traced to Taft by Sheriff Baker. The couple frankly admitted the guilt and were bound over to the Superior Court for trial and their bonds placed at $2000.

WILL INCORPORATE.

That the Bakersfield Realty Board will become an incorporated body was decided at a meeting last evening, the purpose for which the board will operate is to facilitate business under way and enterprises that will come up in the future and a committee consisting of L. S. Hawson, R. S. Gallagh and G. W. Premo was appointed to attend to details of the incorporation. The corporation is not for the purpose of making money, but it will have power to hold property and will transact various lines of business. The idea of the board is to weed out the bogus concerns now existing in the city in the county and it is believed that incorporation will greatly facilitate the handling of such matters. The board also received the report of delegates to the State Federation convention at Monterey and a vote of thanks was tendered them for the good work in securing the convention for Bakersfield next year.

DAMAGE SUIT FILED.

A suit for $50,000 damages against the Southern Pacific Railroad, the Santa Fe railroad et. al., was begun in Judge Shahon's court yesterday. The suit was instituted by C. Y. Ramos, as administrator of the estate of Gregorio Regis, a teamster, who was killed November 5, 1911, when his team became frightened at steam blown from a locomotive engine standing on the Southern Pacific tracks in East Bakersfield. The team ran away, the wagon struck a telephone pole, Regis was thrown out, trampled on by the horses and run over by the wagon. The case is conducted for the plaintiff by G. E. Whitaker and T. N. Haines, while the defense is represented by Borton and Rollie Laird.

ANOTHER BOND ELECTION.

SAN DIEGO, Oct. 23.—[By Associated Press Wire.] A second bond election, the result of the failure of the people to cast the necessary vote for the proposition in the election Tuesday, may be held in San Diego in the future and a committee consisting of L. S. Hawson, R. S. Gallagh and G. W. Premo was appointed to attend to details of the incorporation. The corporation is not for the purpose of making money, but it will have power to hold property and will transact various lines of business. The idea of the board is to weed out the bogus concerns now existing in the city in the county and it is believed that incorporation will greatly facilitate the handling of such matters. The board also received the report of delegates to the State Federation convention at Monterey and a vote of thanks was tendered them for the good work in securing the convention for Bakersfield next year.

First Arrival.

HOME STEAMER REACHES PORT.

Reports but Little Destitution There.

of Stefansson's Boats Have Sailed Into Ice.

Arctic Trader Expects to Save His Vessel.

[BY A. P. NIGHT WIRE TO THE TIMES.]

SEATTLE, Oct. 23.—The steamship [illegible], the first passenger boat from [illegible] above the great storm, arrived [illegible] with fifteen passengers. All [illegible] their fare and practically all will have come out even if there [illegible] no storm.

[illegible] John O'Brien of the Victoria [illegible] there is little destitution in [illegible]. Only one person was drowned [illegible] storm, a miner named Morri[illegible]. Five lives were lost on the [illegible] Nora, wrecked fifteen miles [illegible] Rama.

[illegible] the Victoria's passengers [illegible] Capt. John Backland, the noted [illegible] sailor, and two of his men, [illegible] after the beaching of the [illegible] Dream, near Cape Smythe, [illegible] August 21, made their way [illegible] Nome in a whaleboat. [illegible] Capt. Backland expects to [illegible] to Nome next summer.

[illegible] Backland reported that in [illegible] crew of Stefansson's explor[illegible] the whalers Karluk and [illegible] and the steam schooner [illegible] Barrow and steamed [illegible] to the northeast. They have [illegible] heard from since.

[illegible] are said to be not [illegible] to withstand ice such [illegible] may meet, but if not carried [illegible] and the crew will be able [illegible] shore over the ice, if the [illegible] crushed.

[illegible] Backland took with him [illegible] left for Kotzebue $10,000 [illegible], but left his bear skins, [illegible] whalebone. When the [illegible] was beached 120 Eskimos [illegible] unload the cargo.

[illegible] winter a cofferdam will [illegible] about the bow of the Tran[illegible] being chopped away. The [illegible] stopped, the water will [illegible] out, and next spring when [illegible] the Transit will float, it

[illegible] WASTE.

[illegible] Association Is Organized [illegible] Francisco to Promote Economical Economy.

[BY A. P. NIGHT WIRE TO THE TIMES.]

SAN FRANCISCO, Oct. 23.—The [illegible] State Tax Association, an [illegible] described by its founders as non-political and having as its [illegible] the promotion of economy in the various departments of the [illegible] government, was launched at a meeting here yesterday. An advisory council of more than 100 members representing every large city in the state was appointed.

[illegible] Dean, president of a [illegible] company of this city, who [illegible] the call for the meeting, was [illegible] temporary chairman. He explained the object of the association to eliminate waste in the collection and expenditure of taxes. [illegible] C. Plehn of Berkeley, told [illegible] of the National Tax Association along similar lines.

[illegible] action of county associations throughout the State will be [illegible] by the organization. It will [illegible] compile and publish data relative to State and local taxation and [illegible] expenditure of the revenue [illegible] derived for the information [illegible] public and to aid legislative [illegible] constructive action."

[illegible] UNITES PARTIES.

[illegible] Republicans and Progressives to Present Gift to Miss [illegible] Dixon.

[illegible] BY A. P. NIGHT WIRE TO THE TIMES.]

[illegible] TON, Oct. 23.—Democratic [illegible] and Progressives [illegible] are going to present a [illegible] next month to Miss [illegible], the President's daughter.

[illegible] Leader Mann gathered [illegible] or more members today [illegible] that Miss Jessie be remembered with a fitting gift. The [illegible] met with instant favor [illegible] Clark was designated to [illegible] committee to carry out the

[illegible] BY EASTERN STAR.

[illegible] Goodfriend of San Francisco [illegible] Associate Grand Patron [illegible] Cruz.

[illegible] WIRE TO THE TIMES.]

[illegible] CRUZ, Oct. 23.—[Exclusive [illegible].] Arnold Goodfriend of [illegible], was elected Associate [illegible] Grand Patron, Order Eastern Star, at [illegible] session of the Grand [illegible] of California. This result [illegible] reached after a second ballot [illegible] had been taken. Of the [illegible] Goodfriend received 503, [illegible] Hammar of Vallejo, 496.

[illegible] J. Williatts, who was [illegible] Secretary for the thirty-[illegible] was given the rank of Past [illegible] Grand. At her request, however, [illegible] Predt "Venerable" was [illegible]. Past Grand Matrons Emma [illegible] and Paulina Dohrmann of [illegible] Conference Committee reported [illegible] there was a general sentiment [illegible] the establishment of Eastern [illegible] in States where they do [illegible] exist.

[illegible] Matron Rosa Burns re[illegible] on the proceedings of the last [illegible] of the general Grand Chapter. [illegible] several hundred representatives enjoyed an excursion to [illegible] grove of big trees. To[illegible] beautiful ritualistic work [illegible] was exemplified by the [illegible] grand officers, under the su[illegible] of Grand Matron Martha G.

[illegible] of Past Grand Matrons and Past Grand Patrons Association [illegible] following officers were [illegible]:

[illegible] Mrs. Chlo A. Craig; [illegible] George L. Darling; [illegible] Clara A. Giberson.

[illegible] will close tomorrow. [illegible] place of meeting will [illegible] and the new officers in-

WRIT BALKS CENSORS.

Seattle Mayor Protests Against Injunction Which Prevents Police From Stopping Movie Show.

[BY A. P. NIGHT WIRE TO THE TIMES.]

SEATTLE, Oct. 23.—Mayor Cotterill voiced a protest today against what he calls "government by injunction" because the police were restrained by a writ issued by Superior Judge Kenneth Makintosh from preventing the exhibition of moving picture films disapproved by the City Board of Censors. A warrant charging him with the exhibition of improper pictures had been obtained for Eugene Levy, manager of the theater. Levy could not be found, however, after he obtained the injunction.

"In all fairness, I submit," said Mayor Cotterill, "that the court should have had an immediate hearing in this case instead of fixing the date for hearing as October 30, five days after the conclusion of the engagement of the picture show here. Under government by injunction if a 'movie' were a hundredfold worse than this the censors would be powerless to stop it."

INVITED MAN TO SHOOT.

Exeter Individual Accepts the Invitation and Shoots, but Fails to Show a Steady Nerve.

[BY DIRECT WIRE TO THE TIMES.]

EXETER, Oct. 23.—[Exclusive Dispatch.] Ben Luther, a cannery employee, was the target for two shots fired at him late last night by Bud Hawkins, a ranch foreman, and, following the altercation, Luther was placed in jail to answer a charge of disorderly conduct. Hawkins approached Luther on a business street, according to the testimony of bystanders, and, accusing Luther of too great fondness for Mrs. Hawkins, drew a gun. Luther is said to have folded his arms with the remark: "Shoot, you —— coward." Hawkins shot. After he had fired twice without effect, Luther drew his pistol and at this moment Marshal Mackey arrived. Hawkins's gun disappeared from view and Luther, being armed, was placed under arrest. Luther's gun was found empty when he was placed in jail.

The Hawkins have been separated for several months. Hawkins recently returned from Los Angeles, to find, he says, that his wife had been seen in Luther's company during his absence.

Hawkins has not been arrested, although Luther claims he will swear to a complaint charging assault with intent to commit murder.

BOND ELECTION DATE.

Riverside Supervisors Name Day on Which Million-Dollar Issue Will Be Passed Upon by Voters.

RIVERSIDE, Oct. 23.—Tuesday, December 16, was tentatively fixed by the Board of Supervisors in special session today, as the date on which to hold the $1,000,000 highway bond election. The date was agreed on informally, and will depend on whether it meets with the approval of the San Bernardino Supervisors, since both counties have agreed on holding highway bond elections on the same day and to conduct a joint campaign.

The action was taken following the filing of an amended report by the County Highway Commission, whose first report called for a bond issue of $1,500,000, but which was found impracticable because of insufficient assessed valuation.

The commission asks the board to go on record to the effect that, in so far as it is able, it will carry out the recommendations contained in the original report, except as modified in the second report, and that the board recommend to its successors the following up of the expenditure of the $1,000,000 issue, provided it is authorized, by another bond issue or by direct taxation annually until the system outlined in the first report, as modified in the second, be constructed.

In view of the fact that the natural material for road purposes is above the average between Perris and Elsinore and on the Moreno grade, it was recommended that macadam construction be eliminated on these two proposed strips of highway. The commission also reluctantly suggested that elimination of the road from Mecca to Blythe, but the board decided to restore this stretch of highway to the list.

MAGNOLIA-AVENUE FRANCHISE.

Chief Engineer Pillsbury and Assistant Engineer K. C. Bowen of the Pacific Electric were before the Supervisors today in the interest of desired franchise over Magnolia avenue between this city and Corona. The matter was laid over until November 5. Before that time the railroad company is presumed to have papers prepared for deeding back to the county the necessary crossings, following the vacation of a portion of the avenue for the benefit of the company.

FORGED EMPLOYER'S NAME.

E. D. Gilmore, confessing to having forged the name of A. Cantarini, by whom he was formerly employed, was bound over to the Superior Court after a hearing before Justice Hibbard this afternoon. Gilmore cashed a check for $49.85 at a local bank yesterday afternoon. The suspicions of the officials were aroused as to the genuineness of the check, and a little shack in which Gilmore lodges was visited by Chief of Police Corrington and the necessary evidence secured in a check-book stub from which the forged check had been torn. When arrested, Gilmore was found with $8.05, the remainder having been used to pay a board bill, a poolroom bill of $10, and the expenses of a trip to Colton.

INSPECT ROAD CONDITIONS.

San Juan Capistrano-San Diego Line Is Gone Over by Engineers With View to Immediate Work.

SANTA ANA, Oct. 23.—W. Lewis Clark, a division engineer of the State Highway Commission, and County Surveyor J. L. McBride and Supervisor Jasper Lack yesterday made an inspection of road conditions and rights of way between San Juan Capistrano and the San Diego county line. This trip is in connection with the determination of the State Highway Commission to proceed as soon as possible to complete the State highway through Orange county.

One of the matters looked into yesterday was the location of high tide lines along a portion of the route close to the breakers below San Juan Capistrano.

The State commission has already received bids for building the State highway from Santa Ana to the county line, near Whittier, and preliminary work on the road south of Santa Ana will now be completed by the engineers, so that the data on which bids can be taken may be turned over to the commission.

Precautionary.

"BUBONIC RAT" IN SEATTLE.

Infected District Is Along the Water Front.

Seven "Plague-Bearing" Rodents Found This Month.

Federal Officials Trying to Catch the Others.

[BY A. P. NIGHT WIRE TO THE TIMES.]

SEATTLE, Oct. 23.—Dr. James E. Crichton, health officer of Seattle, said that the bubonic rat situation in Seattle was serious, but that the health department hoped to suppress the disease.

"Not for six years," he said, "has there been a case of bubonic plague in a human being in Seattle. In the six years during which we have been fighting the rats we have found twenty-four plague rats. A considerable number were taken during the plague outbreak six years ago, and recently seven were killed in a section of the water front, which is now thoroughly isolated.

"Thousands of dollars are being expended in Seattle, under the orders of the health department, in tearing down condemned wooden buildings, building cement basements and otherwise making the water front as rat proof as we can make it without a seawall. The infected district is two blocks wide and one block deep, and fronts upon the bay, with a planked street behind. We are working to make it impossible for rats to lodge or breed on the water front."

CLEAN UP DISTRICT.

There was a general cleaning up today on the water front near the foot of Jackson street, in the neighborhood where seven bubonic-plague rats were found recently. Old buildings were being torn down and burned; heaps of rubbish were being destroyed, and earth was being dumped in hollows.

City Health Officer Crichton has the promise that the Mayor and the City Council will provide funds for increasing the energy of the fight against rats, a contest that has been in progress for six years. The miles of wooden wharves prevent the making of the water front rat proof, and the movement in favor of a seawall is gaining strength.

Rat guards on the hawsers of boats at moorings are of no avail, for rats driven by hunger or a desire for new quarters leap from the vessels and swim under the wooden wharves to shore. Experiments with dyed rats turned loose indicate that rats do not leave the water front and enter the mercantile and residence districts. Formerly it was supposed that they wandered far.

GOVERNMENT IN CHARGE.

[BY A. P. NIGHT WIRE TO THE TIMES.]

WASHINGTON, Oct. 23.—Official reports to public health service headquarters say seven rats infected with bubonic plague have been found in the water-front district of Seattle this month. Surgeon-General Blue considers that the situation requires active measures, and, with Assistant Surgeon-General Rucker directly in charge of the work, has ordered Surgeon French Simpson from San Francisco to assist Surgeon Lloyd at Seattle. The State and local health authorities are co-operating with the Federal officers.

Fumigation of ships has been ordered at Seattle and special precautions are being taken to prevent communication of the infection between Seattle, San Francisco, San Diego and Los Angeles.

Public health officials are not alarmed at the situation, but consider it one for prompt and active measures.

DYNAMITE IN CANAL.

Large Supply of Explosive Is Found Near the Klamath Falls Courthouse in Oregon.

[BY A. P. NIGHT WIRE TO THE TIMES.]

KLAMATH FALLS (Or.) Oct. 23.—Children playing today close to the new Courthouse in process of construction found about fifty pounds of dynamite in the main canal of the reclamation project. The police removed 243 sticks, scattered for a distance of half a block. For years the new Courthouse has been the center of a bitter political fight, which culminated last spring in an nusuccessful attempt to recall County Judge William S. Worden, who ordered the Courthouse built on the site its foundations now occupy.

TO BUILD SAN DIEGO RAILWAY.

Company Controlled by Spreckels Brothers Would Issue Fifteen Millions in Bonds.

[BY A. P. NIGHT WIRE TO THE TIMES.]

SAN FRANCISCO, Oct. 23.—Application for permission to issue bonds to the amount of $15,000,000 in order to build a railroad from San Diego, Cal., to Yuma, Ariz., was made to the State Railroad Commission today by the San Diego and Arizona Railway Company. The company is controlled by John D. and A. B. Spreckels.

POLICE CHARGE BLACKMAIL.

TWO CHINESE ARRESTED.

[BY A. P. NIGHT WIRE TO THE TIMES.]

OAKLAND, Oct. 23.—Charged with being at the head of Chinese blackmailers, Min Yoke Ying, and George Leong, also known as Leon Wing, were arrested by the Oakland police today. The former, a woman, is believed to be the director. The Chinese society, according to the police, has been exacting blackmail from Chinese up and down the Coast, enforcing its demands by threats and other means.

DINUBA.

DINUBA, Oct. 23.—Shipping of Emperor grapes, now under way, which started early this week, has shown that much more damage was done by the frosts of October 6 and 7 than at first estimated and it is now figured that probably 25 per cent. of the crop has been damaged. Most of the grapes which have been shipped thus far have been of a very inferior quality, due to the frost, but packers took the position that unless shipped out at once the goods would not stand handling. Many of the growers, whose product is in good shape are now regretting contracts for delivery signed early in the year as there is prospect of a sharp advance in price now that a shortage appears certain. Demand for Emperors has been brisk and the market is as good as at any time for the past several years.

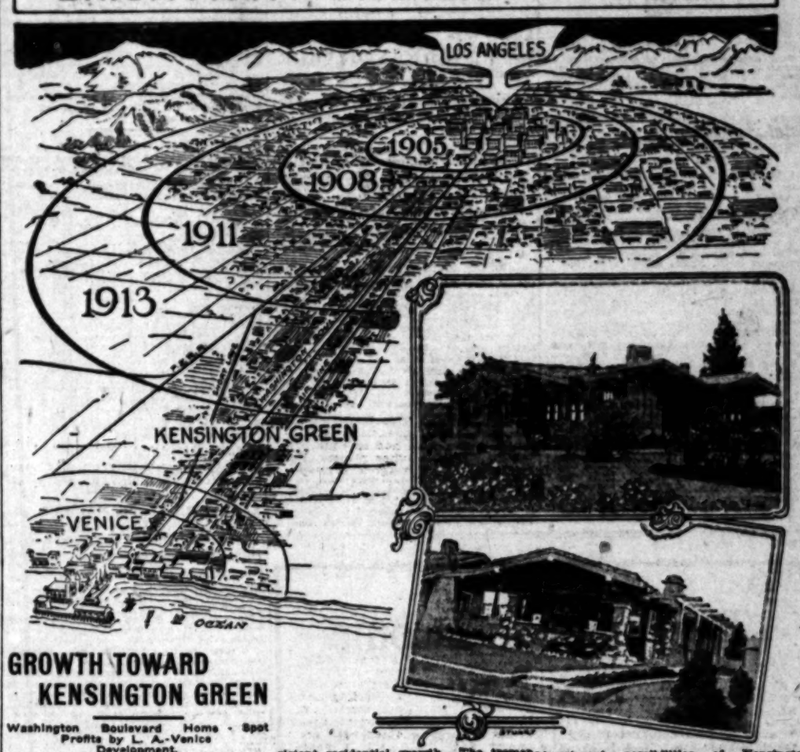
TO BEAT NEW TARIFF.

Power Schooner Races to San Diego After Merchandise for Import Into Mexican Port.

[BY A. P. NIGHT WIRE TO THE TIMES.]

SAN DIEGO, Oct. 23.—In an effort to reach San Diego, load a full cargo of staple commodities and land them at Ensenada before next Tuesday, the power schooner Bernardo Reyes is coming up the coast at full speed. The new Mexican tariff, which according to local customs officials, will increase duties 50 per cent., will go into effect on that day. Ensenada merchants have recently procured large quantities of groceries, lumber and mixed merchandise from local dealers, the goods being subject to the old duties only. The mission of the Bernardo Reyes is to add to the supplies thus imported at Ensenada before the new tariff takes effect.

BRISK ACTIVITY "VENICEWARD"



GROWTH TOWARD KENSINGTON GREEN

Washington Boulevard Home Spot Profits by L. A.-Venice Development.

Fortunes have been made by those who have bought land in the direct path of the city's best growth. The picture above is used to illustrate the steady, unswerving, determined growth of Los Angeles toward Venice. This growth is now concentrating along Washington Boulevard. It is not deviating to the right or left—but pushing out almost directly in a straight line.

Kensington Green—the prettiest subdivision on Washington Boulevard—is squarely in the path of this steady, persistent residential growth. The tremendous summer sales record in this subdivision proves that investors and home-seekers realize the investment value of property in this handsomely improved residential park.

Venice, too, is pushing out rapidly to Kensington Green. In just a short time the entire stretch from Los Angeles to Venice along Washington Boulevard will close in solidly, and the original purchasers in Kensington Green will have doubled—yes, perhaps trebled—their money.

Go down and study the home and investment possibilities of Kensington Green. Invest your money in the certain absolute, determined path of the city's best residential development. Beautiful villa sites as low as $740—in a neighborhood where lots are held at $1700 to $5000.

Ask about the beautiful Buick worth close to $2000 that is being given away absolutely free solely for the purpose of advertising Kensington Green. Pratt Sales Service, 709-10 Title Insurance Bldg., Fifth and Spring Sts. Phones: Home F4271—Bdwy. 3656.—[Advertisement.

An Institution Concentrated on Serving YOU

The bank where you, whether you're worth $1,000,000.00 or $10, will be accorded the same, unvarying treatment. The bank where your neighbors, who want to borrow money, will be greeted with the same courtesy and anxiety to please which will greet you when you want to deposit sums running into thousands.

That's what we mean by SERVICE. That's what we mean when we claim that the Bank of Italy pays more attention to SERVICE than most similar institutions.

That's what we mean when we solicit your account here and say that we will give you the kind of SERVICE which you need.

That's what has made the Bank of Italy one of the greatest and most powerful financial influences on the Coast today.

That's what has induced men of millions, men of success, men of national strength, to act as directors of this bank.

This is YOUR bank.

Whether you speak English, French, German, Italian, Russian, Greek, or any one of a score of other tongues,

There is a man here to talk to you in the language you best understand.

Whether your deposits and your account be large or small,

There is a very sincere anxiety to serve you well.

Whether your work be fruit growing, or plumbing, or selling dry goods, or doing anything else,

There is some man on our board of directors who knows the needs and requirements of that business, from the SUCCESSFUL man's viewpoint. And that man will help you by his advice and suggestions.

That's why this is the Bank best suited to YOUR needs.

WANTED PARTNER, OFFICE AND FINANCIAL MANAGER, OR PROMOTER WITH ABOUT $2500. Let me show you how I put out $271.00 and almost immediately commenced to take in $1000.00 every month here in California and why you and I can now do this same thing in 54 other sections of the U. S. Los Angeles Street. Phone "Well-known Inventor and Manufacturer," Main 3923 or call 329 South

Stocks and Bonds.

STOCK SHOWING IS FAVORABLE.

BETTER DEMAND IS DEVELOPED TOWARD THE CLOSE.

Feeling of Trading Element as a Whole Remains Distinctly Bearish, Steel Being Unloaded in Rapid Succession During the Early Buying—New Haven Takes Slump.

[BY A. P. NIGHT WIRE TO THE TIMES.]

NEW YORK, Oct. 23.—In spite of a severe break in stocks at the outset today the market made a fairly good showing. After declines of 1 to 2 points had occurred among all the leading speculative shares with an outpouring of offerings which for a time threatened to upset the market badly a better demand developed. The list moved off from the best figures in the late dealings. But the close was well above the low points of the day. There had been distinct improvement in certain lines. Today's report of the life car movement showed that for the first time this season there was a shortage of freight cars. Rates for both time and call money were lowered today. Despite these improving tendencies the feeling of the trading element as a whole remained distinctly bearish. Steel was unloaded in a rapid succession of large blocks during the early trading, and its recession of nearly 2 points did much to force down the list as a whole. American stocks were marked down in London before the opening here and the decline abroad was followed by the disposal of fifteen thousand or more shares here for foreign account.

The intimation of Chairman Elkott of the New Haven, at the annual meeting that the dividend rate probably would be cut to 4 per cent, caused a slump of three points in that stock to 82, a new low record. Subsequently it made a partial recovery. Bonds shared traces of speculative selling under which most issues worked lower. The new Interborough Rapid Transit 5s, which were put on the market at 94½, sold at 93. Total sales, par value $1,285,000. United States 2s registered advanced 1-8 and the 2s coupon and 4s and Panama 2s, 1-8 on call.

NEW YORK STOCK MARKET.

Tendency Toward Improvement Is Shown Following Weak Opening. Sentiment Is Mixed.

[Furnished by Logan & Bryan, Members New York and Boston Stock Exchanges, Bradbury building, Los Angeles.]

NEW YORK, Oct. 23.—The market was decidedly weak during the first hour, but later showed a tendency to improvement. This was indicated by moderate recoveries from low levels. Sentiment was rather mixed and many who had become rather enthusiastic as a result of action of the list on Tuesday were disposed to revise their calculations and to reduce long lines. There still seems to be operating in the market on the conservative side a rather strong professional crowd and it would, therefore, not be surprising should further efforts be put forth to establish a temporarily higher range of values. But the Stock Exchange is fast approaching and conditions in that quarter have not altered for the better. The Steel Corporation's quarterly statement will be published next week and this should offer a rather fair guide to existing conditions in the steel and iron industry, though, of course, since the end of September the advices as to slackening trade tendencies have been rather more pronounced than before.

LOS ANGELES STOCK EXCHANGE.

Bearish Attack on National Pacific Proves Weak and Stock Closes Firm, With Slight Loss.

Except for a weak bearish attack on National Pacific early in the day and faly interest in Los Angeles Investment the market revealed nothing of particular interest. National Pacific was firm toward the close, which showed only a slight loss from Wednesday. Union Oil was soft on a few trades. The bonds sold at 82. Union Provident was at 200. The rest of the oil stocks were dull. Los Angeles Investment closed somewhat stronger than the previous day. There was a higher bid for Globe Savings Bank stock.

Comstocks and Outlying Camp Issues Reveal Strength—Goldfields Are Firmer—Tonopahs Dull.

[Furnished by E. F. Hutton & Co., Members New York Stock Exchange, 118 West Fourth street, Los Angeles.]

SAN FRANCISCO, Oct. 23.—Tonopahs were uninteresting, with no special changes. Merger showed some weakness, the closing of 2 points. Goldfields were unchanged to 2¼ points up. Manhattans are out of demand. Comstocks were stronger. Mexican was up 7½; Consolidated Virginia, 5; Sierra, 3, and Ophir, 2. Outlying-camp stocks were a point up.

COMMERCIAL.

LOCAL PRODUCE MARKET.

There is considerable speculation among the producing men as to whether the present advancing prices of potatoes and onions will hold, and the majority are of the opinion that there will not be a return to any lower quotations, because of the rapidity of the crop movement this year. Up to the Stockton and Sacramento River there has been no delay this season in the harvest, every effort being made to get the spuds out as fast as possible to meet the demand that is coming from all parts of the West. The crop for the States of Montana, Wyoming, Colorado, Arizona, Utah, Nevada, Idaho, Washington, Oregon and California is only 85 per cent of what it was the year previous, when the total yield ran to practically 50,000,000 bushels in this territory.

As for the California crop quality, the potatoes are not as heavy in body, running more to long spuds than usual, due to the seeding of stock of the previous year's harvest, rather than imported seed potatoes. There was less little grass root, no scab to speak of, and little damage from worms this year. Prices have been advancing steadily, and without any great bumps from week to week. Up to the present time there have been nothing more than sample shipments of Salinas and Lompoc spuds. The growers in that section are asking a higher price than those on the river islands, and from what they want by the time their crop is really ready to move, which will be in about two or three weeks. Yesterday's receipts of potatoes were 4800 sacks.

The onion market was very firm, and the manner in which onions have advanced has caught some of the dealers very short of stock, and many have to pay pretty high figures for the onions obtainable. Yellow Danvers and Australian Browns, f.o.b. Stockton, or Sacramento, were quoted at $1.65 to $1.90 yesterday. The onion crop is about 75 per cent of a hundred. California is looked upon as the State to supply the entire Pacific Coast, onions being very short in Oregon and Washington this year. Receipts yesterday were 200 sacks.

There was no change in eggs. The market on the product continued very firm and receipts totaled 118 cases. Butter arrivals were 34,752 pounds. The market still continues weak. There was a good demand for eastern cheese, and receipts were fair, 1428 pounds from this State. Only 19 sacks of sweet potatoes were brought in from outside

Public Service: City Hall, Courts.

SUMMARY OF THE DAY.

Members of the City Council yesterday inspected streets where an exemption for the present from the terms of the girder-rail ordinance is asked. It is probable that exemption will be given in a portion of these streets, in conformity with the recommendation of the Municipal League.

The City Council has set this forenoon as the time for considering, as a committee of the whole, the subject of increasing the fees for liquor permits. The extension of the liquor zone is also likely to come up for consideration today.

The Board of Public Works yesterday set the date for receiving bids for the construction of a fish wharf at the inner harbor.

The Annexation Commission yesterday adopted by unanimous vote the first plank of its tentative platform, declaring that territory must become a part of the city before it receives aqueduct water service.

At the City Hall.

MAY RECOMMEND T-RAILS STAY.

COUNCILMEN INSPECT STREETS UNDER CONSIDERATION.

Believe Economic Waste Not Justified by Advantages Gained Would Result Were Corporation Compelled to Tear Out Tracks Now in Good Condition.

The question of adopting the revised ordinance designating the sort of construction to be used in bed for railways in streets and the use of the girder rail, and also that of exempting the Los Angeles Railway Corporation from laying the girder rail in certain streets where the T-rails are in good condition and usable for several more years, will go before the City Council today.

The subject has been in the hands of the Public Works Committee for some time, and a few days ago the Board of Public Works adopted a resolution urging the Council to adopt the ordinance, or the board would have to proceed with prosecutions of the railway corporation for violations of the existing ordinance in neglecting to lay the girder rail where T-rails exist in paved streets.

Councilmen Bryant, Betkouski, Langdon and Snowden made a tour of inspection yesterday to the streets in question. Upon their return Councilman Betkouski stated that it was very probable the committee would report that the corporation be exempted from laying the girder rail at present in all streets recommended by the Municipal League, with the exception of Boyle avenue and possibly Washington street. At least in Boyle avenue the Council will insist that the girder rail be placed at once.

The Board of Public Works makes no recommendation for an exception on any streets, but its members insist that if such exemption is made, this must be included in the ordinance itself, so that there may be no future question arise as to the responsibility.

The recommendation of the Committee on Streets of the Municipal League, approved by the Executive Committee of the league on September 24, is to the effect that the rails in the following streets be exempted at this time:

Washington street, from Western avenue to the westerly city limits, 6700 feet; Boyle avenue, from Sixth to Seventh streets, 2500 feet; Vernon avenue, from Vermont avenue to the easterly city limits, 15,400 feet; Adams street, from Fifth avenue to the westerly city limits, 32,000 feet; Hoover street, from Seventh street to Wilshire boulevard, 7500 feet; Eighth street, from Vermont avenue to Catalina street, 1100 feet; Estrella avenue, from Washington to Twenty-third streets, 1450 feet; Beaudry avenue, from Alpine street to Sunset boulevard, 600 feet; Commonwealth avenue, from Wilshire to Fifth street, 1200 feet.

Because of ambiguous phraseology in the original girder rail ordinance in regard to "construction" and "reconstruction," the Board of Public Works and Council committees have deemed it a proper safeguard to adopt a new ordinance that will be thoroughly explicit on these lines, but retaining the full intent of the girder rail ordinance which was approved by a vote of the people in 1911.

LIQUOR LICENSES.
DISCUSS INCREASE TODAY.

The City Council will sit as a committee of the whole immediately after its regular session this forenoon, to consider the recommendations made by President Whiffen some time ago, that the liquor license rates be increased in proportion to the worth of this special privilege. It is also likely that the subject of extending the liquor zone will be considered at this time, as the subjects are intimately connected.

Besides the Whiffen recommendation, the Council will have before it the protest of the Church Federation against any extension of the liquor zone, and a statement from F. C. Finkle to the effect that he had had plans prepared for the erection of a fourteen-story class A hotel building, to completely surround the Hotel Snow, at Flower and Sixth streets, and to contain approximately 320 guest rooms; but that he finds he is unable to lease such a building without it being able to secure a bar and first-class cafe liquor permit. Finkle states that he wants to complete the building for the 1915 business, but that he has property in San Francisco that can be used for a similar building, and must go there with his structure if arrangements are not made to include the Los Angeles building in the liquor zone. He urges a decision as soon as possible.

It is probable that an appeal will be made to extend the liquor zone southward as far as Pico street, so as to include the business district that has developed within the past two or three years, and to curtail the zone on the north, thus shutting out some of the saloons that make the most trouble for the police department.

Bids on Fish Wharf.

The Board of Public Works yesterday received from the Harbor Commission its official approval of the specifications for the fish wharf to be erected by the city south of the Southern Pacific wharves, and near the S. P. Slip, on the west side of the inner harbor. The board set November 3 as the date for opening bids for the construction of this wharf, which is to be 200x10 feet.

ANNEXATION FIRST.
THEN AQUEDUCT WATER.

Plank No. 1 of the Annexation Commission's tentative programme was formally adopted by a unanimous vote of the commission yesterday.

This plan reads: "Annexation or consolidation should be a condition precedent to the furnishing of water to any territory."

The remainder of the session was given over to a discussion of the plank on sewers, but no definite decision was reached. It was reported that the present outfall sewer is in use to a little more than one-half its full capacity, but that in winter rainy seasons there are times when it is taxed to its full capacity. South Pasadena is about the only outside territory that could make use of the present outfall sewer. The City Engineer has now in hand the preparation of plans for a new outfall sewer, and it was conceded that the territory coming into the city should have to pay its just proportion to this improvement.

The board decided to request all outside territories that are under discussion to send delegations to its meetings, so that they may thoroughly understand the general situation and the means that are being taken to secure a platform that will be fair to both city and outside districts.

Today the commission will have a further conference with delegations from the San Fernando Valley. It is expected that a plan will be presented by the valley people, indicating what they would consider a fair basis for annexation.

UNANIMOUSLY ADOPTED.
REPORT ON SURGEON ZERFING.

The report of the Public Safety Committee on the hearing of charges preferred against Police Surgeon Zerfing, and the committee's recommendations that Zerfing discontinue his connection with the hospital "for the best interests of all concerned," was unanimously adopted by the City Council yesterday.

Zerfing is to tender his resignation at least two weeks before December 31, on which date his second term would expire. This throws the field open for candidates, and much activity may be expected within the ensuing few weeks.

Owl Service Wanted.

The Euclid Heights Improvement Association wants an owl car service on the Euclid and Stephenson avenue line of the Los Angeles Railway. The desires of the Euclid Heights people were presented to the City Council yesterday by Councilman Bryant. The subject was referred to the Public Utilities Committee of the Council.

City Tax Collections.

The City Tax and License Collector reports that the largest collection of taxes for any day this year was the 21st inst., the collections on that date amounting to $32,672.68. The total collections for the first fourteen days of the 1913 tax-paying period have amounted to $274,035.08, as against $187,751.42 for the same period last year, or an increase of $86,283.66. Taxpayers who desire bills mailed to them are requested to give a statement of just what bills are wanted, and legal descriptions of the property.

As Mayor He Cannot Vote.

Lacking one vote of the necessary six to adopt the resolution of necessity for the issuance of power bonds, which carries with it the plan to combine as one proposition the two items of bonds for completion of the power plant and for the acquirement of a distributing system, the proponents of this measure sent to Coachella Valley to secure the presence of Councilman Reed, who is absent on sick leave.

Reed telephoned yesterday that he will be back and in the Council chamber tomorrow morning. The plan was to shove the combined proposition through regardless of the strong protests being raised in all directions.

But the Mayor has accepted an invitation to go quail-shooting at Middle ranch, on Catalina Island, Saturday, and yesterday he so notified President Whiffen of the Council, and requested him to serve as acting Mayor until Rose returns to the city. This means that, notwithstanding the return of Reed, the Council will be in exactly the same voting position as heretofore, on the bond resolution, as Whiffen, serving as acting Mayor, cannot vote in the Council.

At the Courthouse.

DEMANDS GOLD ONCE HIS GIFT.

PRESENT GIVEN WIFE POSSESSED BY STEPDAUGHTER.

Now He Demands Money Be Returned Since His Spouse Is Dead. Court Requires Alaskan Miner to Come Out of the Wilds Before February Thirteenth.

The quest of gold lured D. Moriarity to Alaska, and the longing to see his wife drew him back to civilization only to learn that she had died. Now the gold hunter is again in Alaska, and because of this a court battle for the recovery of gold turned over to his wife and alleged to be retained by his stepdaughter, Mrs. Martha A. Reed, was continued by Judge Wellborn yesterday until Friday, February 13, 1914, by which time it is expected Moriarity will be located in the far Alaskan interior and his deposition taken.

There are many fine legal points in the suit and a story full of human interest. Although Moriarity is said to have amassed considerable wealth in Alaska, he seems determined to obtain from his stepdaughter the original $1200, at first represented in gold dust and exchanged at the mint for gold coin, and accrued interest, a total of $3295. He has retained Stutsman & Stutsman and Caspar A. Ornbaun of San Francisco. Contesting the claim for Mrs. Reed is former Judge David B. Roy, at one time Attorney-General for Alaska. The legal question involved is whether the $1200 turned over to the wife was a gift or a trust.

Before 1898 Moriarity lived with his wife at Ft. Bragg, this State. They moved to Oakland and later the gold fields of Alaska drew Moriarity into the frozen North. In 1901 he returned with a bag of gold dust which he proudly gave to his wife. Previous to that he had deeded his property to his wife.

Moriarity returned to Alaska for a clean-up. Although of an affectionate disposition, he was not demonstrative and seldom wrote, being but a poor hand at writing. He sent two letters, one in 1905 and one in 1907, and both letters were returned to him. In 1912 he came home to find his wife. He inquired at the church they formerly attended and among friends they had made, only to learn she had died.

He inquired about the nest egg he had brought from Alaska, and found that it had been deposited in bank in the names of the mother and the stepdaughter. The latter had married Frank Reed. Then Moriarity retained lawyers, filed the suit against his stepdaughter, and once more turned his face to Alaska.

INDIANS ARE WHITE.
DEMAND CITIZENSHIP.

In a brief which practically covered the subject from the Garden of Eden down to the Judgment Day, Sakharam Ganesh Pandit, lecturer, bases his claim to become a citizen of the United States on the ground that the typical Brahman is perhaps the best representative of the Indo-Germanic stock. High-caste Hindus, he declared, always considered themselves to be members of the Aryan race, and their native term for Hindustan is Arya-Vartha, which means country or land of the Aryans.

The brief was filed in Judge Morrison's court and after examination by him yesterday he declared it was the most exhaustive and comprehensive treatment of the subject he had ever read. In this view he was concurred in by Naturalization Examiner Jones. Pandit argued that it would be as easy to rule out the Greek as the Hindu from the white race, and dipped deep in entomology to prove his point.

He cites the decision of Judge Rudkin, who admitted a high-caste Hindu, under section 2169, United States Statutes, which states that "The provisions of this title shall apply to aliens being free white persons, and to aliens of African nativity and to persons of African descent." Judge Morrison took the matter under submission.

COURT PROTECTS HER.
REFUSES TO GIVE DAMAGES.

A story with pathetic features was unscrolled in Judge Wellborn's court yesterday. It began when Mrs. Mary M. Husted, while deranged, shot and slightly wounded Bertha Becker at Long Beach. Out of her slender earnings as a washerwoman Mrs. Husted has paid for a home. Criminal prosecution for wounding Miss Becker was suspended, as it was found she was not responsible for shooting the girl. She was sent to Patton. Miss Becker and her brother, Andrew Becker, brought separate suits for damages against Mrs. Husted, and a Long Beach justice gave judgment against her. The property was levied on while she was a patient at Patton.

Mrs. Husted was released from Patton last year and sold her home to her brother, Charles M. Martin. He brought suit to quiet title and judgment was given for Martin, as the court decided the judgment in favor of Becker and his sister was given against an insane person, and furthermore that no guardian ad litem had been named in the suit.

OFFER NEW EVIDENCE.
HUSBAND WITNESSES KISSES.

The motion of Attys. Trippit and Laubersheimer for a non-suit in the sensational Caspar will contest was granted by Judge Houser yesterday, but the case was re-opened on the motion of Attys. Harris and Graves that they had new evidence they desired to offer. Mrs. Emily Ainley, the chief beneficiary under the will of Shoapin Caspar, late a bachelor art photographer, was called by the contestant, Sahman Babbik, a cousin of Caspar's, and although closely examined by Harris, failed to show in any manner that she had made love to Caspar for the purpose, as alleged, of inheriting his fortune.

Mrs. Ainley was cool and collected on the stand, giving clear answers to the searching questions. She admitted she regarded Caspar as a dear friend and did not hesitate to say that she had kissed him when he left the house and upon his return, but always in the presence of her husband. The case will probably be concluded today.

CLAIMS PARTNERSHIP.
YOUTH WOULD BE SERVED.

Interest in the mysterious disappearance of Francis Hoffman, a one-armed veteran of the Civil War, was revived yesterday when Edgar White, aged 18 years, through his mother, Sarah White, his guardian, brought suit against Joseph Hoffman, the missing man's brother, for claim and delivery, alleging he was a partner in the management of a 160-acre ranch near the Ventura county line.

It appears that Francis Hoffman left the ranch September 28, last, and some time later his horse returned without saddle or bridle. Since that time nothing has been heard of him. Joseph Hoffman, the brother, who owned the adjoining ranch, claimed the property of his brother as the nearest heir. The boy White claimed an interest in the ranch and the 100 head of cattle being fed for the market, on the ground of a partnership agreement. He is represented by Attorney Ackerman.

MUST PAY IT BACK.
HE SAVED HER BOY.

The suit of F. Q. Poetker against Rosa B. Lowry, heard by Judge Wilbur yesterday, developed the story of a boy, a bachelor's interest in him and money he advanced to save the lad from being turned over to other parties. In 1911 Mrs. Lowry appeared to be in financial straits. She considered giving the boy into the custody of John and Hattie Leggett. Poetker, then a bachelor, took a fancy to the lad, and advised her to keep him, agreeing to pay the expenses of maintenance.

He gave her $1250 and Mrs. Lowry signed a demand note. Later he filed suit for the money advanced. Mrs. Lowry filed a cross-complaint, alleging that $1800 was due her for the keep of the lad. The cross-complaint was nonsuited and judgment was given for Poetker.

WILL IS BRIEF.
WIDOW AND DAUGHTER.

The will of Milton A. Treat of Morris City, Minn., who died in Los Angeles on the 16th inst., bids fair to be the record for brevity. It was written by himself and states simply that he wants the property divided equally between his wife, Julia A. Treat, and his daughter, Cordelia S. T. Parker, "if both should be living after my death." It was executed February 16, 1907.

Treat owned property in this county and in Clay county, Iowa. The value of the California estate is $40,000. No executor was named by Treat. The petition for the probate of the will was filed by Mrs. Parker. W. Maxwell Burke filed a petition for letters of administration.

COURTHOUSE NOTES.
BREVITIES MISCELLANEOUS.

CONDEMNATION SUIT. Judge Works will decide this morning whether or not the East Hollywood main sewer proposed from Temple to Sixth street, through property owned by the Forest Park Company, and the Pacific Electric, and desired by the city for the Silver Lake Park improvement, is a public necessity. Argument in the condemnation suit of the city against Jessica S. Vance, was heard yesterday. The defendant held it is not necessary to condemn the land for a public sewer. The city, represented by Assistant City Attorney Burnell and Deputy Whitehead, argued that the ordinance is conclusive and that the sewer is a public necessity.

SMALLEST RAILROAD. A damage suit against the Angel's Flight, the shortest railroad in the world, was filed by Make Kane, a milliner, yesterday. She asks $15,150 for injuries received when one of the two cars running up the incline at South Olive street, dropped back, by reason, she alleges, of defective appliances. The defendant named is the Funding Company of California. The plaintiff alleges she earned before the accident $25 a week at her trade.

COURT'S ADVICE. In granting Fred C. Hawley, a decree of divorce on the ground of desertion, Judge Monroe yesterday gave him this advice. It appearing that Hawley had known his wife only two months before marrying her: "You only knew her two months and lived with her about two months," he said. "You had better be sure you know the next one, young man."

ONE-TENTH JUDGMENT. Clara H. Strobel asked $5000 damages for injuries received when she fell over a pipe lying near the Maier pier at Venice, alleging negligence on the part of A. Stutser and the Maier Pier Company. A jury in Judge Wood's court awarded her $500.

INSTRUCTED JUDGMENT. Judge Wilbur yesterday instructed a jury to find judgment for the Los Angeles Railway in the suit of Susan C. Howard, who alleged she was injured while alighting from a car at Fifteenth and Main streets, by the sudden starting of the car. She alleged the company was negligent.

INCORPORATIONS. Radiant Lubricant Company, incorporators Henry C. Post, L. A. Root, Virgil A. Martin, C. F. Wickland, Edwin B. Root, capital stock $250,000, subscribed $500; Longfellow Hiawatha Dramatic Company, incorporators E. B. Parker, Charles Singer, S. W. SIX YEARS FOR BURGLARY. John Turner, a man with a long police record, was sentenced to San Quentin for six years by Judge Craig yesterday. He pleaded guilty to a charge of burglary. The police say that under various aliases the defendant has committed ten or more burglaries within the past year.

A New Principle in Complexion Treatment
(From Society World.)

Most creams are injurious when used habitually. They clog the pores and eventually form a permanent, soggy, stifling film which interferes with eliminative action and makes the skin sickly and pasty. There is an application — mercolized wax — which acts upon an entirely different principle. While perfectly harmless, it has the peculiar property of removing by absorption the dead and half-dead particles of scarf skin, as well as unhealthy matter in the pores. Thus it takes away from instead of adding to the complexion, differing in this respect from cosmetics. The result is a perfectly natural and healthy young complexion. Mercolized wax, procurable at any drug store (one ounce is sufficient,) is applied at night like cold cream and washed off in the morning.

The correct principle in the treatment of wrinkles is to tighten the skin, which naturally irons out the lines. A face bath, remarkably effective in this direction, may be made by dissolving 1 ounce powdered saxolite in ½ pint witch hazel.—[Advertisement.

Mother Stanislaus Tells of Recovery

Throat Troubles, like continued coughs and colds, often seriously affect the lungs. If you have not found any improvement from the treatment you have tried, investigate the many reports showing benefits, and, in numerous cases, complete recoveries, brought about by the use of Eckman's Alterative. This is a medicine for Throat and Lung Troubles, favorably known for more than fifteen years. Read this case:—

Convent of St. Anne, Sanford, Fla.

"Gentlemen: In February, 1911, four doctors examined my throat and pronounced the necessity of an operation. Having heard at Peekskill, N. Y., Motherhouse of the Sisters of St. Francis, where I was visiting, of Eckman's Alterative, I determined as a last resort to try it. After taking four or five bottles large pieces of diseased tissue came away. I continued the Alterative, to my grateful and daily relief. In ten months I was restored to perfect health. I would be glad to write or talk to any person who may have a doubt about it. I would like them to see and hear from my own lips, if they so desire, all I would say of it.

(signed) MOTHER M. STANISLAUS.

(Above abbreviated; more on request.)

Eckman's Alterative has been proven by many years' test to be most efficacious for severe Throat and Lung Affections. Bronchitis, Bronchial Asthma, Stubborn Colds and in upbuilding the system. Contains no narcotics, poisons or habit-forming drugs. Sold by the Owl Drug Co. and leading druggists. Write the Eckman Laboratory, Philadelphia, Pa., for booklet telling of recoveries and additional evidence.

SATURDAY MORNING,

Waterway.

USE LOCKS IN CANAL.

Vessel Enters the Culebra Cut.

Complete Operation of Devices at the Pacific Entrance.

Another Step Toward Final Triumph of Engineers at Panama.

Trestle to Be Lifted to Permit Dredge to Pass Farther Along.

[BY CABLE AND A. P. TO THE TIMES.]

PANAMA, Oct. 24.—The pipe line suction dredge No. 85, which has been working at the Pacific entrance of the Panama Canal, successfully passed today through the locks at Miraflores and Pedro Miguel.

The vessel, in tow of the tug Miraflores and accompanied by auxiliary craft, entered the lower lock at Miraflores at 9:04 o'clock this morning.

It was lifted into the second chamber at 9:45 o'clock, passed out into Miraflores Lake at 10:20 o'clock, and thru the Pedro Miguel lock at 11:10 and emerged from this lock into the Culebra cut at 11:52.

Tomorrow the girder span of the railroad trestle at Paraiso will be lifted to permit the dredge to pass through on its way to the Cucaracha slide, where it will begin excavating.

The passage of the dredge constitutes the first complete operation of the Pacific locks of the canal.

HEADS TEXTILE WORKERS.

PHILADELPHIA, Oct. 24.—[By A. P. Night Wire.] John Golden, Fall River, Mass., was re-elected president today of the United Textile Workers of America, defeating Te[illegible] Hall, Philadelphia, by a vote of 74 to 14.
